Agenda

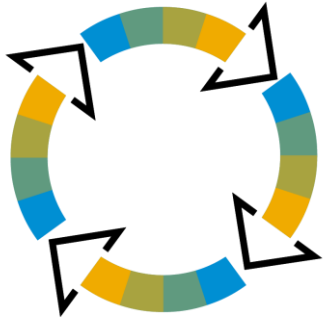

Why SAP Cloud ALM?

What is SAP Cloud ALM?

How are SAP Cloud ALM and SAP Solution Manager related?

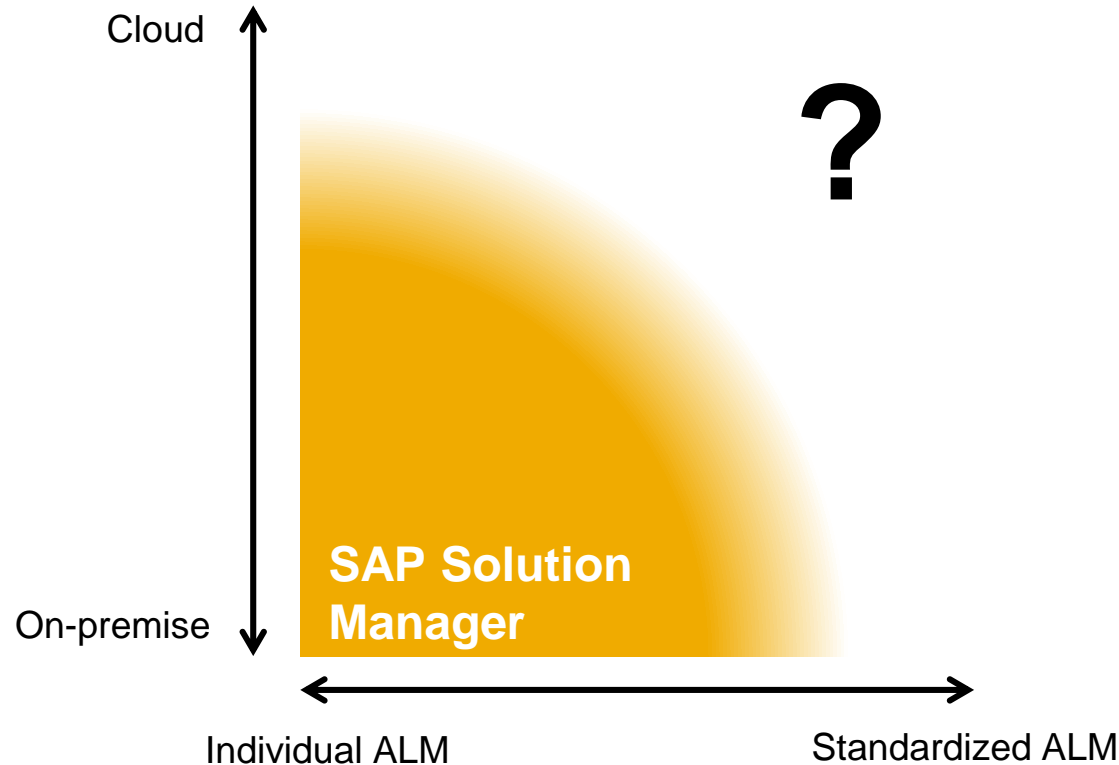

Summary

ALM - Application Lifecycle Management

Application Lifecycle Management (ALM) orchestrates the delivery and operations of software. ALM provides integrated processes and tools managing the entire lifecycle of an application from demand, design, development, testing, deployment to operations and support.

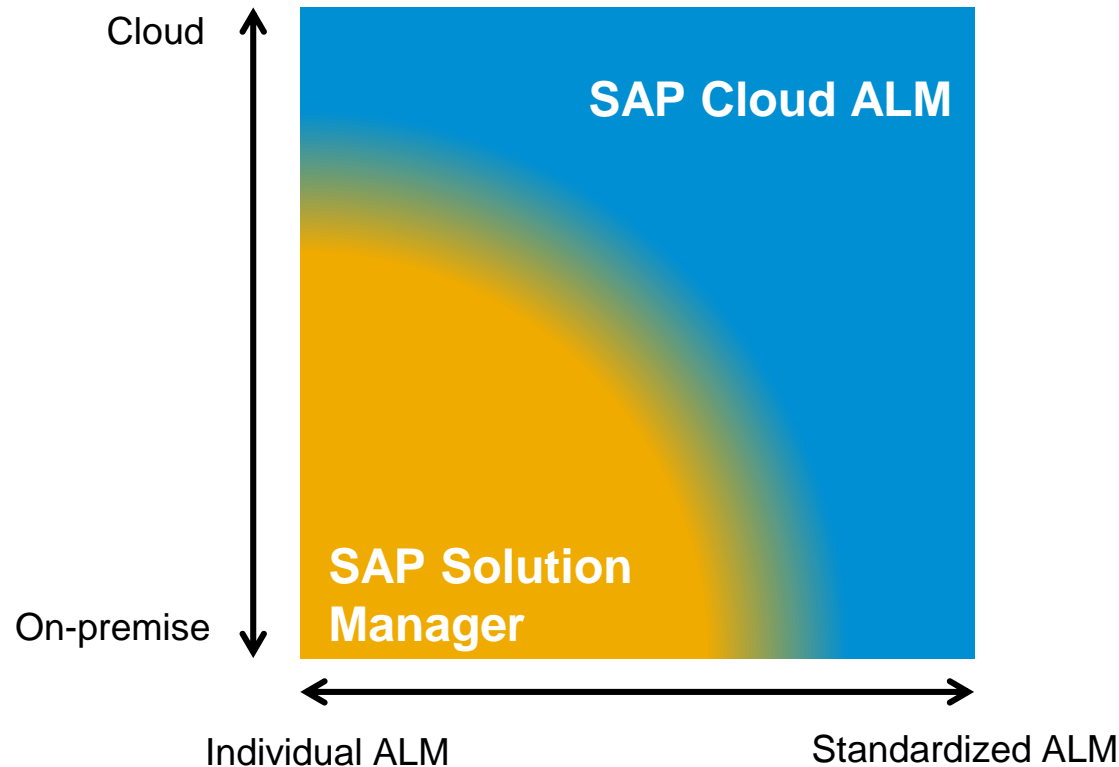

SAP Solution Manager

Traditional Application Lifecycle Management of SAP supports individual ALM for on-premise focused customers

What's about cloud-only customers?

The bigger Picture: SAP's new ALM portfolio

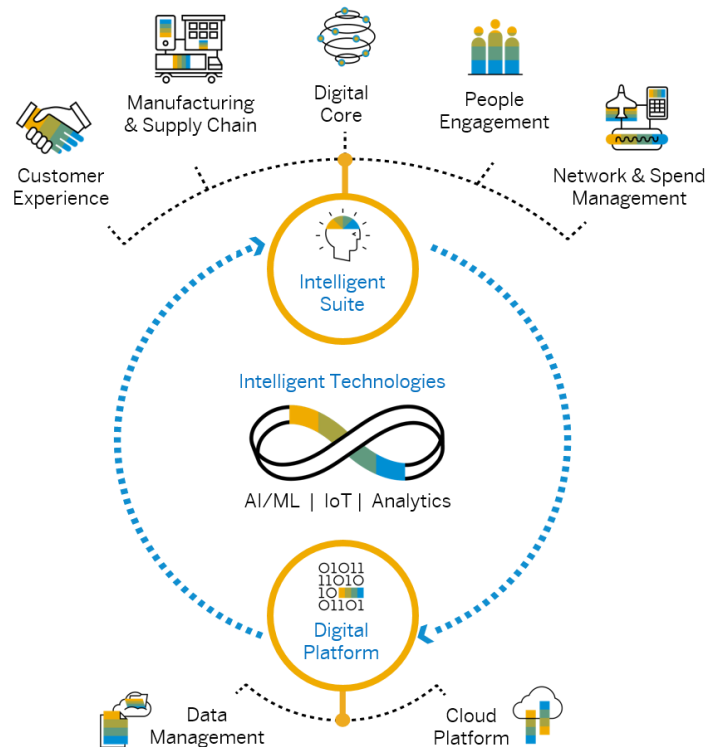

SAP Cloud ALM extends ALM into the cloud and makes ALM more standardized

SAP has the right ALM solution for all customers!

SAP Cloud ALM

A brand new, **cloud-based ALM** offering.

For the Intelligent Suite

- for cloud-centric customers
- manages cloud and hybrid solutions
- supports every SAP solution

In the public cloud

- re-thought, newly designed, and built on modern cloud technology
- starts with trial and is for life
- ready for immediate consumption
- is cost-efficient for customers

SAP Cloud ALM is not SAP Solution Manager in the cloud!

Agenda

Why SAP Cloud ALM?

What is SAP Cloud ALM?

How are SAP Cloud ALM and SAP Solution Manager related?

Summary

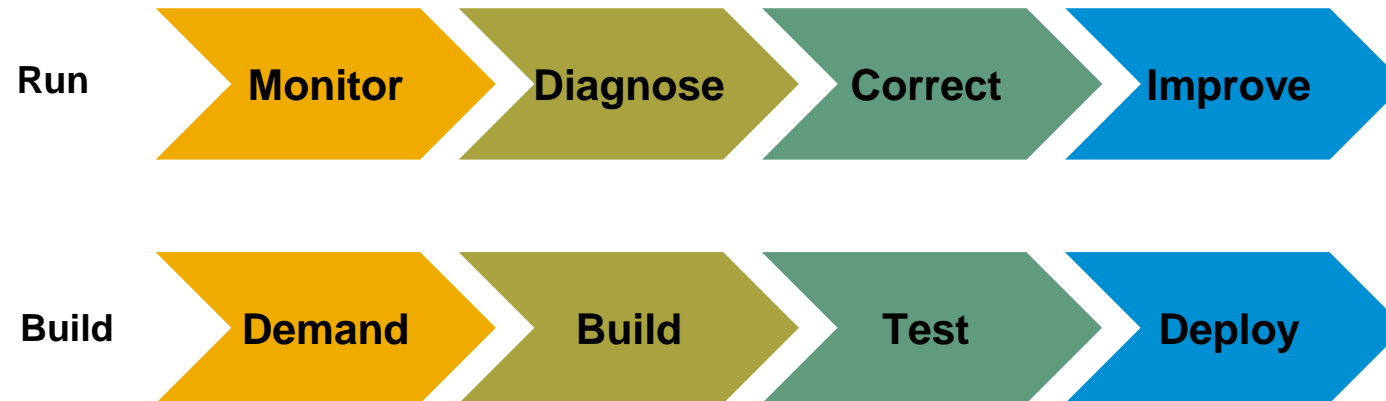

SAP Cloud ALM

3y ambition

SAP Cloud ALM supports the entire lifecycle

SAP Cloud ALM - Processes

SAP® Cloud Platform

Platform services and Data management

How can customers consume SAP Cloud ALM?

- SAP Cloud ALM is part of SAP Enterprise Support
- You are entitled to use SAP Cloud ALM
 - if you subscribe to an SAP Cloud Service (including SAP Enterprise Support, cloud editions)

OR

- after you sign an amendment to your SAP Enterprise Support agreement

The SAP Cloud ALM usage rights are part of SAP Cloud Enterprise Support.

