Upgrade2Success: Making Migration Easier

The world is changing at an unprecedented pace, driving HR to keep organizations resilient and agile enough to meet the challenges and opportunities the future holds.

To help you meet the new realities, we've created Upgrade2Success, a comprehensive program that has all you need to move from your on-premise SAP HCM solution to the cloud.

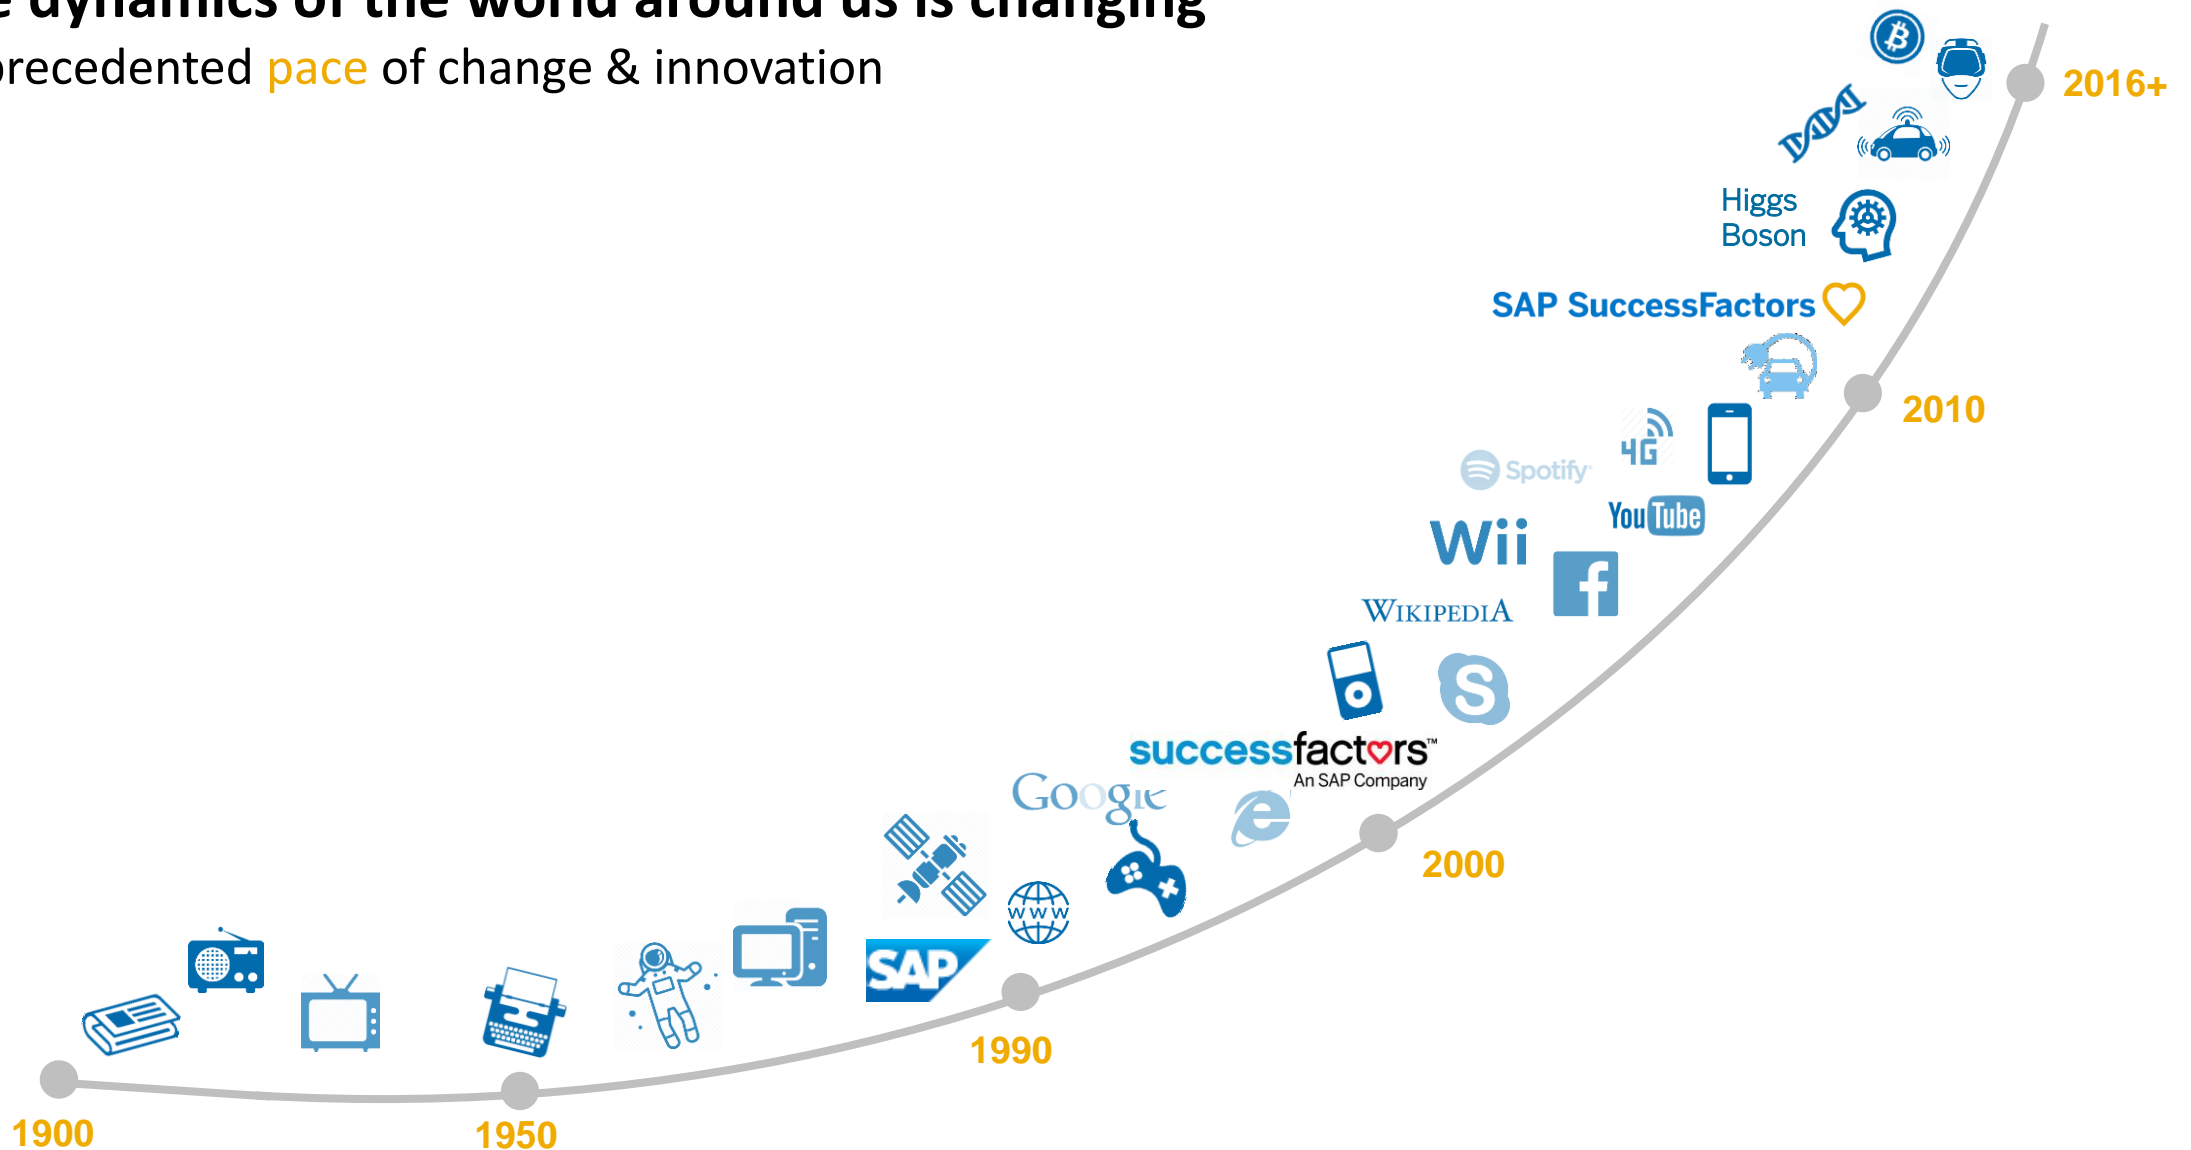

This program provides you with proven tools, assets, and services that can make your journey easier and as smooth as possible.

