Q&A

# Talent is critical

Total Workforce Management **at the heart of the Intelligent Enterprise**

## SAP Definition of Total Workforce Management (TWM)

Managing all aspects of the total workforce (employees and external workers) in line with company's business objectives and a clear line of sight into the financial impact.

### SAP vision

Enabling the end-to-end business process of planning, sourcing, and managing the total workforce, and facilitating a holistic talent strategy to achieve agility and game-changing business outcomes.

### Business Benefits

- Get total workforce engaged and productive quickly
- Provide tools & insight to leaders to make better talent decisions – aligning to key business & financial priorities
- Drive cultural change including worker engagement by new and meaningful experiences that link purpose to performance

### TWM sub-processes

Hire to Retire

Travel to  
Reimburse

External Contingent  
Worker Management

# Total Workforce Management - End to end business process flow

## Planning

### Workforce planning

Organization generates a plan by modeling the demand for talent

### Travel budget planning

Budgets are planned and assigned

### Project planning

Individual project planners identify needs

## Staffing

### Identify internal talent

Search for existing resources with the required skills

### Recruit new hires

Open requisitions, find candidates, make offers

### Source contingent workers

Open reqs, create PO, work with suppliers

## Onboarding

Complete paperwork, receive equipment, take training, meet team members, etc.

Request - book - **travel** - capture receipts - monitor against policies - **expense** approval

Submit and approve **timesheets**

Provide **feedback** and complete ongoing **skills assessments**

Deliver ongoing **training and development**

**Monitor** deliverables, costs (including travel) and margins, close quarter end

## Paying

Pay **internal employees** via payroll. **Reimburse** for travel

Process invoices from suppliers for **contingent workers** and travel agencies; pay corporate cards

## Closing

Update **financial statements**, and make corrections as needed

Submit final time and expenses and **close project**

**Offboard** internal and external resources

Q&A

# From integration to integrated business processes

Illustrative high-level view for Total Workforce Management

# Simplified experiences, processes, and administration

## With onboarding 2.0

Increased use of SAP SuccessFactors tools and technologies such as common data structures, business rules engine, document management, and enhanced homepage:

- Streamlined configuration and administration
- Overall consistent and engaging user experience through our Fiori-based design
- Improved flexibility and extensibility e.g. easier integration such as document management vendors
- Reduction of duplicate functionalities such as notifications, permissions, document storage, and more.

**Update Onboarding Information**

Progress:   
 ✓ Getting Started   
 ✓ Uniform Size/Color   
 Parking / Commute   
 Fitness Center

\*Will you use public transit?   
 Yes

# SAP Cloud Platform Master Data for workforce

## Concept and definition

SAP Cloud Platform Master Data for workforce delivers consistent people data to enable digital end-to-end business processes across solutions in the Intelligent Enterprise.

Designed as a centralized service on SAP Cloud Platform, it is a key part of our Intelligent Enterprise software architecture that enables comprehensive integration and drives the employee experience.

# SAP Cloud Platform Master Data for workforce

A centralized service as common people data layer for the Intelligent Enterprise

## Consistent people data

- All relevant people information available for all solutions within the Intelligent Enterprise landscape
  - Employee data
  - Organizational data
  - Contingent workforce data
- Out-of-the-box integration for all SAP solutions

## Intelligent Enterprise architecture

- One aligned data model across all solutions based on SAP Cloud Platform
  - Common repository for all master data
  - Latest service based technology (OData V4)
  - Open standards, extensible
  - Point-to-point or middleware based integration

