

NOVEMBER 2017

# **Leading Digital Transformation**

## **Driving innovation at scale**

Marc Leroux – Executive Evangelist/Digital ABB

---

# Discussion topics

- Introductions
- The digital transformation
- Innovating at scale
- How we can help
- Q&A... additional dialogue

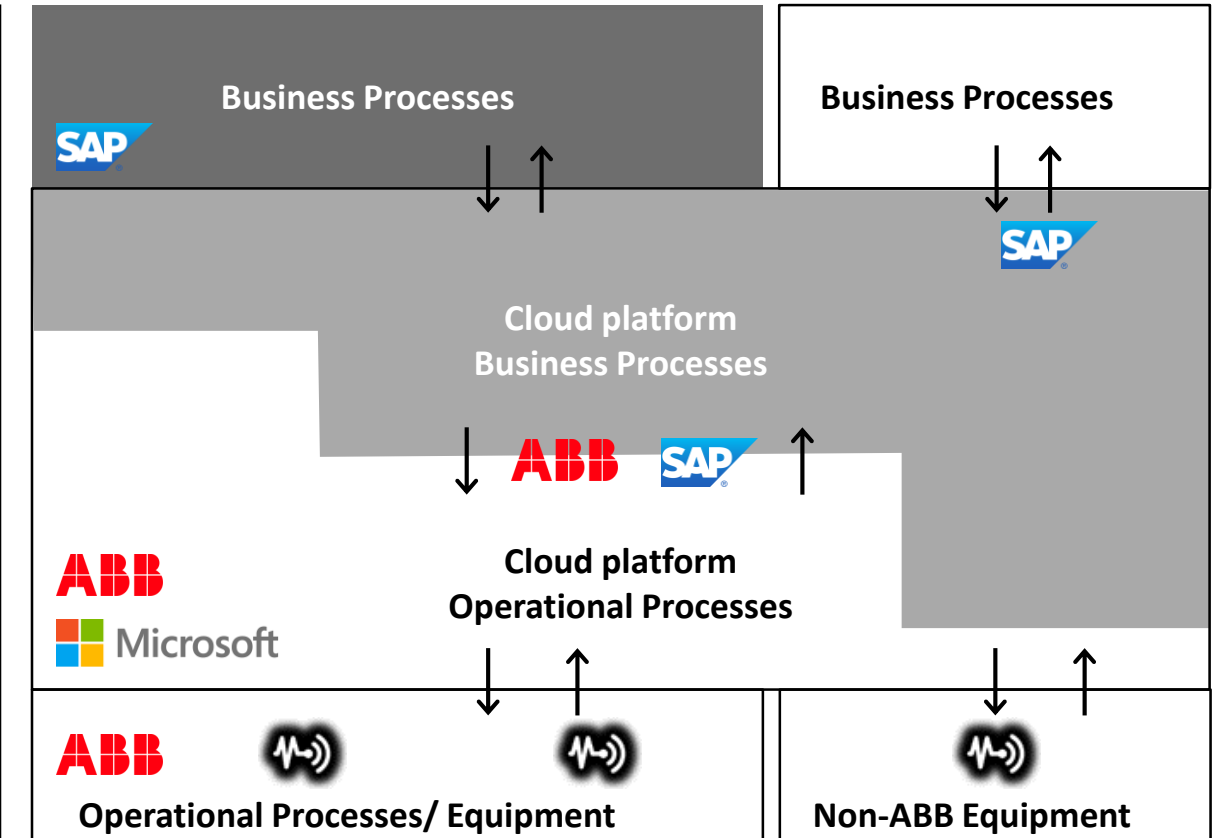

# ABB—125 years of innovation

# ABB & SAP

- ABB's 125 years of innovation and results delivered in Operating Technology (OT)
- SAP's leadership in ERP and business process enablement (IT)
- Leaders in Manufacturing and Industrial sectors and related industries (e.g., CPG)
- Leaders in IIoT, Analytics and Cloud
- Proven experience in IT/OT integration
- Teaming with Microsoft
- Fanatically focused on customer success
- Your trusted partners in Digital Transformation

# Digital transformation

- It's a journey, not a destination
- The only constant is change
- Look to the future, consider the past
- It's not about technology ...

