Business Transformation Management: Overview

Business transformation

From strategy to execution

Reduce risk, accelerate timelines and continuously realize value

[Bosch Rexroth](#) automatically approve 89% of newly designed processes in SAP Signavio thanks to best practice content

"SAP Signavio and SAP LeanIX enable us to assess change impacts and associated risks, facilitating informed decisions and expeditious progress."
- Process Architect at [KWS Group](#)

[Virgin Australia](#) achieved a 40% improvement in the health score of business-critical applications through continuous IT modernization in SAP LeanIX

ROI

Best practice content leveraged for accelerated target state design

Risk lowered with detailed road map and project tracking

New processes and architecture adopted with governance in place

Improvement potential continuously identified

Transparency achieved and value identified

Rationalize applications to save costs and reduce complexity

TIME

[Marc O'Polo](#) achieved complete IT landscape transparency within month 3 of their 24-month transformation project with SAP LeanIX

[Danish Crown](#) identified an estimated \$2 million savings by automating aspects of their sales billing process with SAP Signavio

[First Abu Dhabi Bank](#) identified a 25% reduction opportunity across the application landscape by leveraging SAP LeanIX

[NSW Department of Education](#) identified over 150 applications fit for removal by analyzing their landscape with SAP LeanIX

[Fujitsu](#) experienced a 46% increase in manufacturing process compliance by monitoring conformance in SAP Signavio

[TUI](#) reduced training costs by 70% and support tickets by 50% applying WalkMe in-application guidance and automation

Business transformation: From strategy to execution

Where do we want to be?	Where are we at the moment and how are we doing?	How do we want to work in the future?	Let's create the landscape to support our future operating model!	Let's roll it out and ensure we live it!

Enterprise Architecture is NOT just an IT objective

“The company leadership is under the false impression that the digital transformation is proceeding nicely, whereas the folks in the engine room enjoy the freedom to try out new technologies without much supervision.”

Gregor Hohpe

How can I help you?

Talk to me naturally. For example, 'Help me searching for a Report'

Get started with Joule

Find Diagrams

Find Reports

Find Fact sheets

Whats the differ

Joule is powered by generative AI and all output should be reviewed before use. Please do not enter any sensitive personal data, and avoid entering any other personal data you do not wish to be processed.

Make transformations *fast*, not *furious*.

One-off migration & modernization projects take too long, cost too much and rarely stick the landing. We're LeanIX and we enable a different kind of change that's more data-driven, collaborative and repeatable.

It's called Continuous Transformation and it changes — everything.

SAP LeanIX

Thank you.
