SAP ALM Summit EMEA 2025
Boost Your ALM Value!

SPECIAL OFFER: Usability and Feedback Session Registration!

Dear attendees of the SAP ALM Summit EMEA,

We are looking for **Usability (UA) test participants** and respective feedback on the following topics of **SAP Cloud ALM**.

Prior to registering for one of the topics please check if you meet the given general and topic specific prerequisites for your session at the Usability Feedback Station.

General Prerequisites:

Your company has an existing SAP Cloud ALM tenant!

We'd like to cover 3 Topics with various testing profiles and prerequisites:

Topic A

Test the Customizable Dashboard Builder aiming at optimizing monitoring and reporting experience. Explore the features and functionalities of Monitoring Dashboards, understand how to customize them using SAP delivered contents, share user insights on integrating different SAP monitoring metrics and indicators, and provide feedback on the innovative capabilities powered by SAP Joule.

Specific Prerequisites:
You have knowledge of SAP Cloud ALM for Operations.

Your profile fits to one of the following:

1. SAP Cloud ALM Administrators: Optimize SAP Cloud ALM environments using custom dashboards.

2. SAP Operations Responsible: Ensure optimal system performance and operational efficiency.

3. SAP Competency Center Lead: Align dashboards with organizational goals and strategies.

4. SAP Basis Experts: Proactive system monitoring and troubleshooting.

Topic B

Test the Project Quality Monitoring Dashboard, an analytical application designed to track, visualize and monitor project quality metrics. Evaluate the effectiveness, assess the clarity and intuitiveness, and help us identify potential usability issues to inform future improvements.

Specific Prerequisites:
You have Knowledge of SAP Cloud ALM for Implementation.

Your profile fits to one of the following:

1. Project Managers: Leading implementation projects

2. Project Quality Managers: Ensuring data quality in projects with SAP Cloud ALM

3. Validation Experts (GxP)

Topic C

Test key aspects of the Application Lifecycle Management from process management and documentation to testing in SAP Cloud ALM, e.g. how object versioning is envisioned, and how these objects move through different stages along the lifecycle.

Specific Prerequisites:
You have knowledge of SAP Cloud ALM
(independent of Implementation or Operations).

Your profile fits to one of the following:

1. Process Managers: Owning Processes and their Lifecycle in SAP Cloud ALM

2. Document Owners: Writing and owning Documents

3. Test Author: Writing and owning Test Cases

How to participate?

Let us know if you are interested by replying on this email by **OCT 13th, 2025** at the latest including your **chosen topic** (Topic A. B, C), your testing **profile** and two **preferred time slots**. Please send your answer to SAP_ALM_Summit@sap.com.

Available 60 min timeslots are on Tuesday, Wednesday, and Thursday

1. <u>Tuesday 21st 2025</u>: 10-11:00 / 11-12:00 / 13-14:00 / 15-16:00 / 16-17:00

2. <u>Wednesday 22nd 2025</u>: 10-11:00 / 11-12:00 / 13-14:00 / 15-16:00 / 16-17:00

3. <u>Thursday 23rd 2025</u>: 10-11:00 / 11-12:00 / 13-14:00

We will send you an available appointment by first come, first served prior to the ALM Summit EMEA.
At the day of your appointment walk in at the UA Station and check in for your registered Usability Feedback & Testing session.

Why participate? Your insights are valuable and will directly influence our design and development.

Who can participate? Any testing profile described above meeting the prerequisites given. **An existing SAP Cloud ALM tenant is mandatory.**

We look forward to seeing you in Darmstadt!

 Best regards,

Your ALM Summit EMEA 2025 team