# Starting with the technology ...

## Combination of innovations

- Social media
- Mobile technology
- Analytics (machine learning)
- Cloud computing
- Rapidly reducing costs (of storage)
- Greatly improving battery performance
- Influence of design thinking

# How is it playing out in the industrial sector

## Virtual/ augmented reality

## Software-defined machines

## Machine learning

## Time-sensitive networking

## Big data

## Inexpensive computing

## Cloud computing

## Cybersecurity

## Connectivity

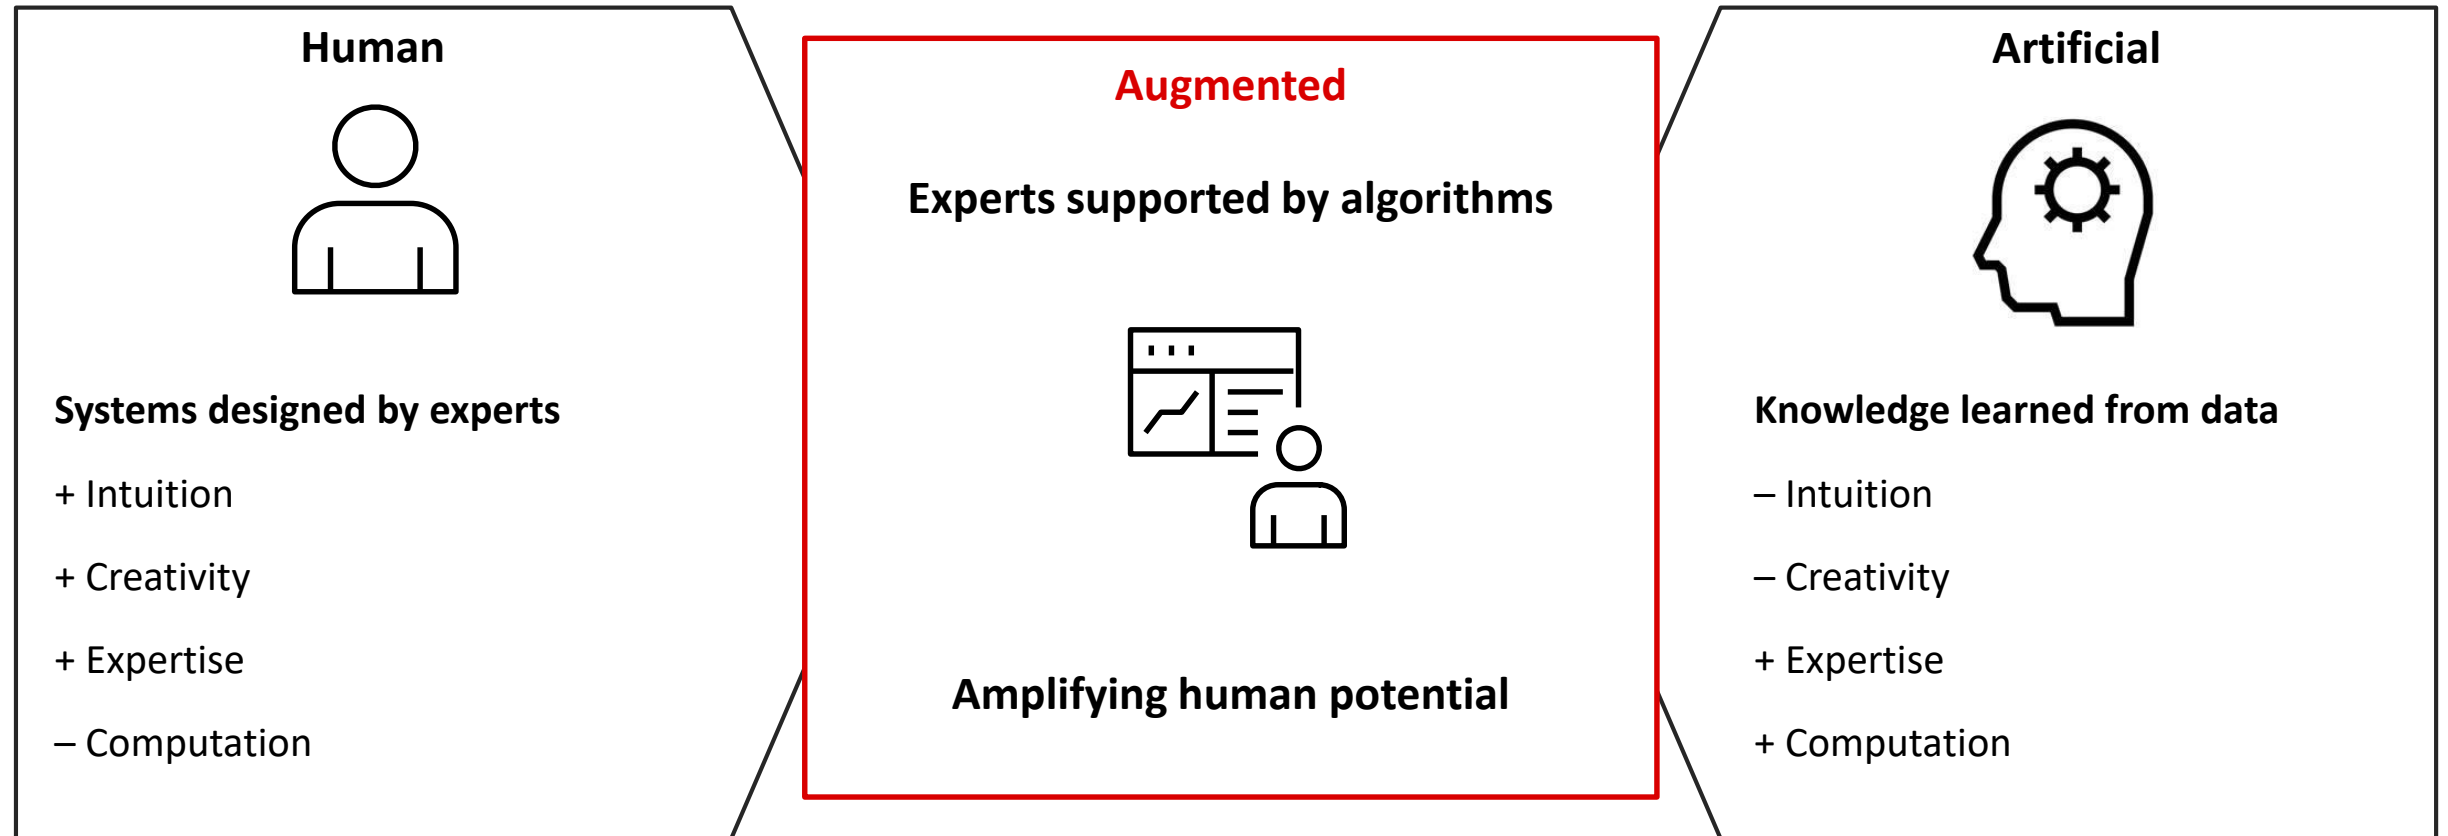

## Blockchain

# Artificial Intelligence is key technology for the next level of industrial progress

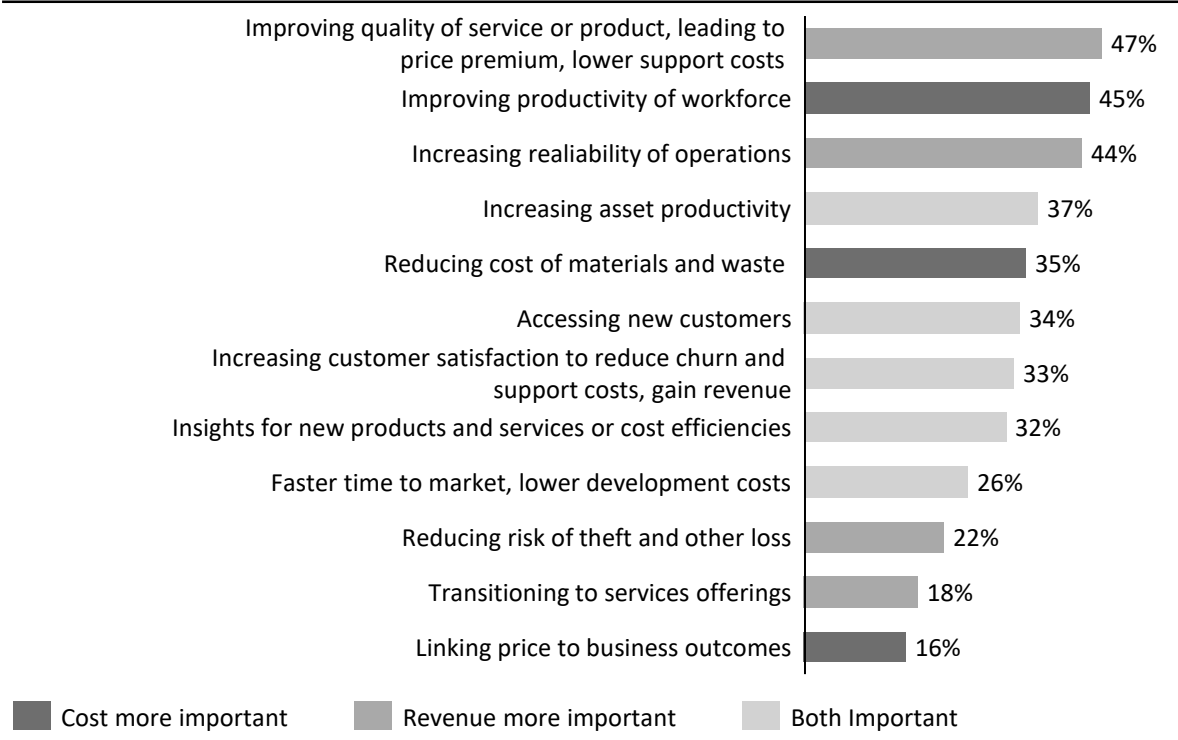

AI: “The ability to learn or understand or to deal with new or trying situations”<sup>1</sup>

