SAP next-gen

The SAP Next-Gen Chapter Blockchain

Purpose

Community of educational institutions and representatives for gaining and sharing expertise & knowledge in the area of SAP-related Blockchain-aspects without commercial objectives.

The promising Blockchain technology is overhyped but deserves a closer and scientific look on its potentials in the area of enterprise blockchain and especially in the combination with existing SAP applications. This sets the focus to the actual relevant versions of blockchain variants like ETHEREUM, Hyperledger, MultiChain, CORDA (if mentioned as blockchain), and other diffused/common Enterprise suitable Blockchains. We are promoting the Blockchain technology to raise interest, foster and intensify exchange, and collect member contributions.

We explicitly do not cover the discussion about crypto currency besides of general teaching and explanatory purposes. Also, we will NOT be a helpdesk for day to day requests.

Scope of Work for the SAP Next-Gen Chapter Lead is to generally coordinate group activities online and real world. This means to initiate regular calls and meetings, moderating the online forum (in the beginning), and help as a first contact for potential new members

The actual SAP Next-Gen Chapter Lead for Blockchain in EMEA for 2018/2019 is

Prof. Dr. Karin Gräslund
Business & Finance Information Management
Hochschule Rhein Main
Wiesbaden Business School
Mail: Karin.Graeslund@hs-rm.de

Scope of Work for a membership in the SAP Next-Gen Chapter may vary from “interested newby” to expert. Every new member has to be nominated and recommended by an existing member or needs to apply at the chapter lead. Engagement can reach from only interested participation up to build and organize community objectives. Members shall support the Chapter Lead in the Chapter work.

The Blockchain chapter EMEA officially started on September 10, 2018.

After the first year of Performance we will check the status of interest and engagement and decide about further work.

Deliverables & Activities of the Community

1. Initiating and moderating a Community Online-Platform:
SAP Learning Hub Academic Edition => SAP Leonardo Academic Community – Learning Room: <https://jam2.sapjam.com/discussions/7oD7C6Ng0qFiCmefRIYwiz>
2. Developing and testing Blockchain-related curricula incl. prototypes for teaching
3. Onboarding university representatives to its know-how and curricula
