-  Consistent security and identity management
-  One workflow inbox
-  Aligned Domain Models and integration content
-  Embedded and cross-product analytics
-  Coordinated lifecycle management
-  End-to-end process blueprints

Facing the reality of a diverse and complex enterprise IT landscape

various **systems**
and **repositories**

heterogenous
(SAP and third-party)

various **content**
types and
UI technologies

hybrid setup
cloud + on premise

multi-channel
(internal, external,
mobile)

Easy and convenient access to SAP solutions

Cross-system entry point

Central access to apps, tasks, notifications, and (unstructured) content across multiple SAP systems and cloud solutions

Product home pages

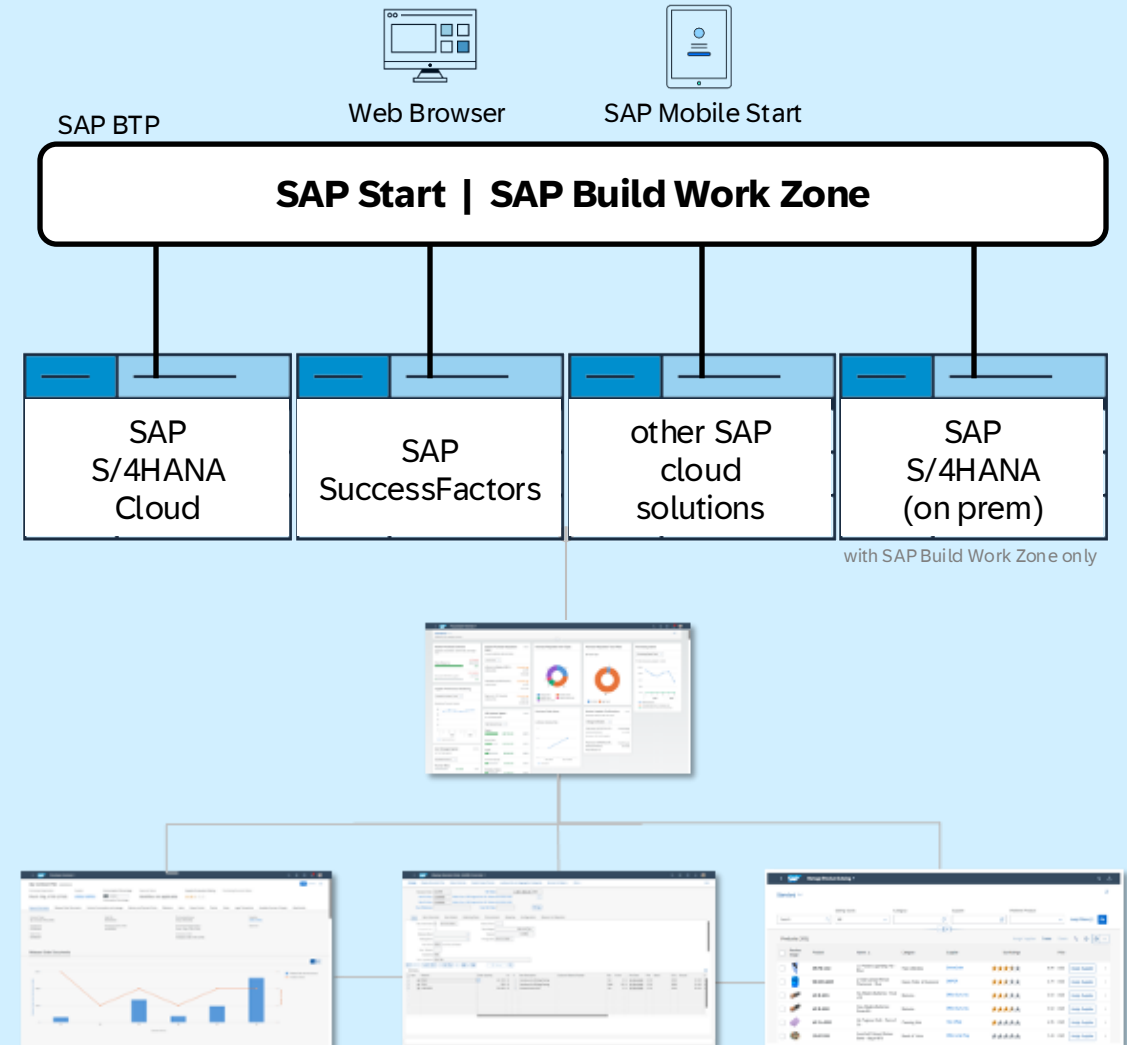

Access relevant business content within a single SAP system or cloud solution

Home Pages

Entry points into solution capabilities

Apps

Access business processes and information

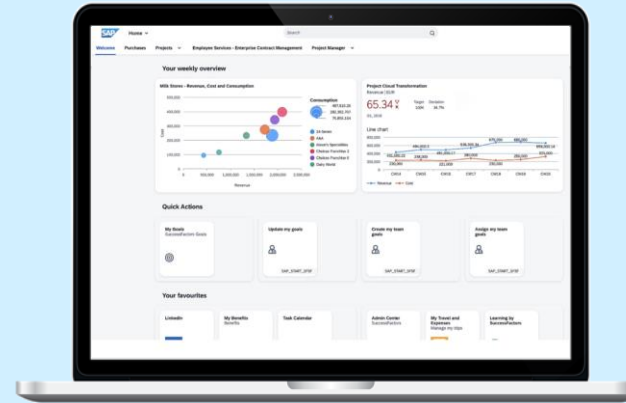

A Modular Offering for the Central Entry Point from SAP

SAP Start

Pre-packaged Entry Point

- Content from SAP Cloud LoBs (S/4HANA & SuccessFactors)
- Search, to do's & interest cards
- Minimal configuration
