# SAP's Support Backbone

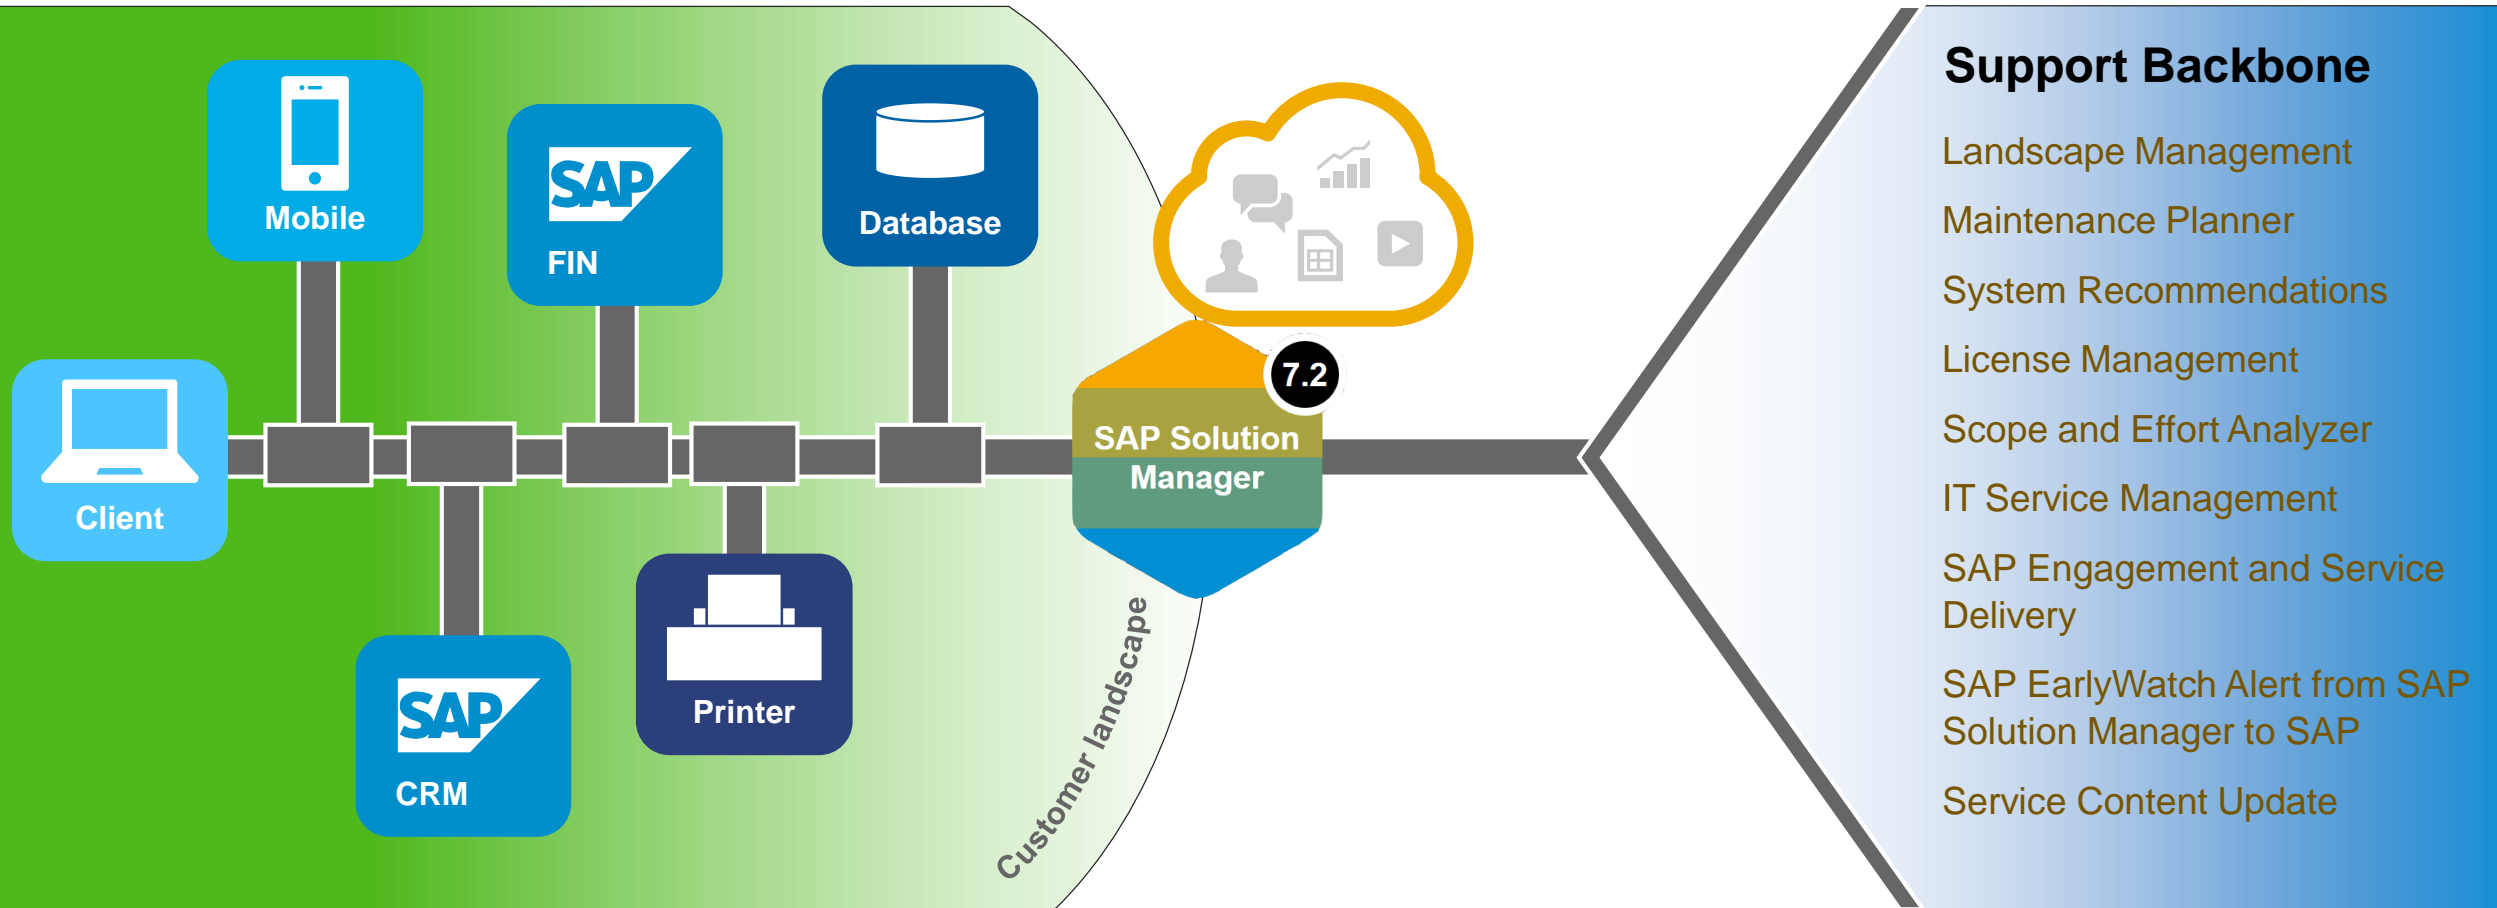

SAP's support backbone is the central infrastructure located at SAP to provide technical support to our customers.

The support backbone consists of several different systems for different purposes - for example, it provides the SAP Support Portal infrastructure, the Maintenance Planner, SAP EarlyWatch Alert Reports, and many more.

SAP's support backbone has been updated. The legacy infrastructure remains in place to allow a safe transition for customers. Customers need to switch to the new infrastructure before January 2020 to ensure continuous connectivity.

# SAP Solution Manager – Our unique platform for application lifecycle management and solution landscape support

# Update of SAP's Support Backbone

## Impact on SAP Solution Manager and Focused Run

The Support Backbone infrastructure has been updated, but the legacy infrastructure remains in place to allow a safe transition for SAP customers. Customers using SAP Solution Manager or Focused Run must transition to the new infrastructure before January 1<sup>st</sup> 2020 to ensure continuous connectivity by performing the following actions:

- **Focused Run:** Upgrade to Focused Run 2.0
- **SAP Solution Manager:** Upgrade to SAP Solution Manager 7.2 SPS07 or SPS08\* (preferred)

If these activities are not performed, SAP Solution Manager and Focused Run will lose connectivity to the SAP Support Backbone.

Detailed information regarding impacts can be found here: <https://support.sap.com/backbone-update>

\*SPS08 is required for partners

# **Focused Run for SAP Solution Manager**

# Focused Run for SAP Solution Manager

The new communication channels in Focused Run 2.0 enable the exchange of data with the updated SAP Support Backbone.

