What is Next-Generation Support?

Next-Generation Support

Support from SAP helps ensure the end-to-end safeguarding of our customers’ investment in SAP solutions and is an integral part of the customers’ experience. With the rise of digital technology trends such as cloud solutions, the Internet of Things, and real-time computing, support for business-critical processes in on-premise, cloud, and hybrid landscapes has become more important than ever for our customers.

SAP is reimagining support with Next-Generation Support. Next-Generation Support focuses on effortless, anytime, anywhere support, leveraging the latest technology and tools to speed time to answers. In this presentation, you will learn more about our most recent improvements and innovations, with many more to come. Key areas of focus of Next-Generation Support include:

- Anywhere access through mobile and built-in support
- More channels of access to SAP for help, and increased ease of access to expert help – seamlessly integrated
- Easy-to-use and comprehensive self-help tools and resources
- Personalized help and resources to speed time to answers
- More interactive help through use of social media
- New cloud product-specific tools and dashboards
  ....... All seamlessly integrated for an effortless support experience

SAP’s Next-Generation Support is about delivering an amazing support experience to our customers in which we anticipate customers’ needs, accelerate their path to accurate answers when they need them, and offer expert help at their fingertips.
Our vision of the digital support experience

You should never have to ask a question.
Our collective focus with product development is to achieve high-quality, intuitive products that anticipate your needs.

If you have questions, it’s quick and easy to get answers.
Access to SAP’s comprehensive knowledge base notably accelerates your path to accurate answers when you need them.

Our support experts will provide you with solutions quickly.
Our highly skilled engineers collaborate with you to help ensure you are successful – providing fast, easy access to the answers you need.
Live Business needs live support
Next-Generation Support for the intelligent enterprise

- SAP Cloud Trust Center

AI / Machine Learning
SAP constantly innovates to improve our products and provide you with a world-class support experience.

- Thought leadership
- Artificial Intelligence / Machine Learning
- Incident solution matching
Self-service and incident prevention
Automated search for SAP Notes

The **automated search for SAP Notes** is a tool that helps you to easily and quickly identify SAP correction notes for functional issues, your codes, and customizing tables (for standard processes).

**Overview**
- The automated search for SAP Notes works directly from the customer system where the issue occurs.
- In order to obtain SAP relevant notes, customer code and customizing tables, start transaction ‘ANST’ and reproduce the issue.
- Learn more:
  - Check the FAQ, see the video, and go to the Help Portal.
  - Read the blogs: ‘ANST’ and ‘What is ANST’

**Benefits**
- Only notes that are relevant for the respective issue are identified.
  - No need to choose search terms for the notes search: As opposed to notes search based on search terms you may choose, the automated search for SAP Notes tool bases note searches on the ABAP objects that are involved in the process.
  - The tool is for ABAP based systems: either running directly in the back-end system or through a front-end (SAP Fiori, portals).

**Access**
- Start a transaction ‘ANST’ from the back-end and reproduce the issue, learn more in [KBA 1818192](#).
- Watch the video.
- Before you proceed, make sure the following notes are implemented in your system:
  - [2361155](#)
  - [2469123](#)
  - [2286869](#)

**Preview**
The Performance Assistant notes and KBAs search tool searches for SAP Notes and Knowledge Base Articles for ABAP messages – based on the relevant message code (message class and number).

**Overview**
- The Performance Assistant helps you to easily and quickly search for SAP Notes and Knowledge Base Articles for ABAP messages – based on the relevant message code (message class and number).
- Check the FAQ
- See the video to learn more
- Read the blog

**Benefits**
- Receive real-time documentation updates
- If a new SAP Note is created and contains the ABAP message code, the Performance Assistant identifies it
- You benefit from immediate updates and information on SAP Notes

**Access**
- When you get an error message, double click on the error message then click on the binoculars/search icon, learn more in KBA 2096401
- Watch the video

**Preview**