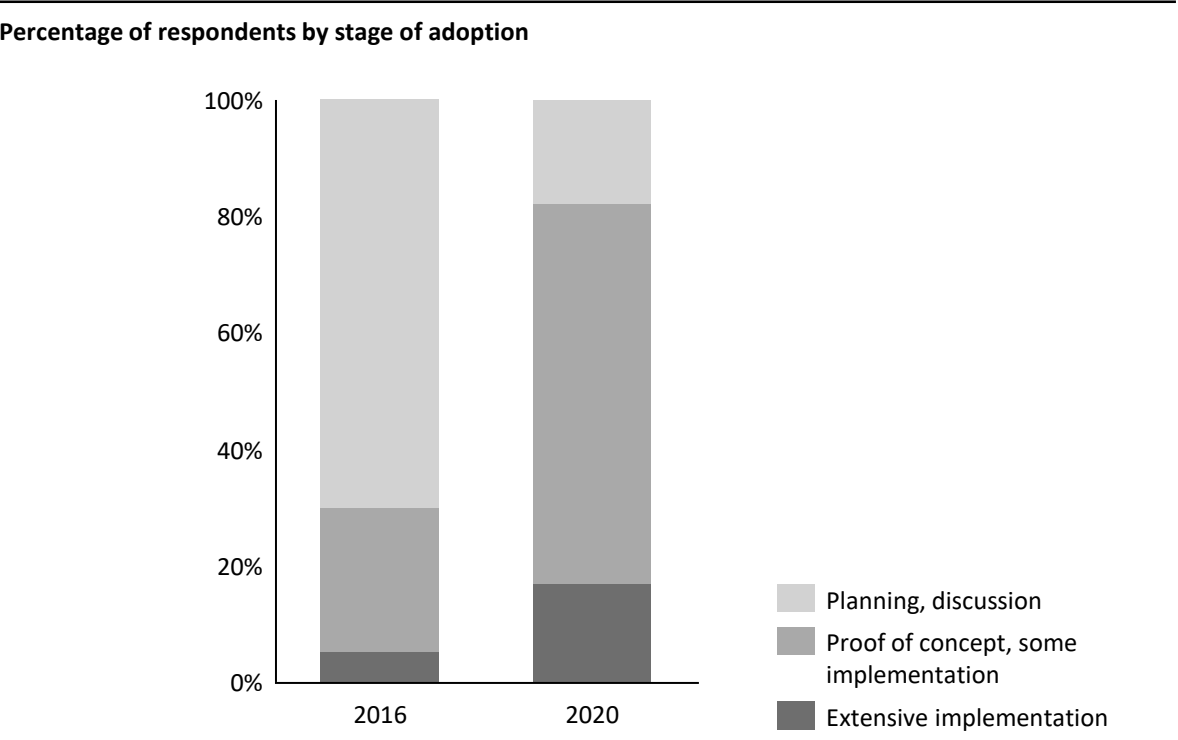

# Ultimately it is all about business outcome and value creation

Percentage of respondents who say they will implement IoT solutions for the following reasons

For those considering IoT and analytics solutions, what stage of adoption is your company in ?

