Selective Data Transfer
## from SAP Solution Manager to SAP Cloud ALM

Selective Data Transfer

The *Selective Data Transfer* covers the takeover of relevant data **from SAP Solution Manager to SAP Cloud ALM.**

It allows to **define a tailored scope** with the flexibility to **modify the data** in one step. The approach allows to combine **redesign of ALM processes** with **retaining important data** aligned to secure your investments.

Customers should use the **SAP Cloud ALM Readiness Check to identify their functional requirements and define priorities** while aligning these to their core project planning (scope, time and budget).

To give **customers guidance** a **SAP Cloud ALM transition roadmap** is provided based on SAP Activate Methodology.

SAP Activate

*This is the current state of future vision and may be changed by SAP at any time.
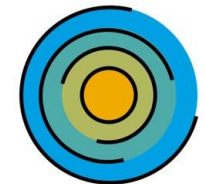

Selective Data Transfer for SAP Cloud ALM
Introduction

SAP Activate Roadmap for Transition to SAP Cloud ALM

Discover → Prepare → Explore → Realize → Deploy → Run

Workstream: Data Management

Scope Features → Select data → Adjust (Optional) → Simulate & Correct → Import → SAP Cloud ALM

SAP Cloud ALM Readiness Check

SAP Solution Manager 7.2

Legacy

SAP Activate
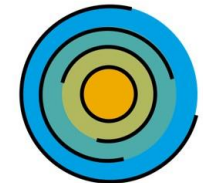

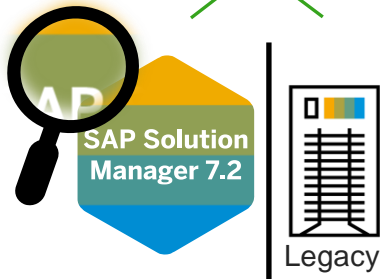

*This is the current state of future vision and may be changed by SAP at any time.

SAP Solution Manager – SAP Cloud ALM Transition
Overview

General:
- No *synchronization* of content between SAP Cloud ALM and SAP Solution Manager 7.2 is planned
- Customer should perform a *one-time* content data transfer
- SAP plans to provide a step-by-step data transition for selective content
- SAP plans to provide specific reports in SAP Solution Manager 7.2 for seamless data transfer to SAP Cloud ALM

More information:
- Transition to SAP Cloud ALM portal page
- Transfer Your Solution Documentation to SAP Cloud ALM to Secure Your Investments – ALM Summit (PDF, Video)

Step	Consists	SAP Solution Manager 7.2 — Selective Data Transfer →	SAP Cloud ALM
Step 1	Process Hierarchy	• Folder / Scenario / Organizational Unit / Master Data / Library Folder	• Process Hierarchy Node
Step 2	Libraries	• Configuration	• Configuration
		• Development	• Development
		• Executables	• Application
		• Interfaces	• Interface
Step 3	Process Content	• Process Steps	• Solution Activities
		• Business Processes • Process Diagrams	• Custom Solution Processes • Solution Process Flows
Step 4	Process Elements	• Test Steps	• Test Cases
		• Documents	• Documentation

*This is the current state of future vision and may be changed by SAP at any time.

Documents

Rebuilding relations: →

- During Excel upload, SAP Cloud ALM rebuilds relations to entities from previous SOLMAN uploads. SAP Cloud ALM can establish the relations if the customers import the related entities before.

Preparing relations: →

- During Excel upload, SAP Cloud ALM saves prepared relations to entities that do not yet exist. SAP Cloud ALM can establish the relations as soon as they are functionally available and when customers import the related entities. Although we provide guidance and documentation telling customers to import data in the order which will prevent missing references, customers will still not always follow these instructions.