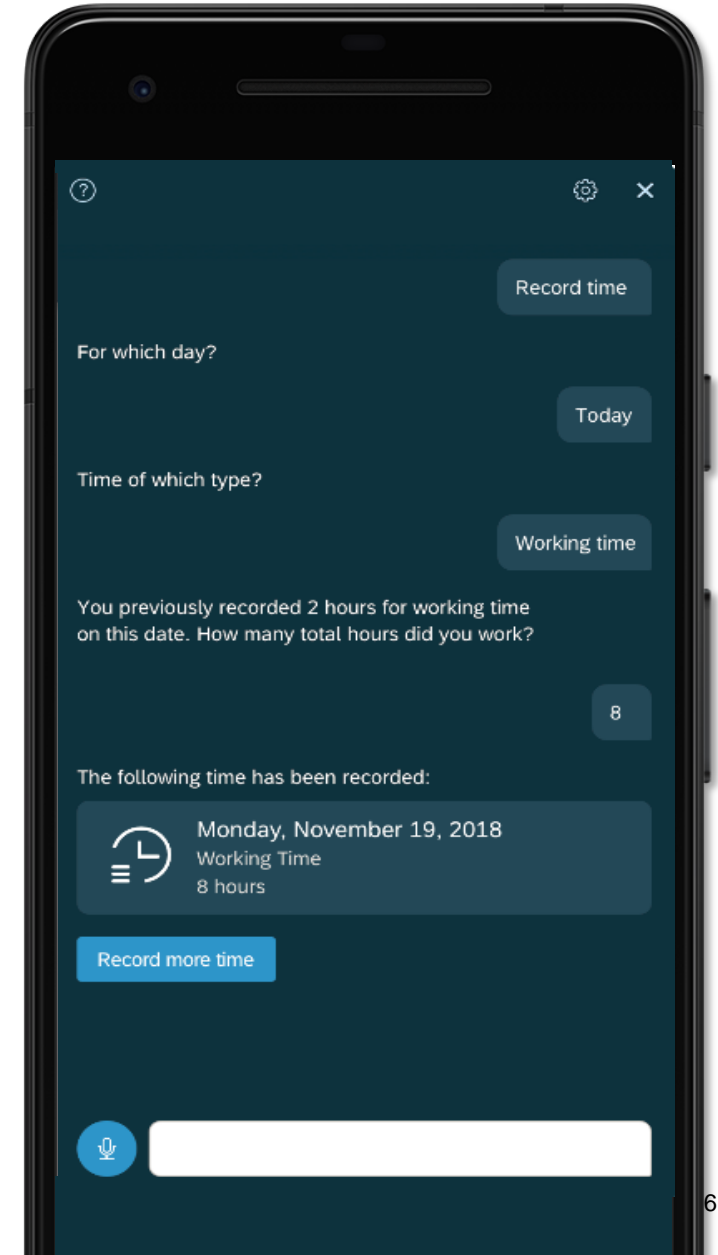

## Integration drives employee experience

- Master data engine for comprehensive integration beyond data layer
  - Unified user experience and end-to-end analytics
  - Common technical services like single-sign-on, workflow, time sheet
  - Central monitoring, business con-figuration and provisioning

# Digital assistant

“AI is the new UI”