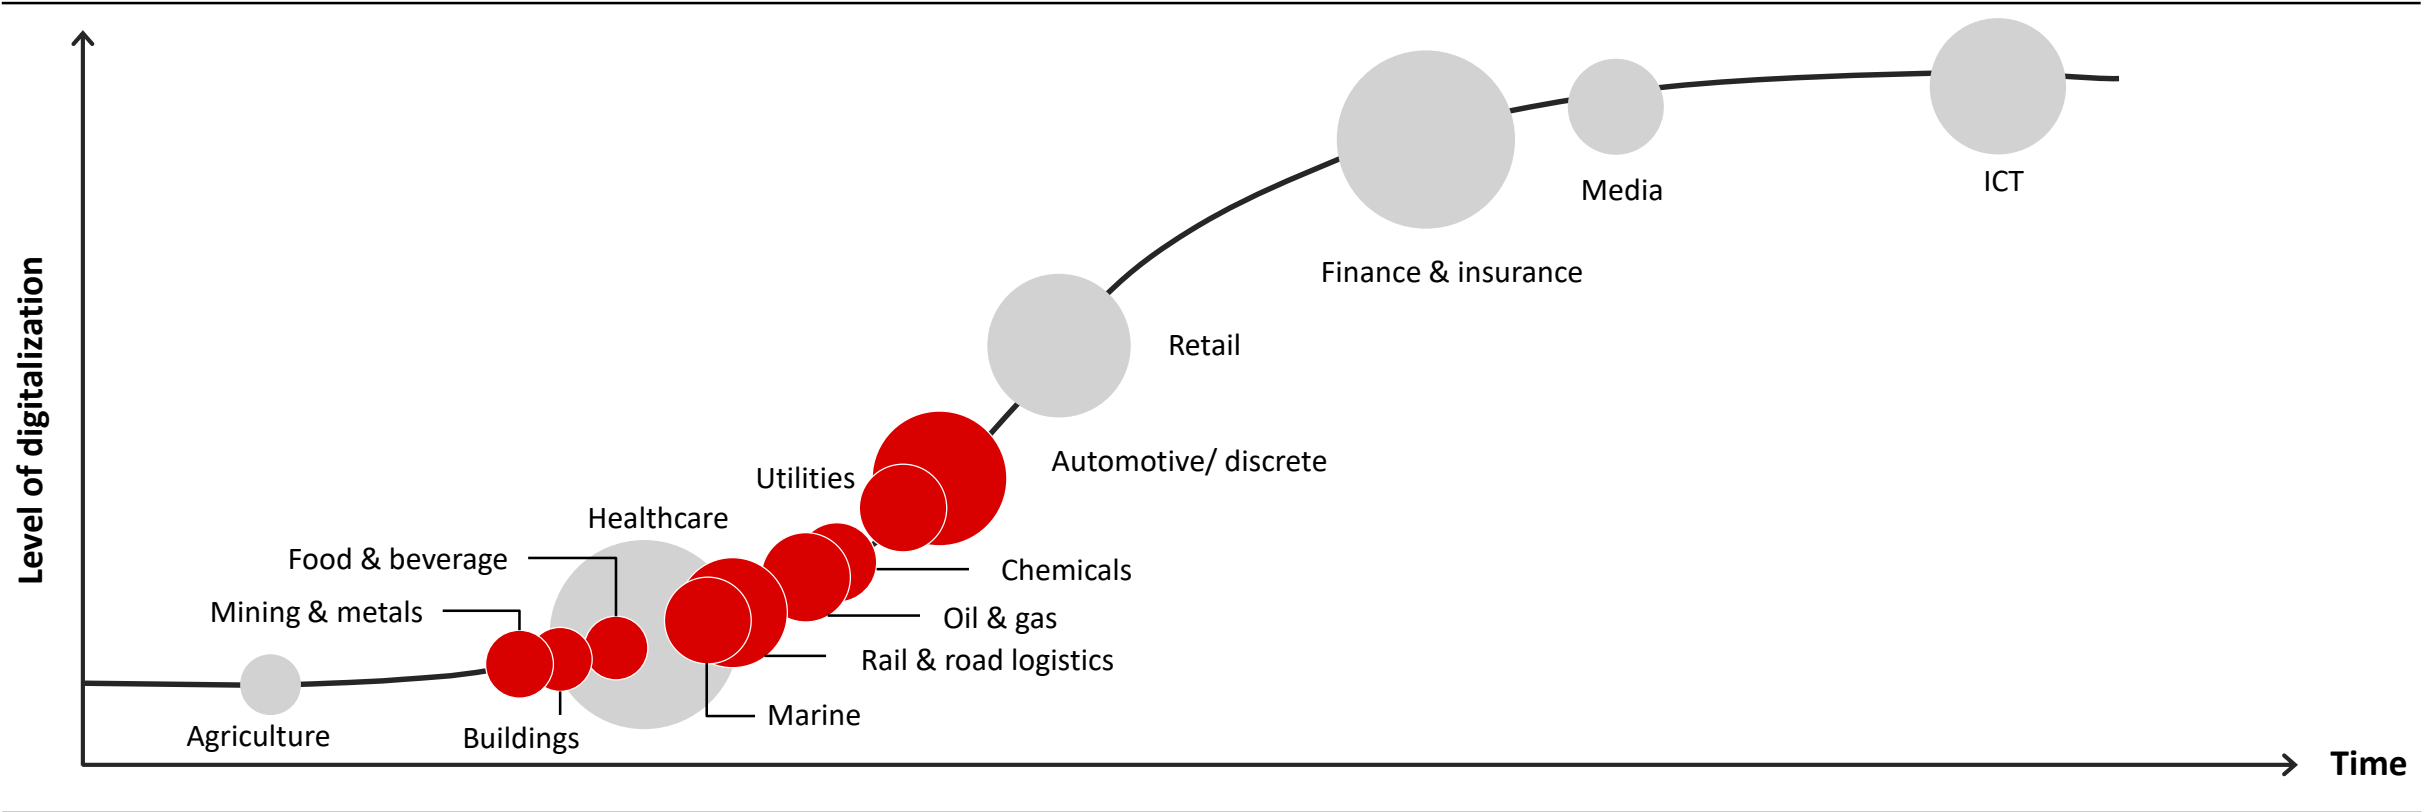

# Industrial markets primed to adopt digital technologies

Computing + connectivity + cloud + analytics set to unlock value

## Digital S-Curve

# General characteristics of industrial markets

- Speed of technology adoption
- Asset Intensive
- High degree of Interoperability required
- Reliance on people to operate and maintain

# Companies have been integrating data from sensors and operations management systems for many years!

- However
  - Age of the assets
  - Generally connected to single purpose systems
  - Difficult & expensive to build applications

And...