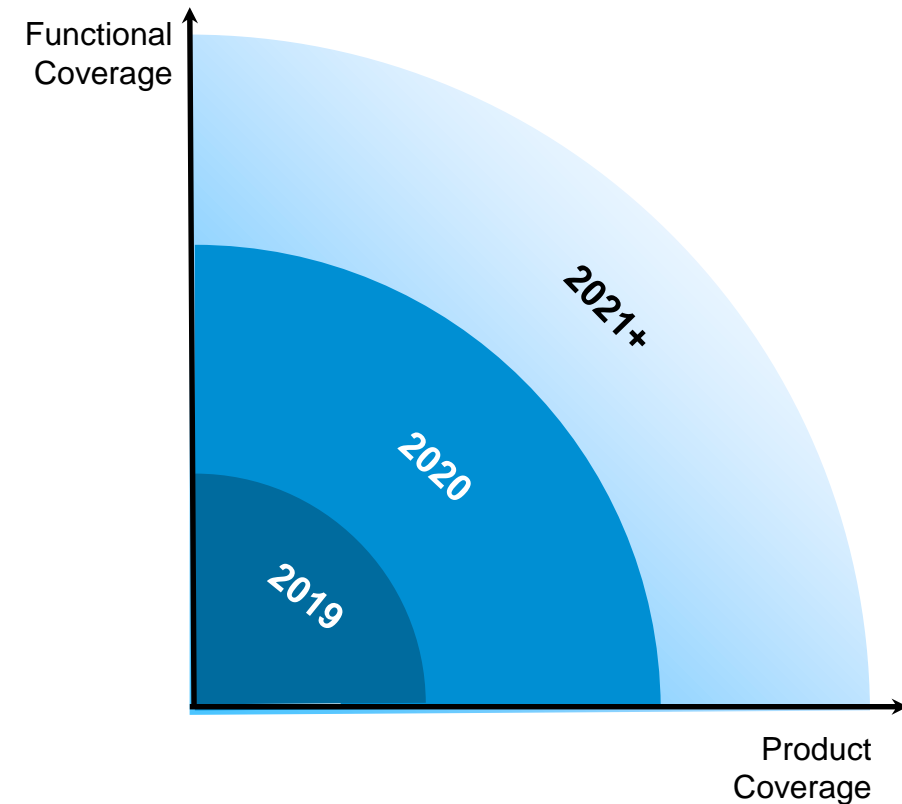

What is the SAP Cloud ALM Roadmap?

SAP makes SAP Cloud ALM available step-by-step.

SAP Cloud ALM starts with the implementation portal for SAP S/4HANA Cloud.

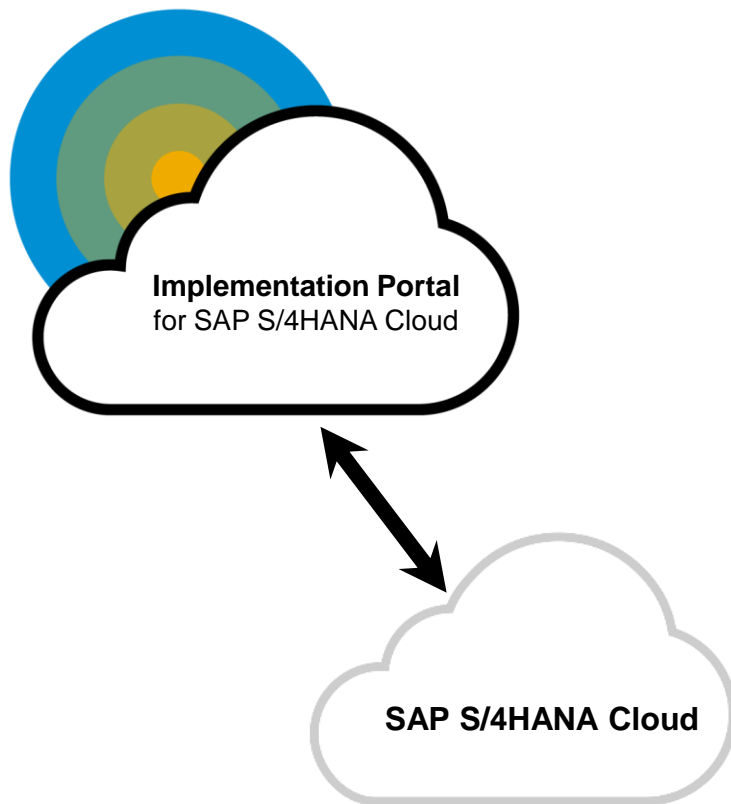

We will extend the scope to complete lifecycle coverage.

We will extend coverage of SAP products to all SAP solutions.

Implementation Portal for SAP S/4HANA Cloud

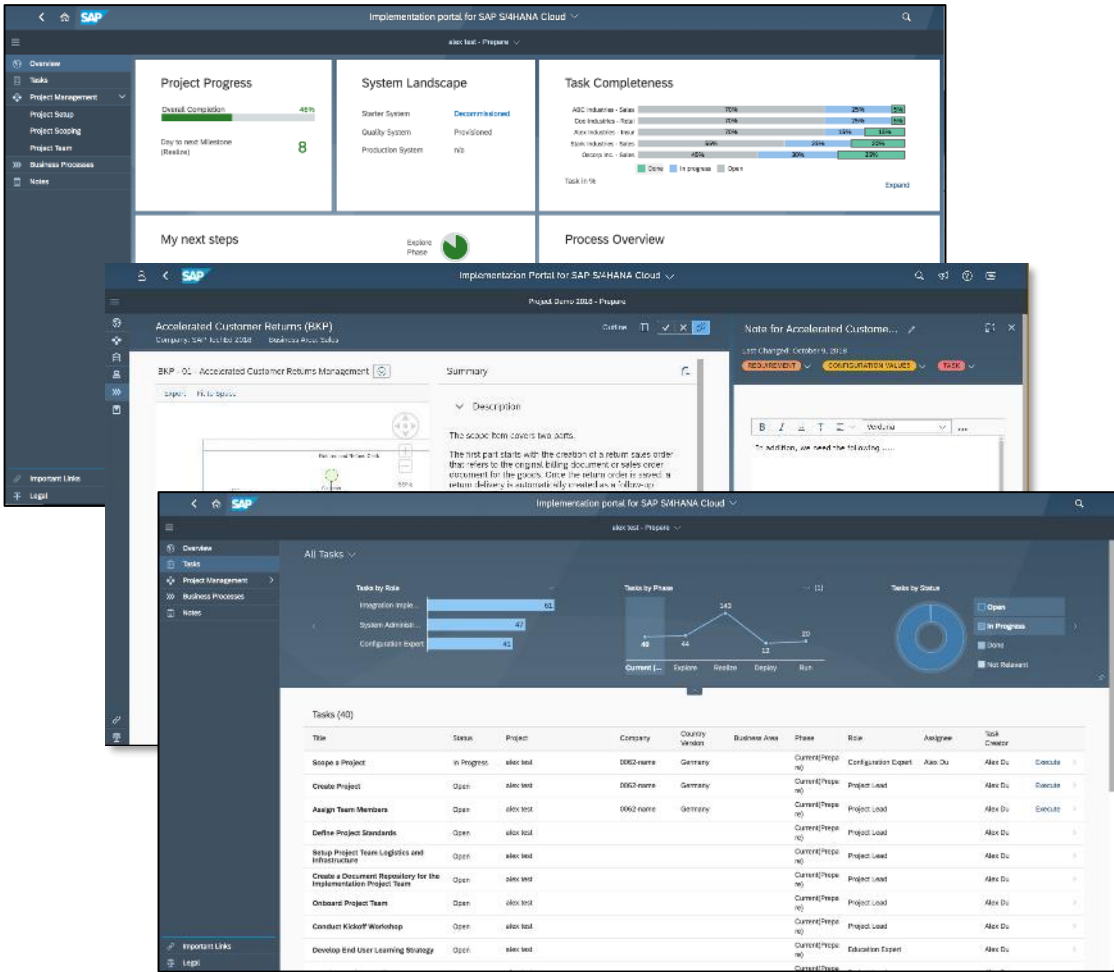

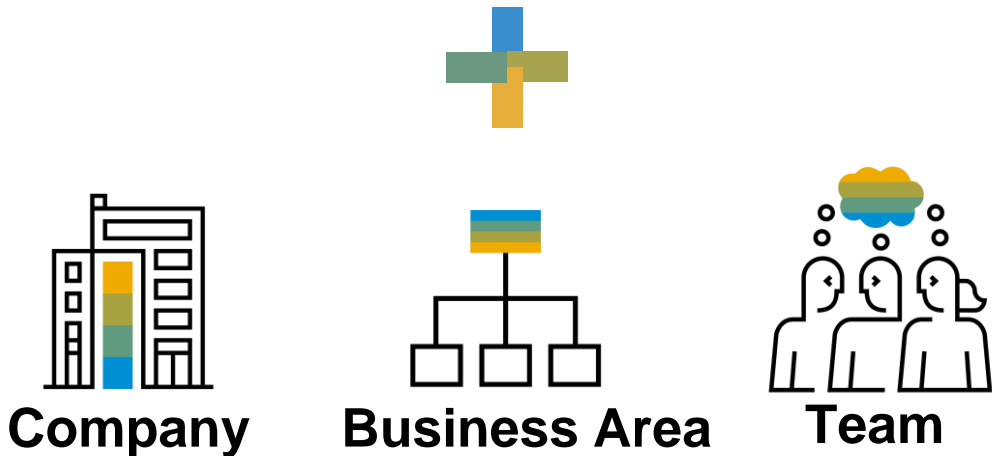

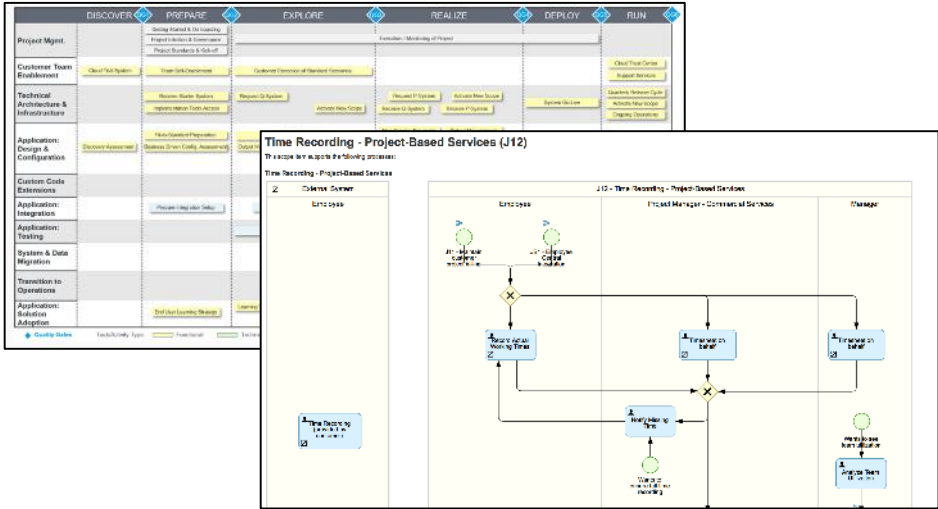

Fast and guided implementation of your SAP S/4HANA Cloud

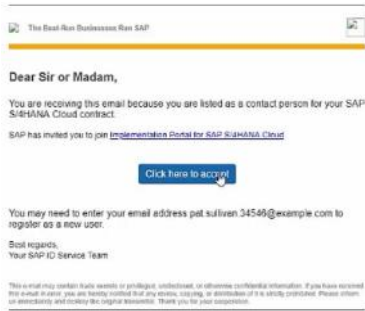

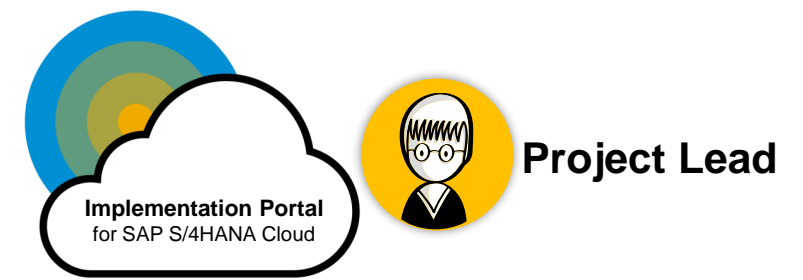

Key Capabilities

- **Self-guided** and **content-driven** implementation of SAP S/4HANA Cloud based on SAP Activate
- **Instantaneously** available – no setup or configuration
- Fast onboarding of project **Teams**
- Manage **Implementation Tasks** – automatically generated and adapted to customer scope
- Convenient visualization of **Business Models** and related **Process Descriptions**
- Supports **Fit-to-Standard** workshops with access to SAP S/4HANA systems and efficient solution scoping
- **Progress Monitoring** of implementation activities

