- MotoX
- Honda and Redbull
- Ten Kate
- KRT

Data & Performance

Connectedness is key to performance

Provided by SAP (system of record)

Recompose some existing processes and data and breath some life into them with modern technologies and intuitive UX

In collaboration with SAP (bi-modal)

Get people working together and doing things differently by taking a data-driven view of the organisation, extending systems of record with other data non-disruptively