88%

of organizations' data is going unanalyzed  
- Gartner

Connected things will be in use by  
2020—Gartner

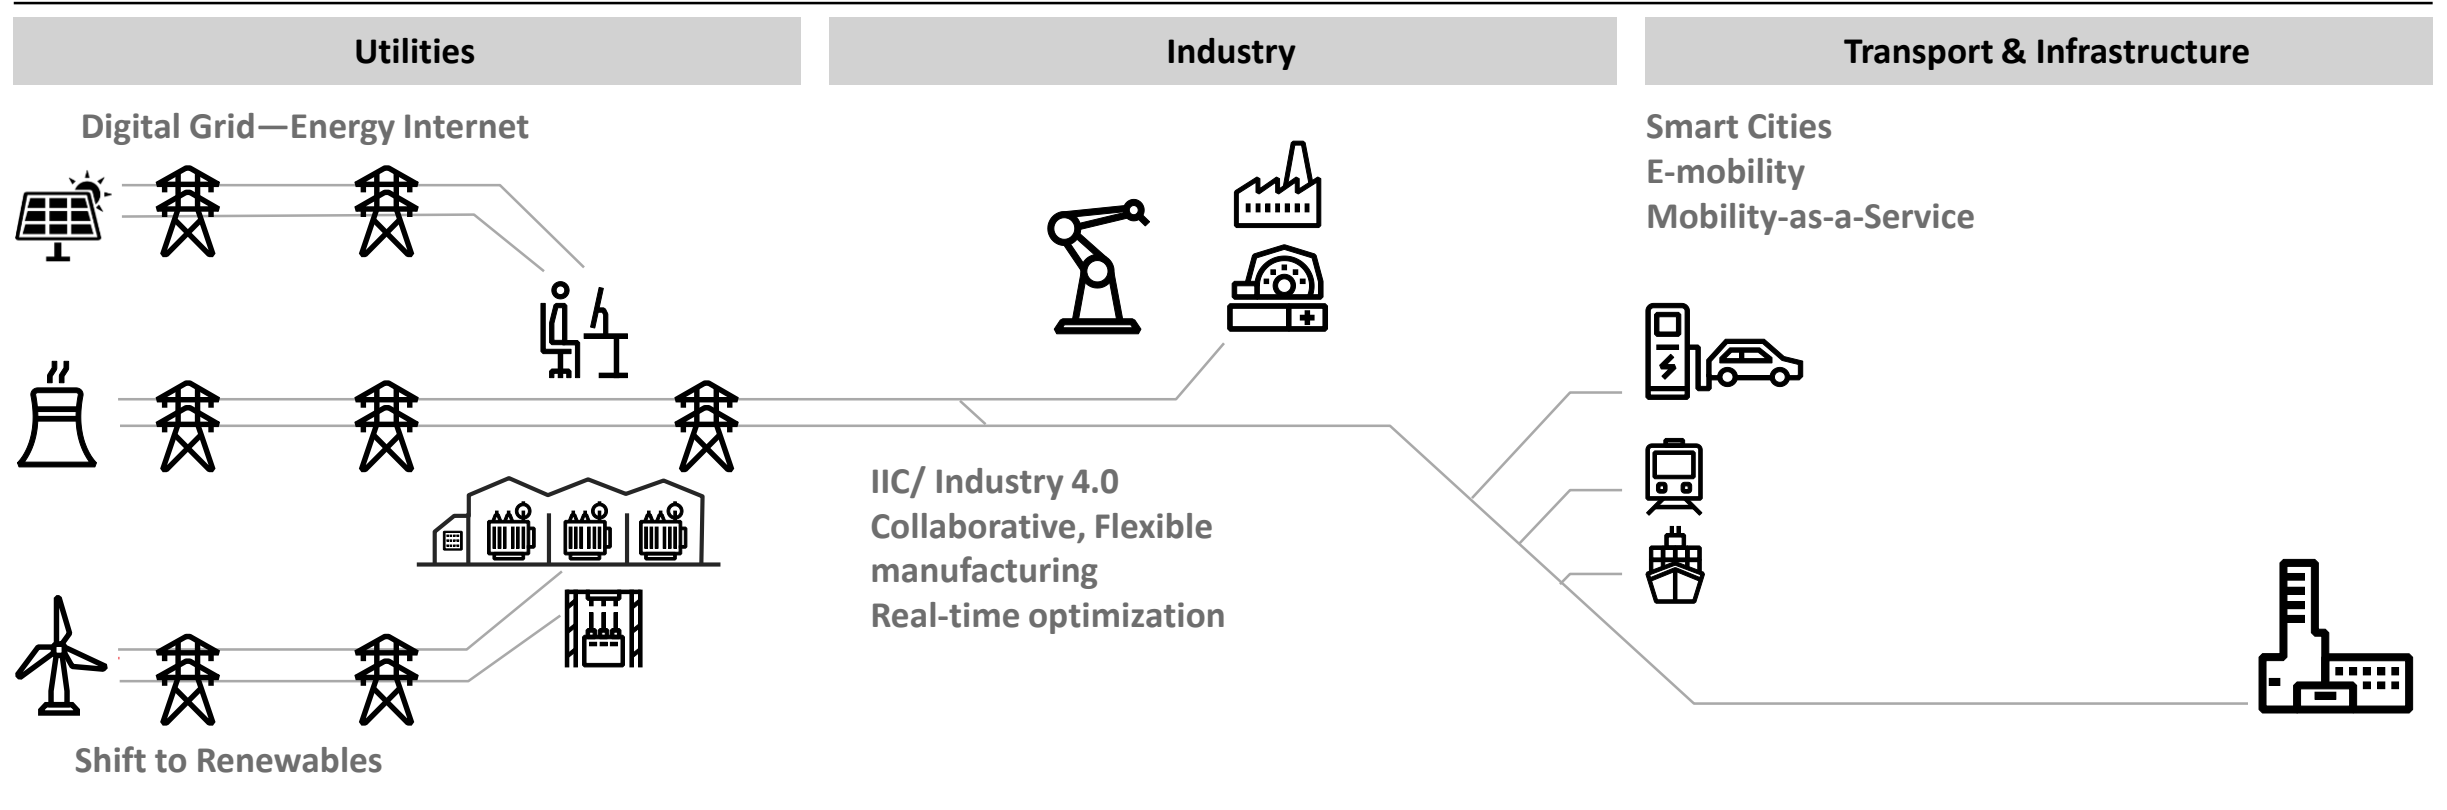

**25 Billion**

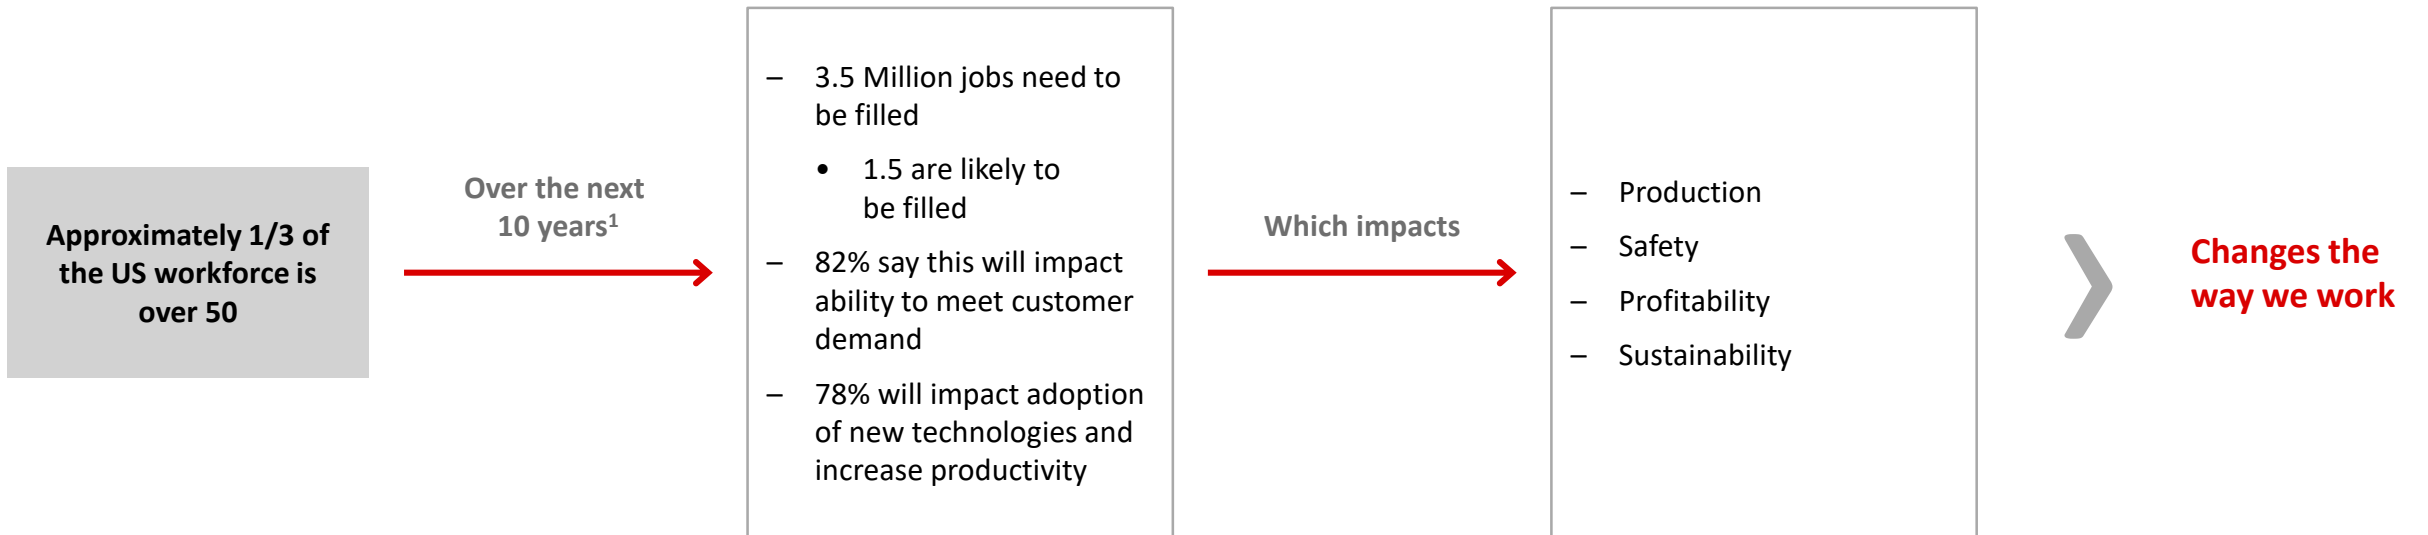

# Integrated supply chain

Energy and Digital Threads connect Utilities, Industry and Transport & Infrastructure

## Power & Automation

# Aging workforce

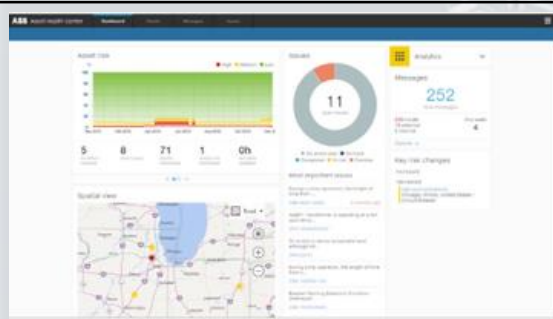

# Utilities

Reduced installation time (-40%), maintenance costs (-50%) and outage time (-50%)

SELECTION

## Asset performance management

## Distributed energy resource management

## Maintenance workflow management

## Energy market trading