Content-driven implementation projects

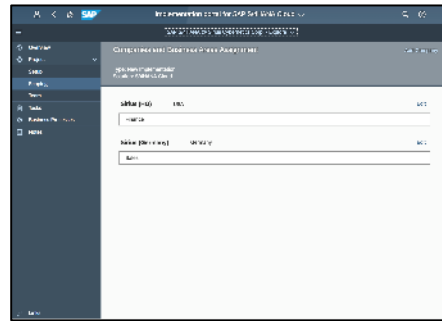

Implementation Portal for SAP S/4HANA Cloud

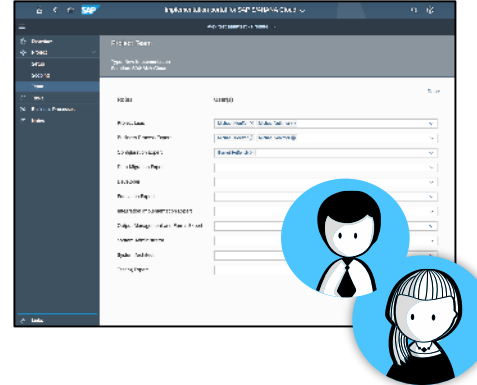

Invitation Mail

Receives an invitation mail and gets instantaneous access to the Implementation Portal

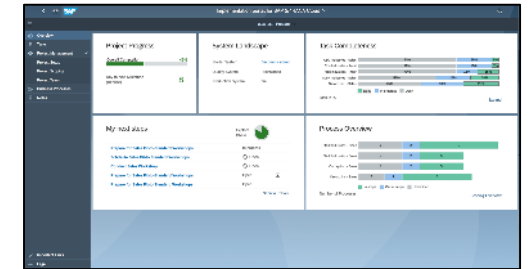

Scoping

Defines scope for implementation project, e.g Companies, Business Areas and Timelines

Onboarding

Performs fast and convenient onboarding of implementation team members and assignment to roles

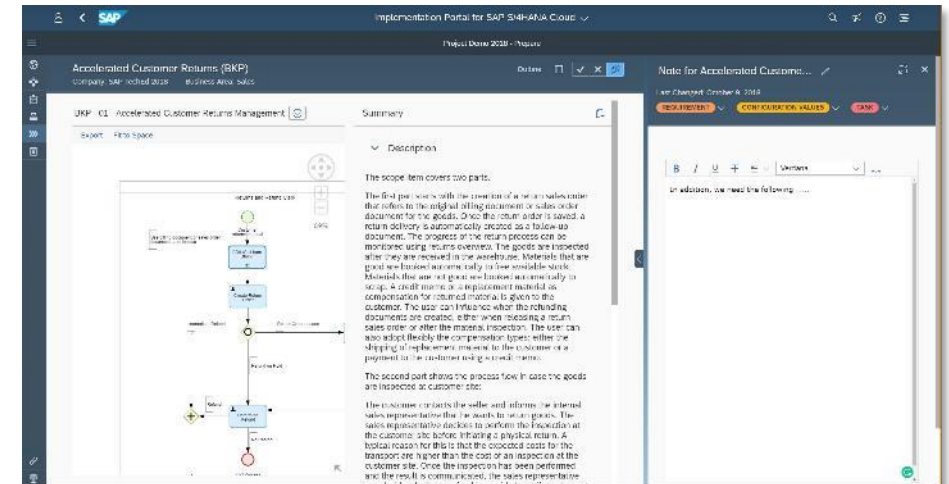

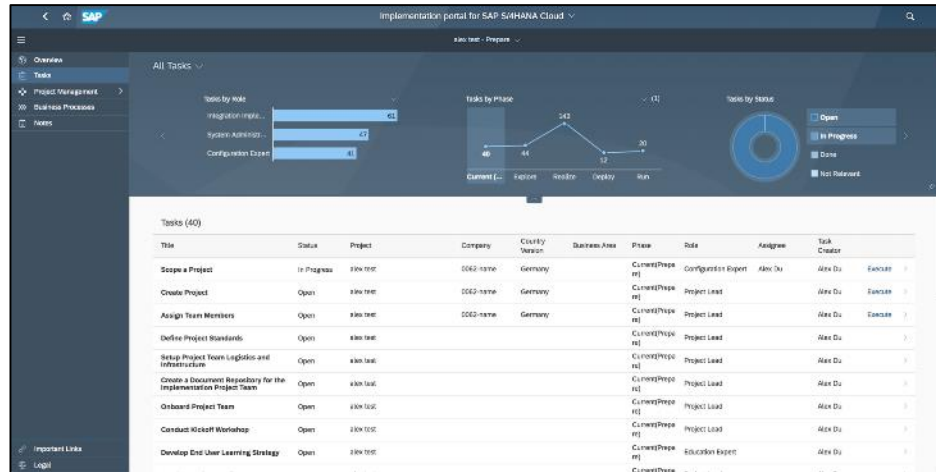

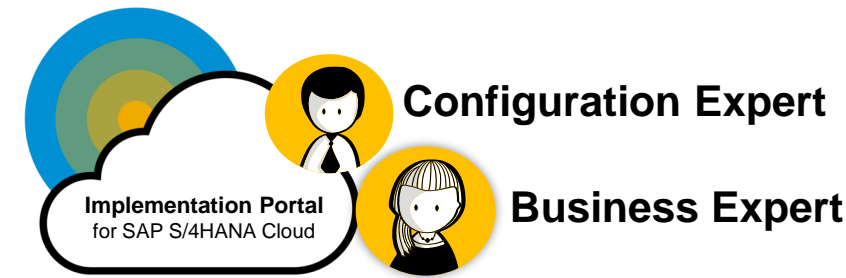

Progress Monitor

Monitors the progress of implementation task execution

From invitation to progress monitoring in 20 minutes...