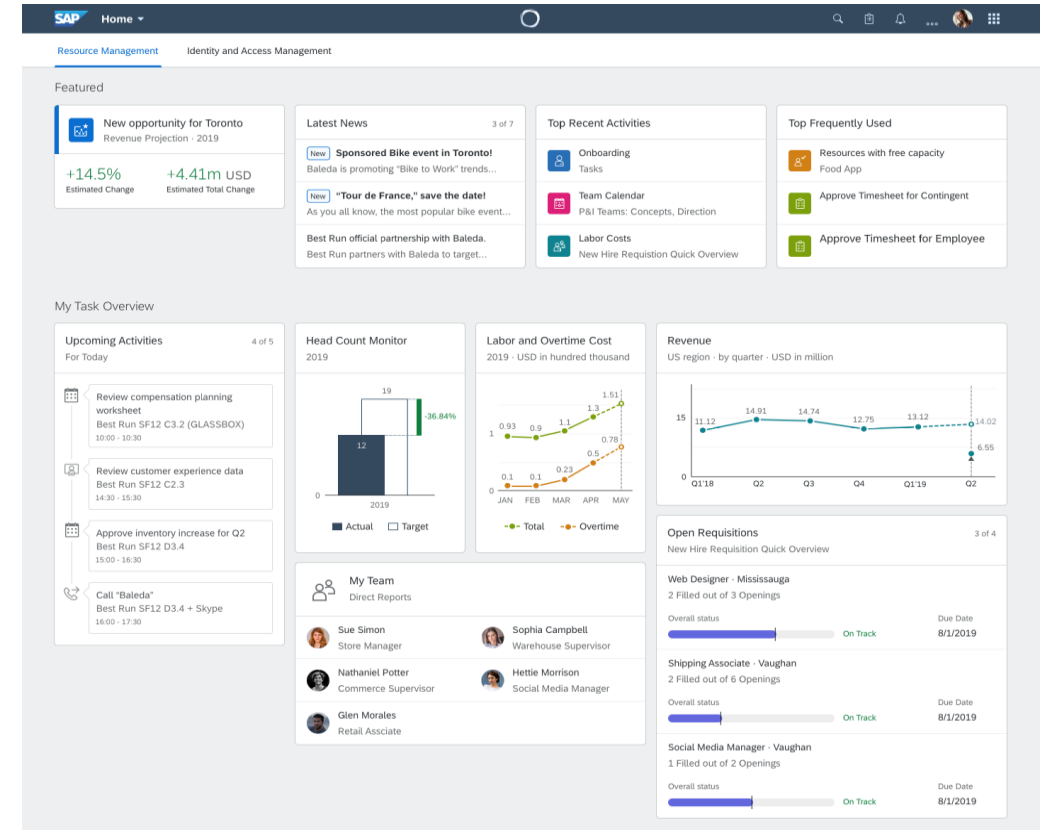

- Personalized resource that learns and recommends.
- Accessible via verbal commands and text through SAP SuccessFactors as well as SAP JAM, Slack and Microsoft Teams.
- Engaging experiences, initial capabilities include:
  - Optimizing time and attendance
  - Engaging learners
  - Facilitating ongoing dialogue and continuous performance management
  - Administering spot awards
- Powered by conversational AI and machine learning, and a key component of SAP solutions for the Intelligent Enterprise.

# UX harmonization across solutions

## Single Point of Entry

- UX harmonization and new “central home”
- One launchpad and one inbox
- Unified toolbar and theming
- New “central home” with live “cards” as opposed to tiles
  - List cards
  - Analytical cards
  - Etc.
- Universal inbox

# Cross application analytics

## CFO dashboard

- Built-in **metrics** from both **HR and finance** for faster insight and understanding
- Increased agility in **total workforce management** with a consolidated, high performance **people data warehouse**
- Securely making people data a **strategic asset to the business** in near-real time (**single permission model** and **open business service access**)

# SAP Cloud Application Lifecycle Management

A brand new, **cloud-based ALM** offering

## For the Intelligent Suite

- for cloud-centric customers
- manages cloud and hybrid solutions
- supports every SAP solution

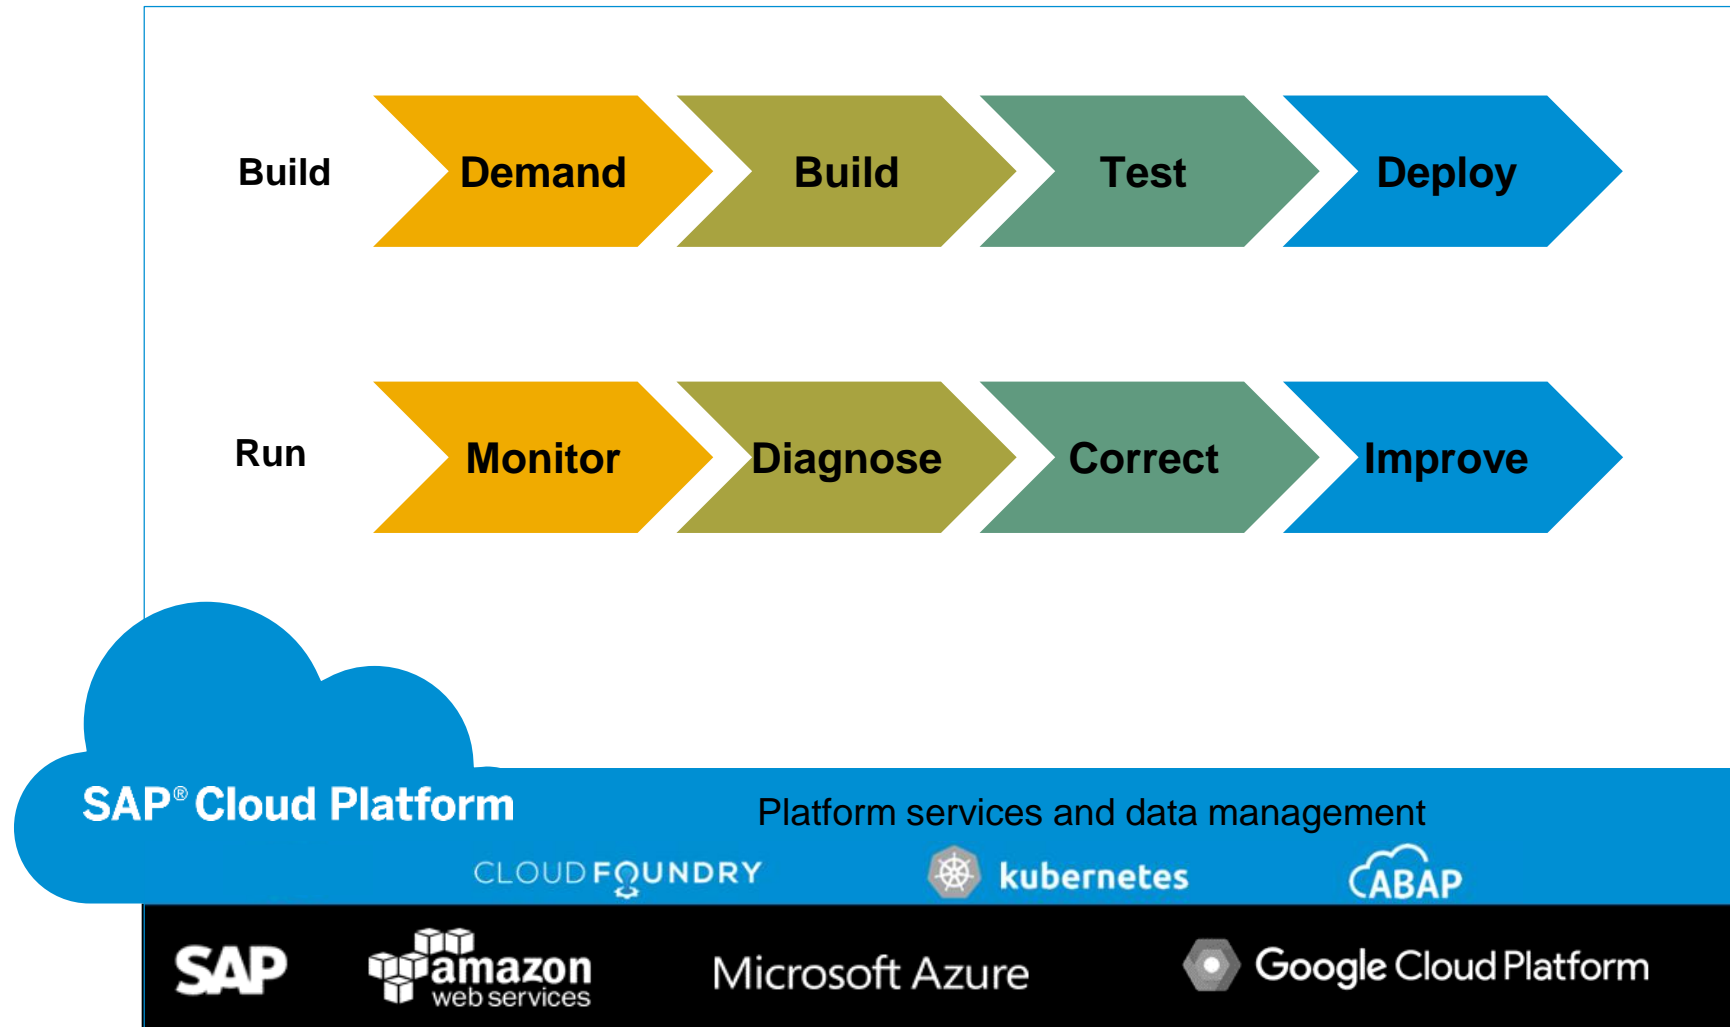

## In the public cloud

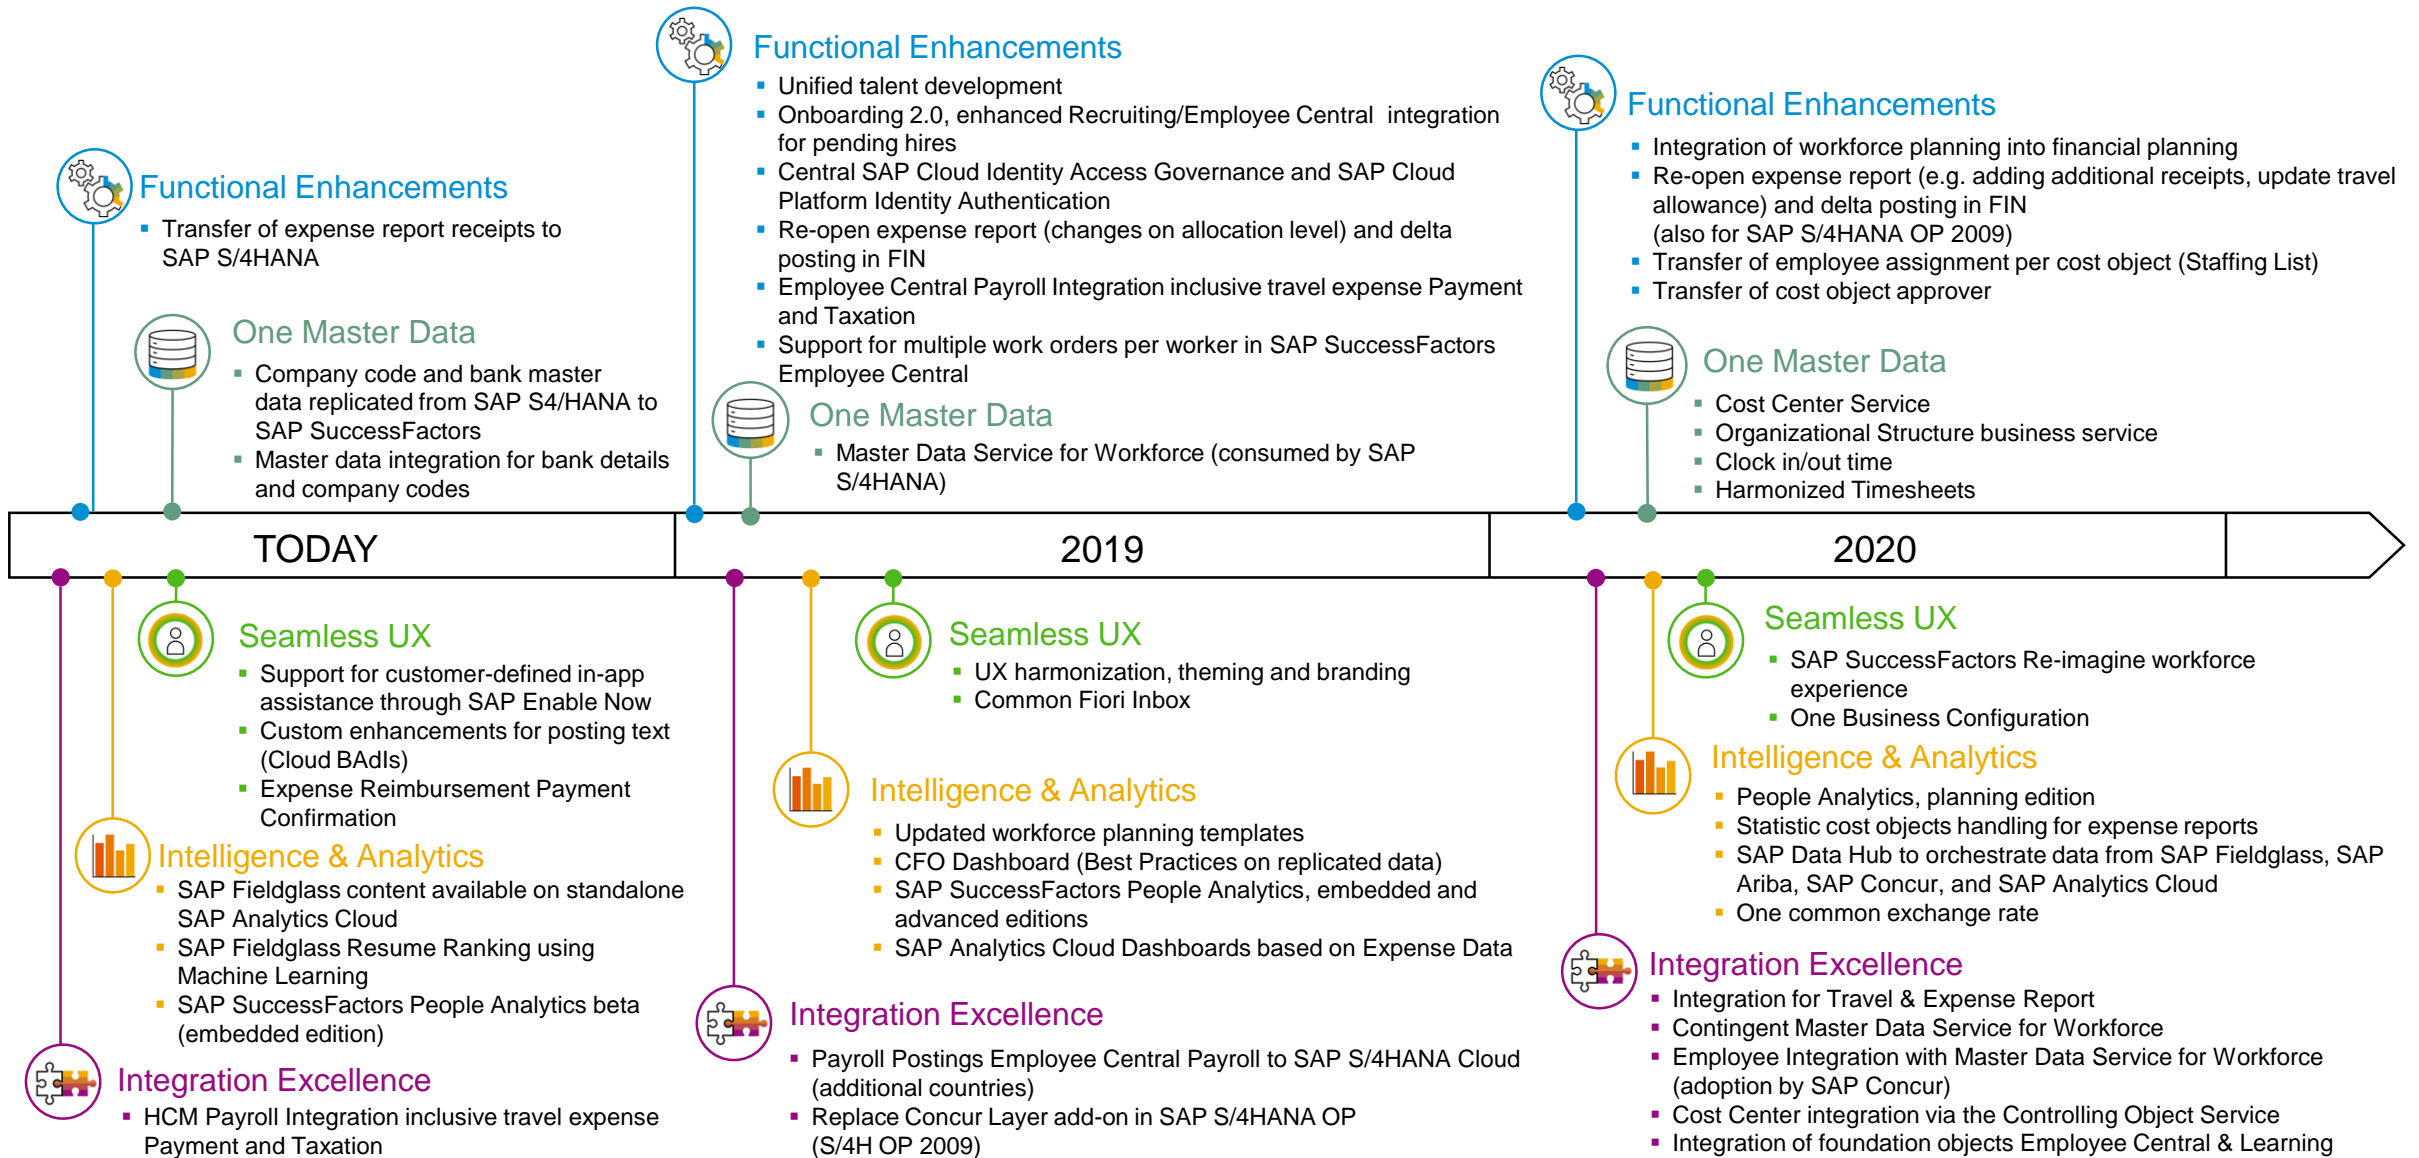

- re-thought, newly designed, and built on modern cloud technology
- starts with trial and is for life
- ready for immediate consumption
- is cost-efficient for customers

# SAP Cloud Application Lifecycle Management