system

## Automated digital substation

## Standard IP communications

## Microgrids

# Industry

Improved productivity (+200%), reduced energy (-30%), & longer product life (+30%)

SELECTION

Connected robots

Manufacturing execution systems

Energy assessment

Cybersecurity assessment

Digital simulation for robot deployment

Power quality monitoring & demand-response

Distributed control systems

Remote monitoring & optimization

# Transport & Infrastructure

Proactive detection of faults (90%), reduced maintenance costs (-20%) and energy costs (-5%)

Remote monitoring for ship electrical systems

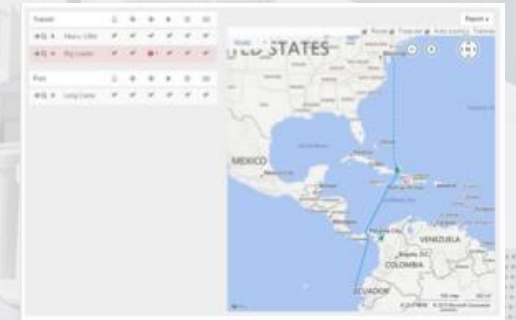

Building automation

Vehicle-to-grid demand/ supply coordination

Navigation optimization for fleets

EV charging with cloud management

Flash-charging electric buses

Energy management for mega-datacenters

# Next steps in your Digital transformation...

## How we can help...

- Come visit our ABB “pod” at Leonardo Live
- Schedule a visit to an ABB “showcase” factory, learn from practitioners about ABB/ SAP OT/ IT integration
- Engage with our Digital Transformation team(s)
- Plan a workshop/ design session
- Engage with our subject matter experts and customers
- Explore new business models

---

**Writing the digital future takes ability. ABB Ability™.**