**Therefore, all Focused Run customers need to upgrade to Focused Run 2.0.**

Focused Run 1.0 systems will not be able to communicate with the SAP Support Backbone after January 1st, 2020.

Information on upgrading Focused Run can be found in the [Focused Run Expert Portal](#).

Please note: Focused Run 1.0 will enter its customer-specific maintenance phase on November 23rd 2019.

# Focused Run Expert Portal

# **SAP Solution Manager**

# SAP Solution Manager

## SAP Solution Manager 7.0 and 7.1

SAP Solution Manager 7.0 and 7.1 releases cannot connect to the support backbone after January 1<sup>st</sup> 2020 and need to be upgraded to SAP Solution Manager 7.2 SPS08.

## SAP Solution Manager 7.2

SAP Solution Manager need to be upgraded to SAP Solution Manager 7.2 SPS07 or SPS08 to ensure connectivity.

# SAP Solution Manager: Affected capabilities

## Landscape Management

- Landscape synchronization with SAP (automatic update of customer system data, used for Maintenance Planner)
- Remote Service Connection Management from SAP Solution Manager
- System Recommendations

## License Management

- Automatic distribution of licenses and maintenance certificates

## Test Suite

- Scope and Effort Analyzer

## IT Service Management

- Exchange of messages with SAP

## SAP Engagement and Service Delivery

- Service Delivery
- SAP EarlyWatch Alert from SAP Solution Manager to SAP
- Service Content Update

Please note that remote support by SAP Support engineers is not affected by the backbone update.

**What happens if I cannot upgrade before 2020?**

## Update not possible in time – what you can do...

If you are not able to update SAP Solution Manager or Focused Run to the required releases before 2020, you can still continue to work. However, there will be impact based on the support package stack version your system is on.

Product Version	Impact
SAP Solution Manager 7.1	No connectivity to SAP
SAP Solution Manager 7.2 SPS01 – SPS04	No connectivity to SAP
SAP Solution Manager 7.2 SPS05 / SPS06	Partial connectivity to SAP, manual effort required
Focused Run 1.0 for SAP Solution Manager	No connectivity to SAP

# SAP Solution Manager: Partial connectivity with SPS05 and SPS06

## Landscape Management

- Landscape synchronization with SAP (automatic update of customer system data, used for Maintenance Planner)
- System Recommendations