# Selective Data Transfer of Documents
Overview of Use Cases

Use Case: Documents remain in Solution Manager

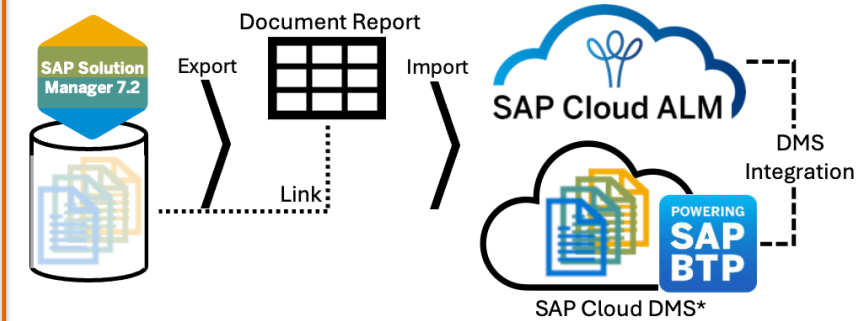

SP19 Solution
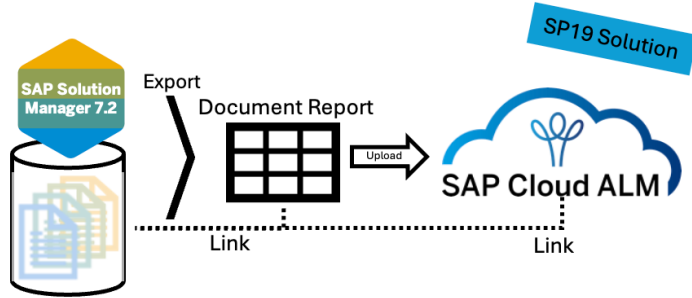

1. Customer export document report and keep files in SAP Solution Manager
2. Document report include all relevant metadata and a link to documents in Solution Manager
3. Customer upload the document report into SAP Cloud ALM
4. Links to documents are available in SAP Cloud ALM

Use Case: Documents moved manual into customer DMS

SP20 Solution
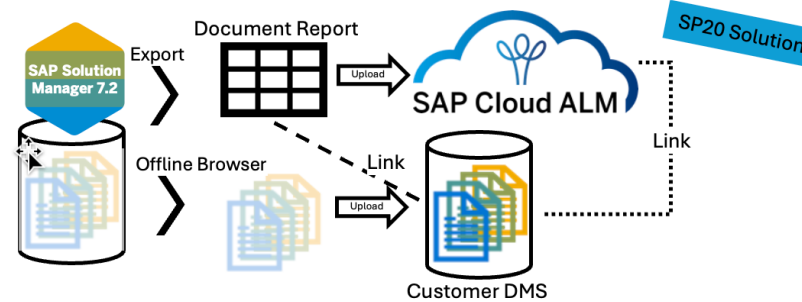

1. Customer exports document report (header data) from SAP Solution Manager
2. Customer exports separate document files (incl. test documents) (KW data) from SAP Solution Manager via Offline Browser functionality
   (Local Document Name in ZIP = NAME+LANGUAGE+External Reference ID (KW Doc ID))
3. Document report includes all relevant metadata, but no link to downloaded documents so far
4. Customer moves his document files into his DMS (FileServer, SharePoint, Google Drive, OpenText, etc.) and needs to have the hyperlink to every document
5. Customer updates the document report with document links from customers DMS
6. Customer uploads the document report into SAP Cloud ALM
7. Links to documents are available in SAP Cloud ALM

Use Case: Documents moved into SAP BTP DMS

1. Customer subscribe to SAP BTP DMS
2. Customer export document report and keep files in SAP Solution Manager
3. Document report include all relevant metadata and a link to documents
4. Customer upload the document report into SAP Cloud ALM
5. SAP Cloud ALM move their document files from SAP Solution Manager into their SAP BTP DMS*
6. Documents are linked in SAP Cloud ALM and SAP Cloud DMS and Customer can manage their documents via DMS integration (CMIS)**

*Discover SAP Document Management service
**Content Management Interoperability Services (CMIS)

*This is the current state of future vision and may be changed by SAP at any time.

SAP

The 2024 SAP ALM Roadshow is coming to Toronto, Canada on August 13th & Chicago, IL on August 15th!

Join us for these all-day **FREE** and exclusive on-site events focusing on SAP Cloud ALM, SAP Focused Run, and the transition from SAP Solution Manager 7.2 to SAP Cloud ALM.

Here's some of the topics we'll cover:

- *How to run your fit-to-standard workshops with SAP Cloud ALM aligned with clean core concepts*

- *How to orchestrate end-to-end tests with SAP Cloud ALM and Tricentis Test Automation*

- *How SAP Cloud ALM supports change control management processes*

- *SAP Cloud ALM as part of a Transformation Management approach with integrations to SAP Signavio, SAP LeanIX, SAP Enable Now, and Tricentis Test Automation*

- *How Foulk Consulting (with collaboration with Galileo Group) integrated SAP Cloud ALM with Tricentis, SAP Signavio, and ServiceNow*

- *How to centrally monitor hybrid landscapes and even non-SAP components*

- *What you need to know for a successful transition to SAP Cloud ALM from SAP Solution Manager*

- *What innovations are planned on the product roadmap into 2025*

Of course there will be lots of opportunities to get your questions answered and provide direct feedback to SAP product management. Seats are still available, so secure your spot now!