Benefits

- ✓ Simplified migrations, with reduced risk, cost and time to benefits
- ✓ Confidence that your data will be safe and secure
- ✓ Integration with your other SAP applications
- ✓ Innovation platform to make your HR systems as agile as your business

The dynamics of the world around us is changing

Unprecedented **pace** of change & innovation

**Any process designed
more than 3 years ago
is outdated**

PAST

FUTURE

**The right strategic
approach now is not the
right approach 3 years
from now**

Increasing pace of change in technology

Increasing demand for
new skills

Tomorrow's jobs
don't exist today

The dynamics of how we engage people are transforming ... at an **unprecedented speed**

Globalization, contingent workers,
people networks, gig-economy,
attitudes, definition of employee

Capabilities in artificial
intelligence, collaboration

Expect up to date technology,
more feedback,
training at work

... a paradigm shift

Mastering these challenges requires a **digital approach to HR**

HCM technologies and strategies must encompass a new set of digital capabilities

Continuous

Encourage **continuous usage** and **engagement**, and foster **continuous innovation**

Intelligent

Use **data** to suggest and recommend

Extensible

Expand solutions and **build own apps** to meet current and future needs.

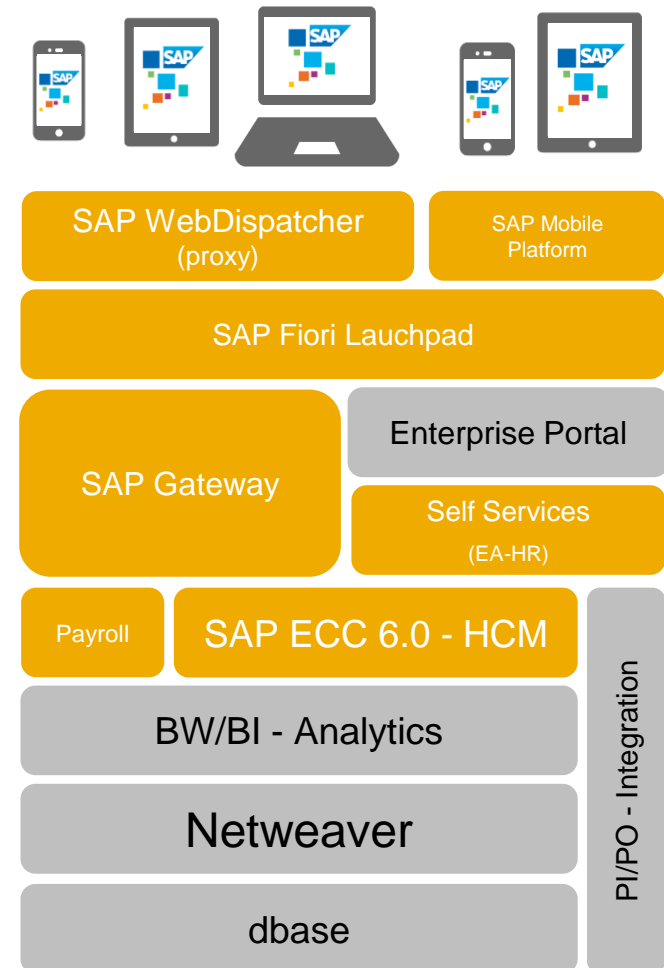

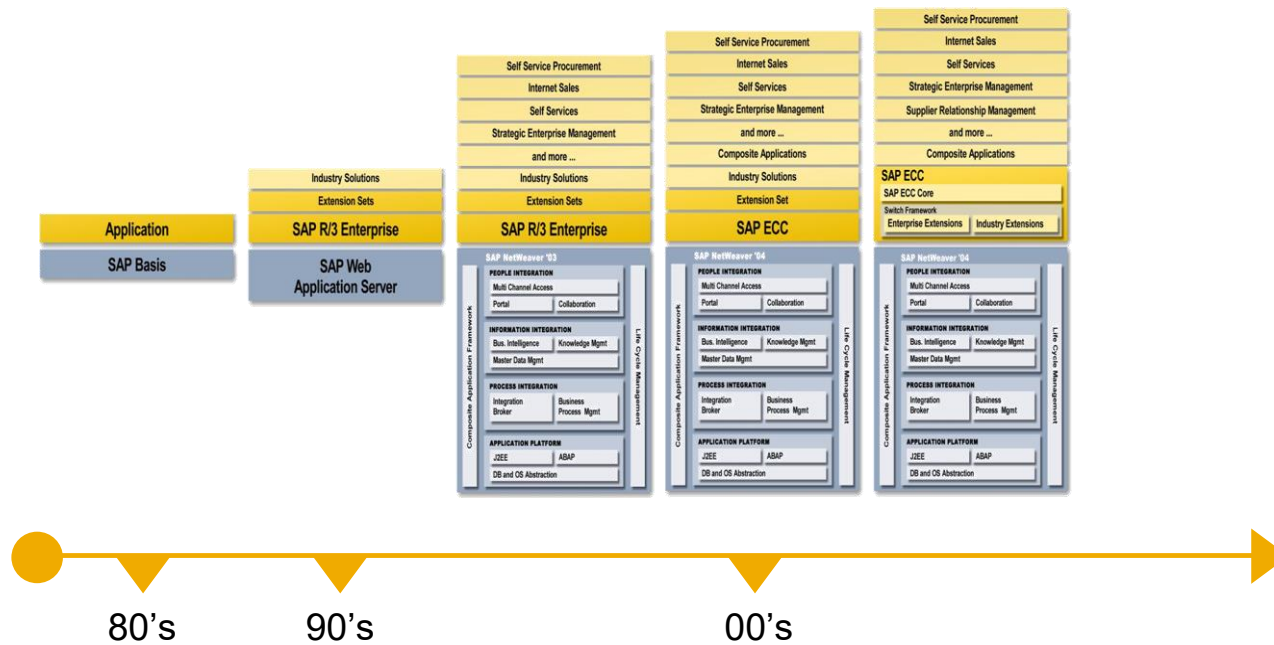

Across the total workforce

Transformation requires an agile solution.

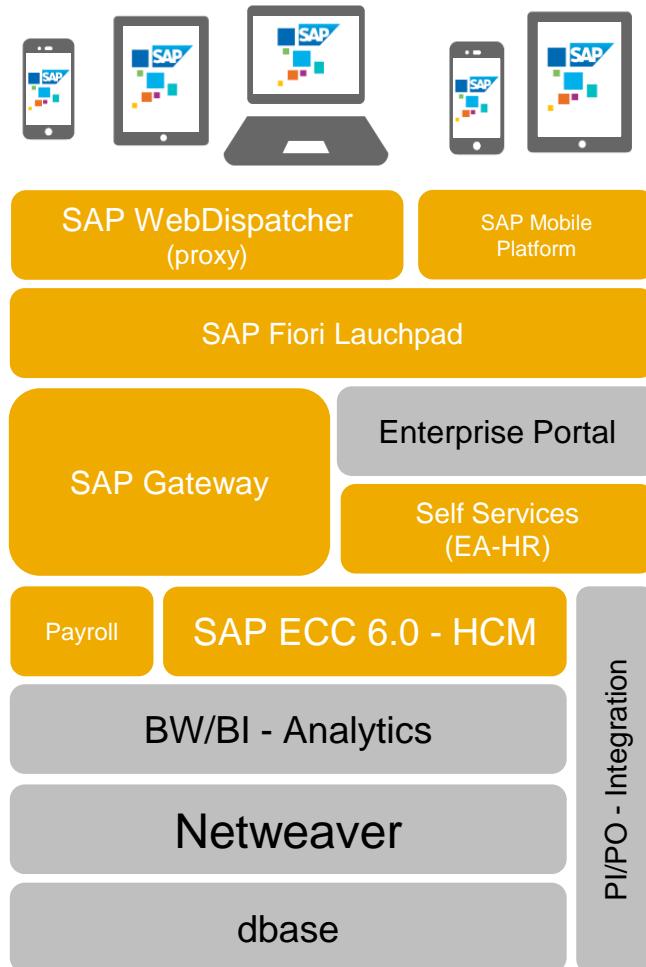

Evolution of SAP ERP architecture

The **technology layers needed** for SAP HCM On Premise*

SAP SuccessFactors is about **speed** and **future-proofing HR**

* Modeled example

“By 2020, a corporate ‘no-cloud’ policy will be as rare as a ‘no-internet’ policy is today.”