## License Management

- Automatic distribution of licenses and maintenance certificates

## Test Suite

- Scope and Effort Analyzer

## SAP Engagement and Service Delivery

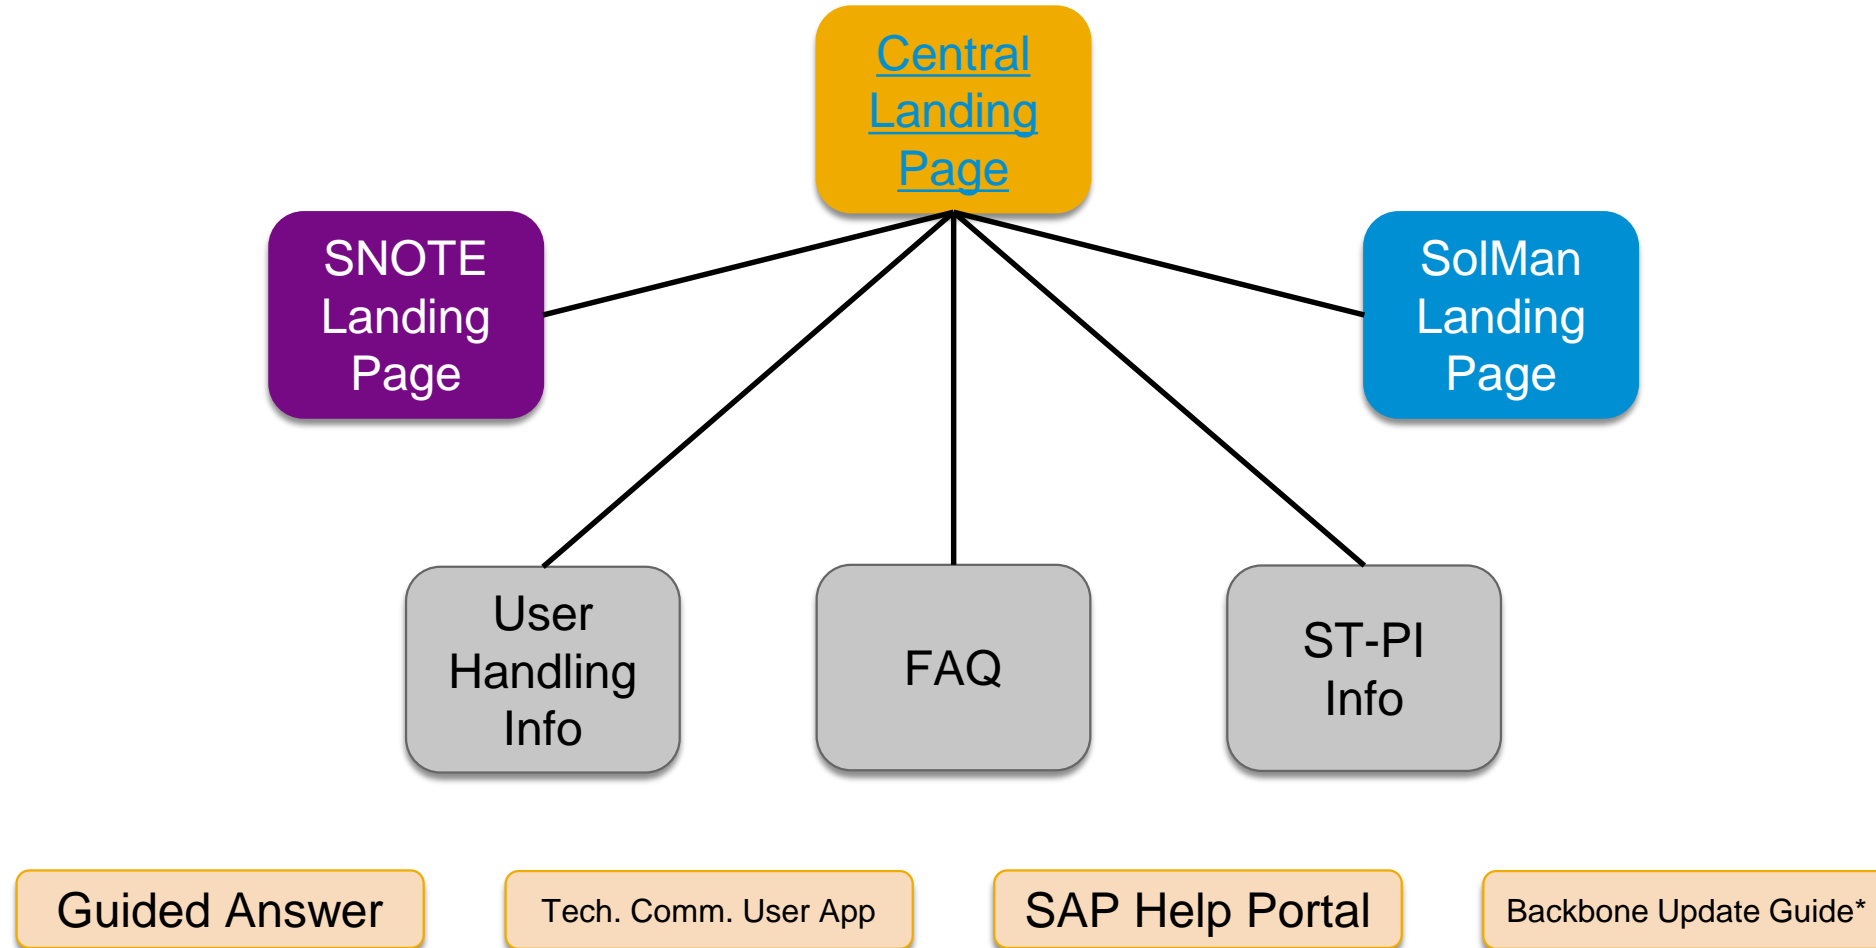

- Service Delivery
- SAP EarlyWatch Alert from SAP Solution Manager to SAP

Manual activities required. Configuration not supported by SOLMAN\_SETUP. Documentation not yet available.

Please note: You will not benefit from important topics like Data Protection and Privacy measures (DPP/GDPR), simplified configuration and functional stabilization included in SPS07 and SPS08.

**Where to find more information?**

# Where to find more information?

\* In planning

# Support Backbone Update Guide

The support backbone update guide provides detailed descriptions of all affected scenarios and required customer activities.

- [PDF version](#)

# Summary

SAP's recommendation:

- Update your SAP Solution Manager system to SPS07 or SPS08 before 2020
- Check the [landing page](#) for other impacted areas outside SAP Solution Manager

**Thank you.**