Implementation Portal for SAP S/4HANA Cloud

Content-driven implementation

Tasks automatically assigned to implementation team members – specific to their roles

Tasks created from **Notes**

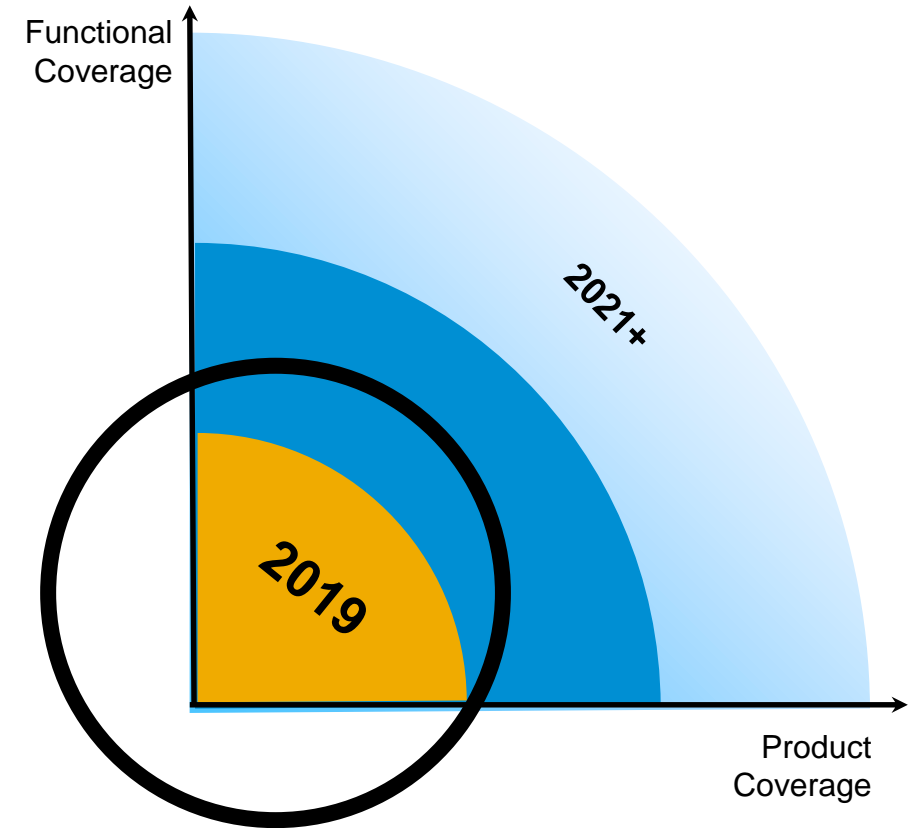

Fit to Standard workshops

View Best Practice **Processes** and related **Process Descriptions** with 1-click access to S/4HANA Cloud systems

Record **Notes** for comments, documentation and requirements

The bigger Picture: SAP's new ALM portfolio

SAP Cloud ALM extends ALM into the cloud and makes ALM more standardized

SAP has the right ALM solution for all customers!

Where are our SAP Solution Manager customers today?

Customers have an on premise-centric solution, many of them with:

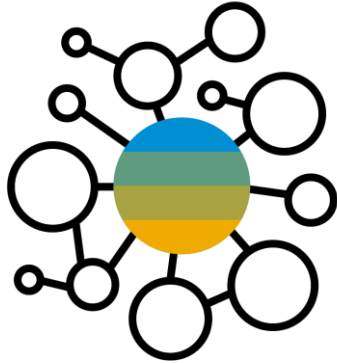

- a multi-track landscape
- a significant portion of custom code
- individual integrations between SAP and non-SAP systems
- tailored business processes
- own release schedules

In a nutshell:

Today, many customers have very individual SAP solutions

How do customers do ALM for on premise-centric solutions?

Customers need an ALM tool which can:

- handle a wide variety of landscapes
- document, test, deploy and retire custom code
- monitor interfaces between SAP and non-SAP systems
- model, publish and monitor business processes
- manage change and releases

In a nutshell:

Customers need an ALM swiss-army knife to manage their on-premise-centric SAP solution with

- a lot of options
- flexible engines that can be tailored to the customer's need
- generic content and methodologies
- management of technology

Customers are happy with SAP Solution Manager

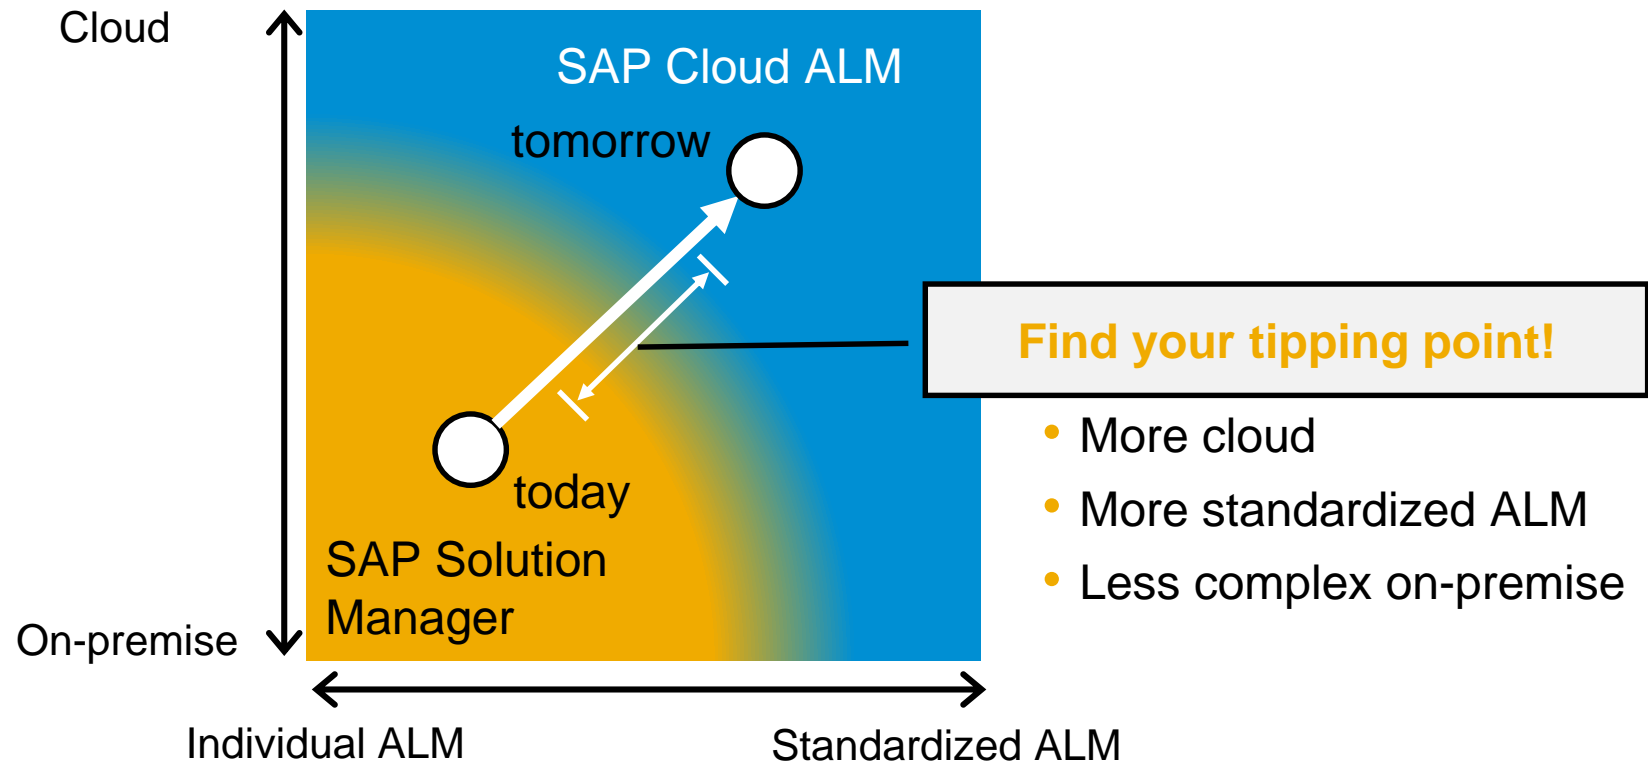

<p>Designed for the SAP Business Suite</p> <ul style="list-style-type: none">▪ built on proven technology▪ extended to SAP S/4HANA and the Cloud▪ single source of truth	<p>Built for customers</p> <ul style="list-style-type: none">▪ SAP user groups strongly supported, influenced and defined the scope▪ continuous customer connection closes gaps and ensures ALM success
<p>Most complete and comprehensive ALM tool</p> <ul style="list-style-type: none">▪ included in SAP support offerings▪ vibrant partner eco system▪ end-to-end coverage	<p>World-wide adoption</p> <ul style="list-style-type: none">▪ 15.000 productive customers in all regions

ALM tool of choice today and tomorrow for **on premise** and **hybrid** solutions

BUT: What if those customers want to move to the cloud and a simplified ALM?

Earliest 2021: Optional transition to SAP Cloud ALM

Customers who want to move their ALM also to the cloud may want to find their individual tipping point to SAP Cloud ALM

How to find the right ALM solution

Case 1: Customer has an on-premise-centric solution and plans to keep it.

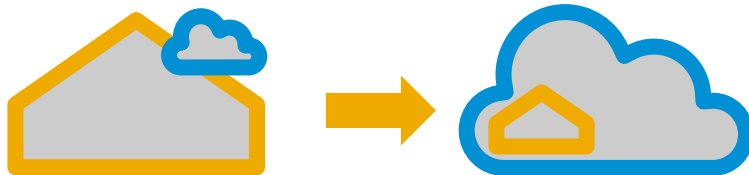

Case 2: Customer has a cloud-centric solution or is cloud only.

