Successfully Implementing SAP S/4HANA – Part 1

Introduction to Transition Road Maps

Dr. Christoph Nake, SAP
Dr. Astrid Tschense, SAP
July, 2019
PUBLIC
Learn about the service offerings from SAP and understand the linkage between road map and SAP services. Get answers to the following questions: What are the service offerings for Standard Support customers? What about Enterprise Support Customers? What is premium engagement? What can I get with my type of contract?

Focus: SAP S/4HANA on prem

Target Group: IT Management, CoE Leads, Project Managers
SAP Activate – Main Pillars

SAP Best Practices
- Reference Business Content
- Migration Content
- Integration Content

Tools for a Guided Configuration
- Self-Service Configuration
- Expert Configuration
- SAP Solution Builder
- SAP Solution Manager

Methodology
- One unique implementation methodology

Focus of this presentation – “Transition to SAP S/4HANA” on premise as the main example

What do we mean by “Transition Road Map”?

Transition (or Implementation) Road Map

- Structured end-to-end documentation of an implementation project
- Helps customers, partners, and SAP to prepare and run transition projects according to SAP Best Practices
- The project is structured into phases and work streams according to SAP Activate
- Road map consists of activities (deliverables), and tasks
- Accelerators link to more detailed information, templates, training, and SAP services
- Content is updated quarterly
- Online access via Road Map Viewer, or offline (PDF)
## Available Transition Road Maps (excerpt)

<table>
<thead>
<tr>
<th>Road Map</th>
<th>Scenarios</th>
<th>embedded products</th>
</tr>
</thead>
</table>
| Transition to SAP S/4HANA                    | • New implementation  
• System Conversion  
• Selective Data Transition                                    |                  |
| SAP S/4HANA Upgrade and Product Integration  | • Upgrade  
• New implementation of embedded product  
• Transition to embedded product                              | SAP EWM  
SAP TM  
SAP S4CM |
| Transition to SAP BW/4HANA                   | • New implementation  
• System Conversion (in-place/shell/remote)  
• New implementation of embedded product  
• Transition to embedded product                             | SAP BPC 11.0     |
| SAP Activate Methodology for Business Suite and On-Premise- Agile and Waterfall | • methodology                                                  |                  |
| SAP Activate Methodology for New Cloud Implementations (Public Cloud-General) | • methodology                                                  |                  |
| SAP Activate Methodology for SAP S/4HANA Cloud | • transition                                                   |                  |
| SAP Activate Methodology for SAP S/4HANA Cloud (single tenant edition) | • transition                                                   |                  |
| SAP Activate Methodology for Success Factors  | • transition                                                   |                  |
| Implementation of SAP Analytics Cloud         | • transition                                                   |                  |
| ...                                           | • transition                                                   |                  |

Benefits for SAP Customers and Partners

• Learning & enablement on how to transition: Main information source for customers and partners
  Example: Offline version of the “Transition to SAP S/4HANA” road map text

• Description of the most important SAP tools in the context of a certain activity
  Example: SAP Transformation Navigator

• Whitepapers:
  Example: Best-Practice Document “Elements for Designing a Transition Roadmap to SAP S/4HANA” (Public)

• Access to expert information in the context of a certain activity
  Example: SAP S/4HANA Cookbook - Customer/Vendor Integration

• Explanation of the SAP Service offering per activity
  Example: SAP Value Assurance - Description of Services and Service Components
  Please note: Service offerings from SAP Enterprise Support are included as well

• Initial clarification and scoping of the transition project

• Transition project file template as a starting point
SAP S/4HANA Transition Road Map – Road Map Viewer
https://go.support.sap.com/roadmapviewer/

- SAP Cloud Platform app
- powerful functionality
  e.g. filtering for scenarios, workstreams, phases
- General Methodologies: SAP Activate in general
- SAP S/4HANA: Cloud, and On-Premise

Product specific implementation road maps are here!
All major activities of a transformation are documented in the SAP Road Map Viewer.

Each activity box in the road map graphic is a headline in the SAP Road Map Viewer grouping several tasks.

Relevant accelerators, or helpful services are provided in the context of the tasks.
Outlook - What else can You do with Transition Road Maps?

Example 1:
Maintain structure slide to your project requirements

Example 2:
Learn how SAP services are mapped to road map activities
Learn about the service offerings from SAP and understand the linkage between road map and SAP services.

Get answers to the following questions:
- What are the service offerings for Standard Support customers?
- What about Enterprise Support Customers?
- What is premium engagement? What can I get with my type of contract?

Focus: SAP S/4HANA on prem

Target Group: IT Management, CoE Leads, Project Managers

After a transition to SAP S/4HANA, you may consider moving to S/4HANA embedded products like from LE-WM to SAP EWM, or LE-TRA to SAP TM, or SAP CRM to S/4HANA Customer Management. Learn which road maps and services are already available.

Focus: SAP S/4HANA on prem

Target Group: IT Management, CoE Leads, Project Managers
