

SAP Adoption Starter Program

Business Process Discovery Preparation

Overview

July 2019

PUBLIC

Pre-requisites for the **Business Process Discovery** remote service delivery.

To deliver the service (remotely) we need to access the **productive ERP system** to analyze the system via transaction ST13 and TAANA.

Please prepare the following **before program kickoff**:

- Provide SID of the ERP / Business Suite system (active client/tenant)
- Check the ST-A/PI add-on version of the ERP. The most recent version is ST-A/PI 01T. If you have a very old version (ST-A/PI 01R or before) in place, please upgrade to ST-A/PI 01T.
- Open the R/3 remote logon connection to the productive ERP
- Provide SAP a OSS or firefighter user with the following roles / access:
 - Copy of SAP role SAP_MANAGED_BPOANA_ALL
 - Access to the following transactions: ST13, TAANA, SU01D (and optional SE16)
- Please use the Secure Area to provide your system access data (e.g. by creating an incident and sending the incident number to:
 - s4hana.adoption.starter@sap.com

Thank you, and looking forward to working with you!
