

Profit from unparalleled value for finance and beyond with the Intelligent Cloud ERP

There is a new reality for finance leaders who want to change the way work is done and elevate their importance across the enterprise. They need to provide sound advice, strategic leadership and consider purposeful actions.

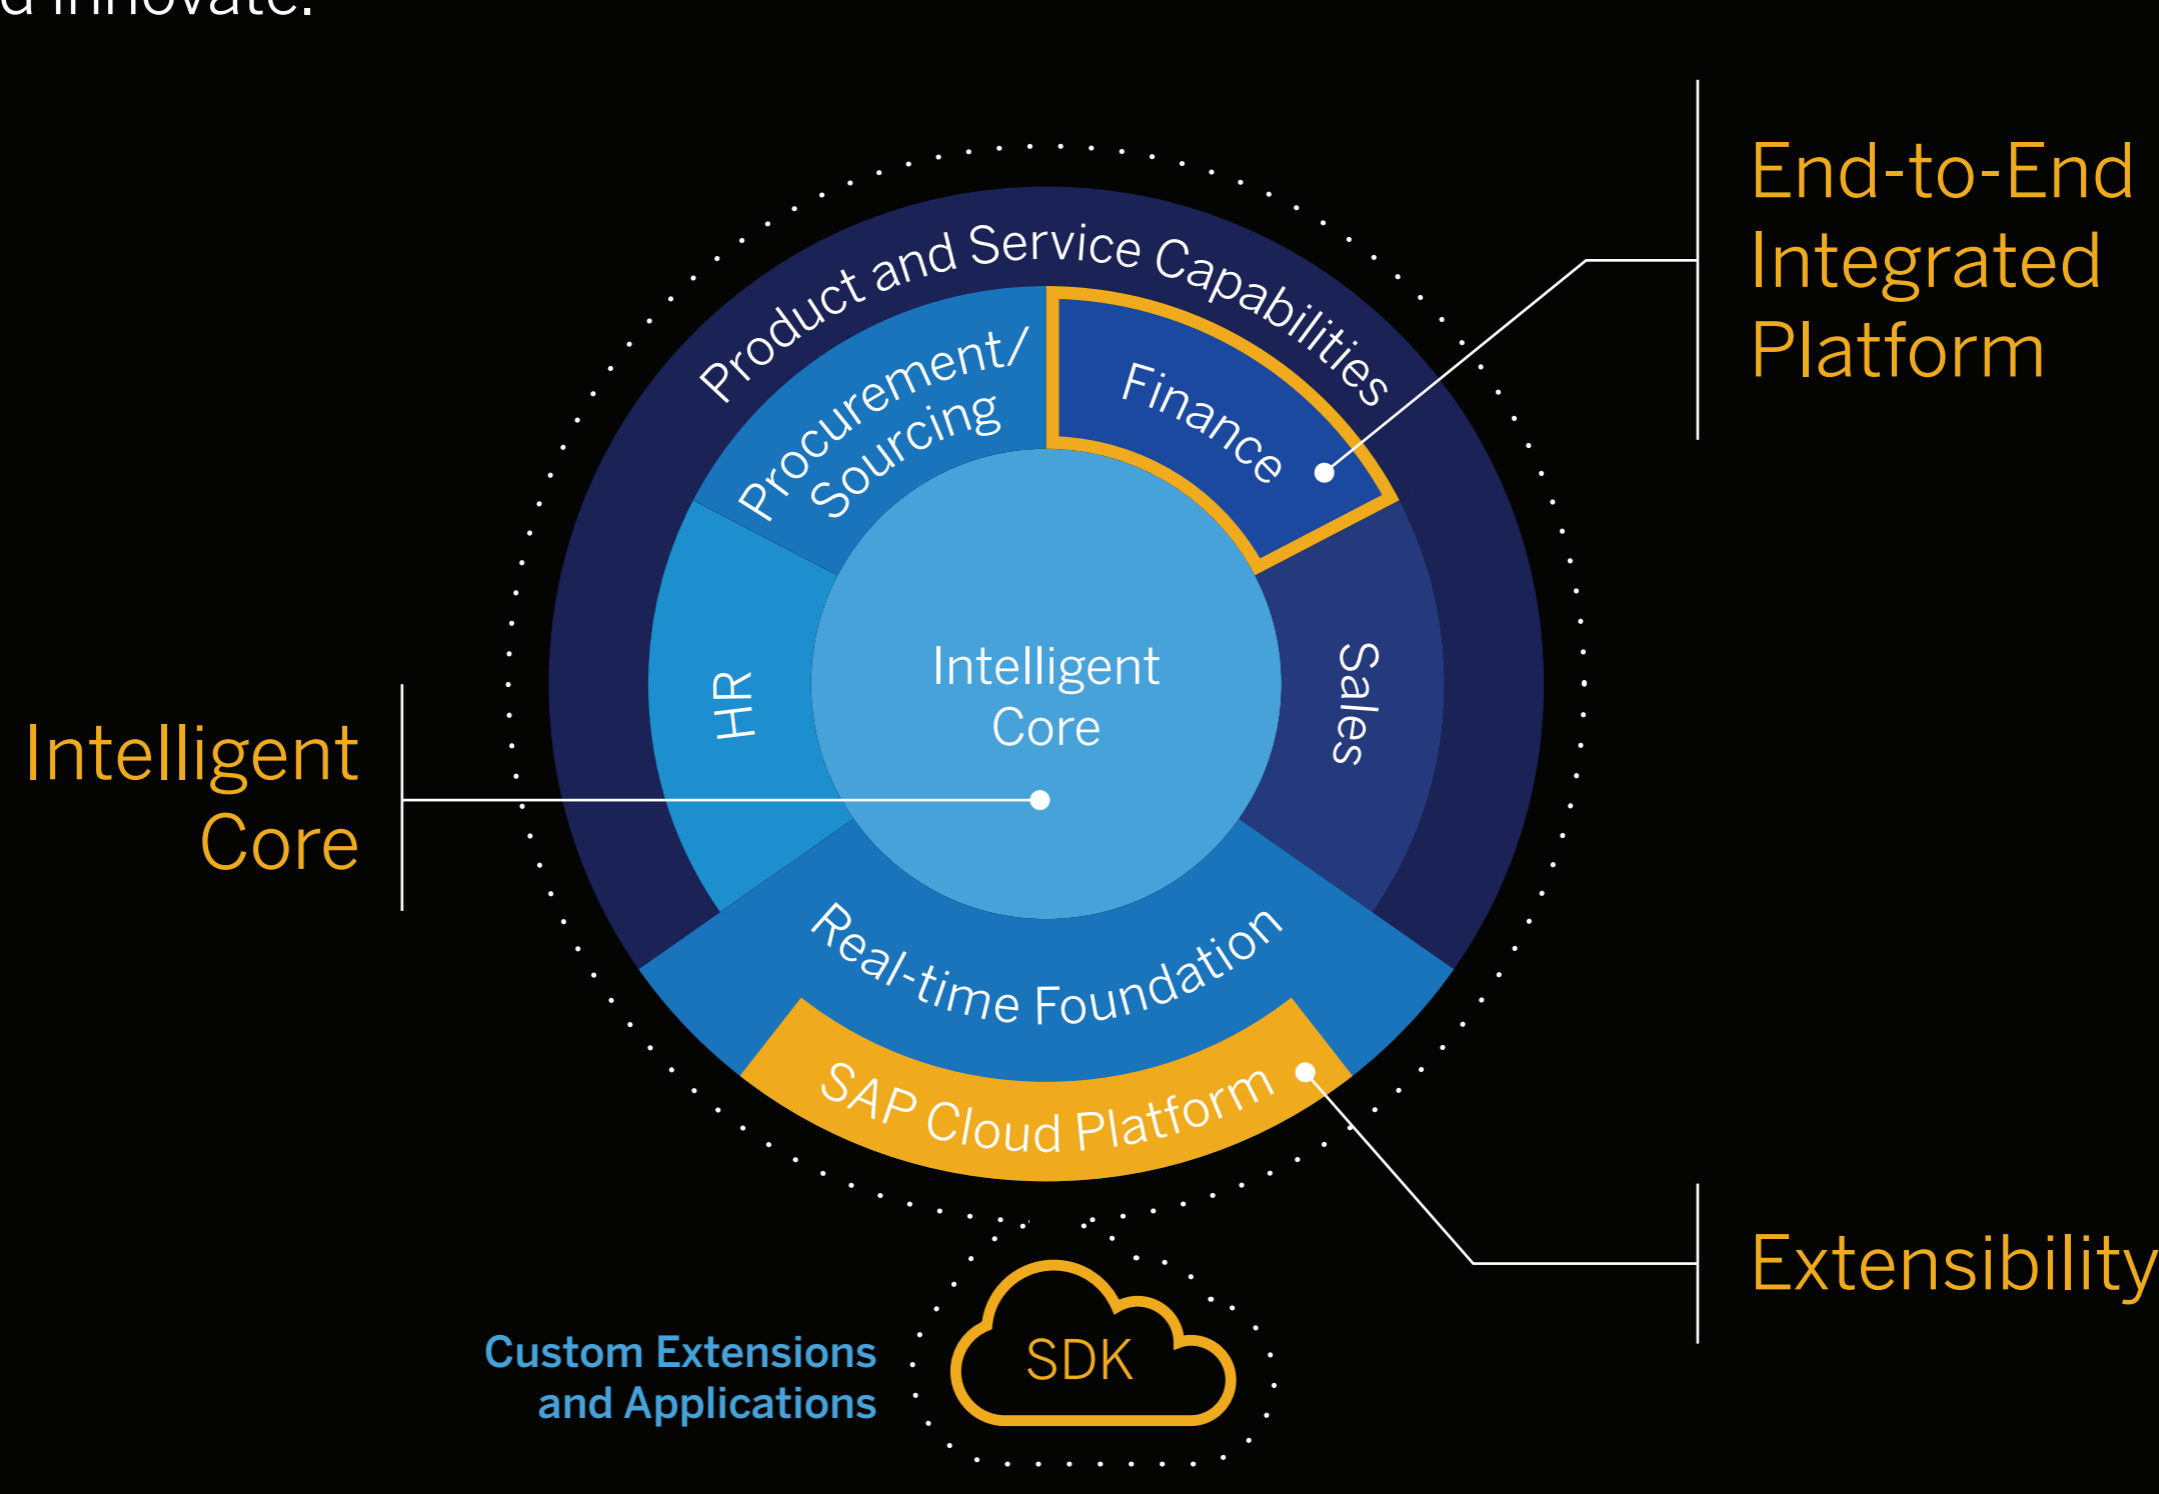

At the core of their strategy stands a next-generation intelligent ERP platform that is the center point of all finance processes, and is connected to all parts of their business so they can get an up-to-date view of the entire value chain.

To help their company become intelligent enterprises, finance organizations should lead along four business objectives.

SAP S/4HANA Cloud is the Intelligent ERP that takes finance into the digital age. Built on a real-time, open platform, it seamlessly ties your finance processes to procurement, sales, HR and other operations.

You adopt the most complete, integrated platform available to grow and innovate.

Many finance processes are getting intelligent with new technologies like machine learning or predictive analytics in SAP S/4HANA Cloud.

Explore just a few examples here:

 Lower errors and human effort by automatically extracting information from unstructured payment advice

 Scale up your accounting teams capabilities with intelligent invoice matching

 Accelerate period-end closing with intelligent goods receipt / invoice receipt account clearing

 Mitigate the risk of project budget overruns by predicting project cost

 Uncover hidden growth potential with intelligent alerts on unusual costs and revenue opportunities

Your organization is now set to achieve unprecedented outcomes in all areas of finance:
