Dear Sara,

I hope this message finds you well. I would like to express our gratitude for promptly providing us with the latest status of **sales order 24817**, however we have encountered an unforeseen production plant issue at our Stuttgart location that necessitates a change in the delivery address for the Battery Packs.. Consequently, we kindly request that the delivery address be updated as follows:

- **Original delivery address:** Seelbergstraße 9 D-70372, Stuttgart Germany
- **New delivery address:** George-Stephenson-Str. 7 10557 Berlin Germany

Please be informed that this new delivery address will used for future orders as well.

We apologize for any inconvenience this may cause and greatly appreciate your assistance in facilitating this change. Thank you for your understanding and cooperation and looking forward for your reply.

Warm regards,

Maurice
Green Harvest Innovation

RESILIENT

THE KEY TO SUCCESS

Back to the missing screw - kneeling on the floor, everything ready, but missing just one screw?

What we've seen today is that the key to success isn't one big breakthrough – it's getting the small things right, consistently.

If we bring the right tools, mindset, and partnerships together – piece by piece – we build something stronger, smarter, and more sustainable.

And next time? No missing screws.

"The most dangerous poison is the feeling of achievement. The antidote is to every evening think what can be done better tomorrow!"

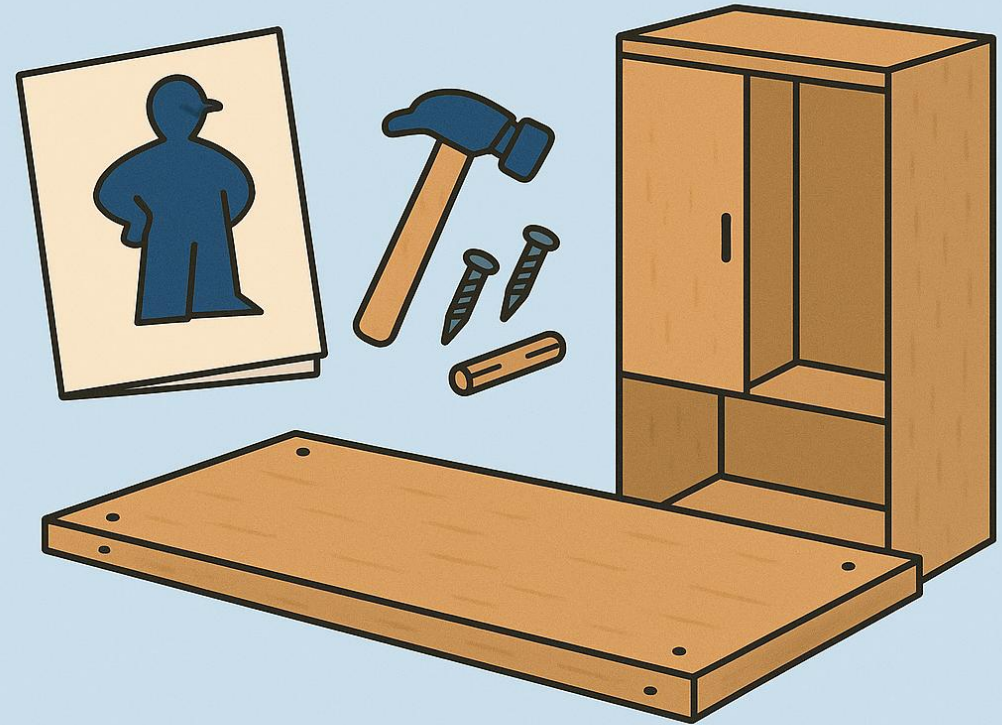

– Ingvar Kamprad