Case 3: Customer has a small, standard on-premise solution

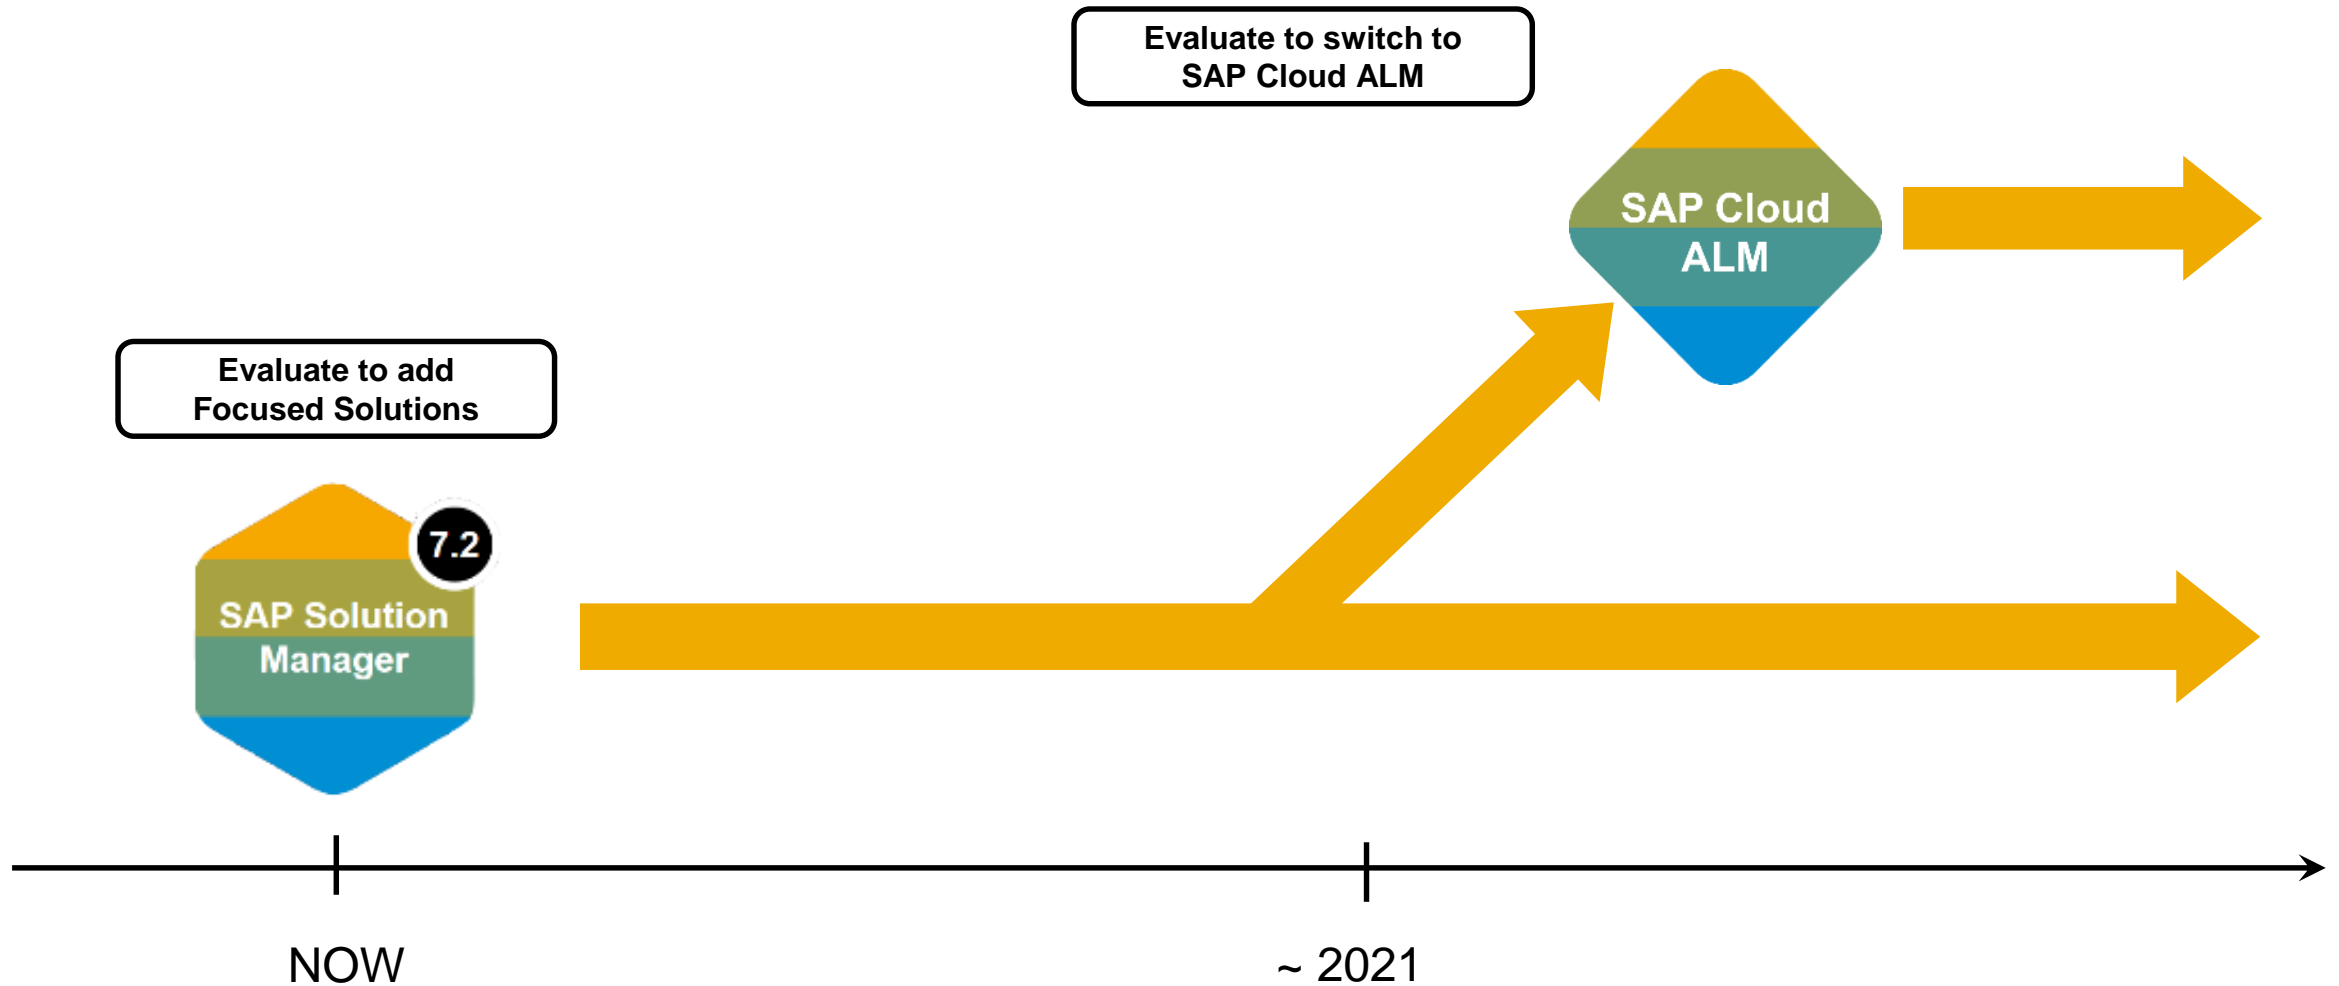

Case 4: Customer moves to cloud or standardized ALM

or

What can SAP Solution Manager customers do NOW and as of 2021?

Agenda

Why SAP Cloud ALM?

Exploring the difference: Implementation of SAP S/4HANA Cloud

Exploring the difference: Operations

Summary

Summary SAP Solution Manager and Focused Solutions

- SAP Solution Manager is No. 1 for on premise centric customers
- SAP Solution Manager 7.2 value realization just started
- Service Providers adopt Focused Run to operate their solutions
- On-going investments prioritized by customer influence
- We continue to deliver content updates for cloud and hybrid

Summary SAP Cloud ALM

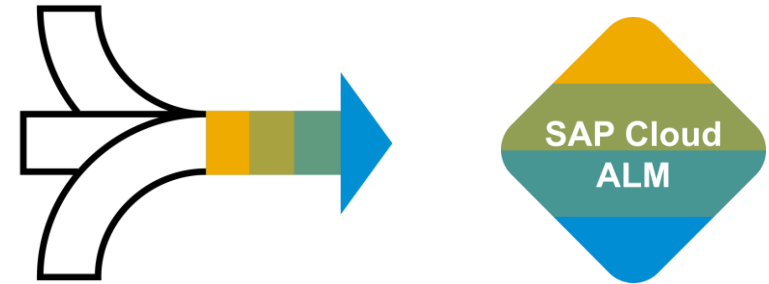

- SAP Cloud ALM is No. 1 for cloud centric customers
- SAP Cloud ALM will serve as a complementary offering to SAP Solution Manager
- Access to SAP Cloud ALM will be based on SAP cloud solution customer's contract
- Starts with the implementation portal for SAP S/4HANA Cloud
- Enhanced step-by-step with the entire roadmap planned to become available by 2021+

Energized about SAP Cloud ALM? Here is what you can do in 2019!

Are you implementing SAP S/4HANA cloud?

Do you want to monitor the integration between
SAP cloud solutions and SAP S/4HANA on premise?

Message to all SAP Solution Manager 7.2 customers:

These two ALM activities can also be accomplished with SAP Solution Manager 7.2.

Thank you.