- Ongoing learning resources
- Admin Centers for enterprise grade admin
- Globalization services

Building The Case

SAP HRVA's and/or Value2Win

Trends

What do analysts say?

What/Why do I need to anticipate?

Benchmark & best practices

How others / leaders do?

Compared / to me?

Is there a best practice?

Vision and Strategy

What do I want/need to change?
Is it prevention of pain or pursuit of pleasure?

Roadmap

Where do I want/ need to go?
How will I get there?

Case for Change

What value do I (others) want to get out of it?
What do I risk if I do nothing?

Where do I start from?

What are my difficulties?

What is the context / parameters?

SAP's Benchmarking Program

Benchmarking is a free service that helps you establish a **baseline of your performance**

Baseline your improvement

Target what isn't working well

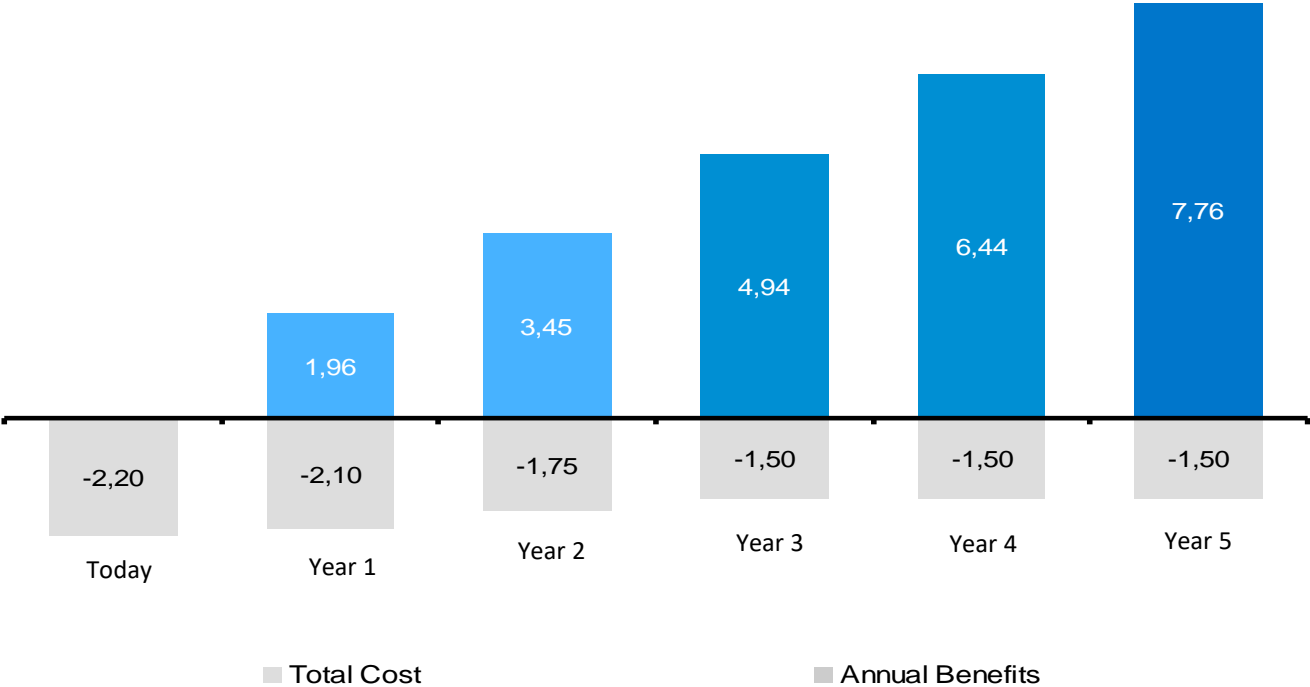

Put evidence behind decisions

*"SAP's benchmarking program is a powerful tool for all ASUG members who want to **better utilize the technology they've already purchased** and get insight for **future implementations**"*

Geoff Scott, CEO of the Americas' SAP Users' Group (ASUG), September 2014

Establish project economics

After Tax Cash Flows (\$ Millions)

Costs and Benefits quantified for a compelling story for HR Transformation

5-Years Project Economics

Net Present Value (NPV)	5.54 M

What differentiates SAP Successfactors integrations?

Where all the competition has data integration we deliver **End-to-End** integration.

This means:

1
**Data
Migration**

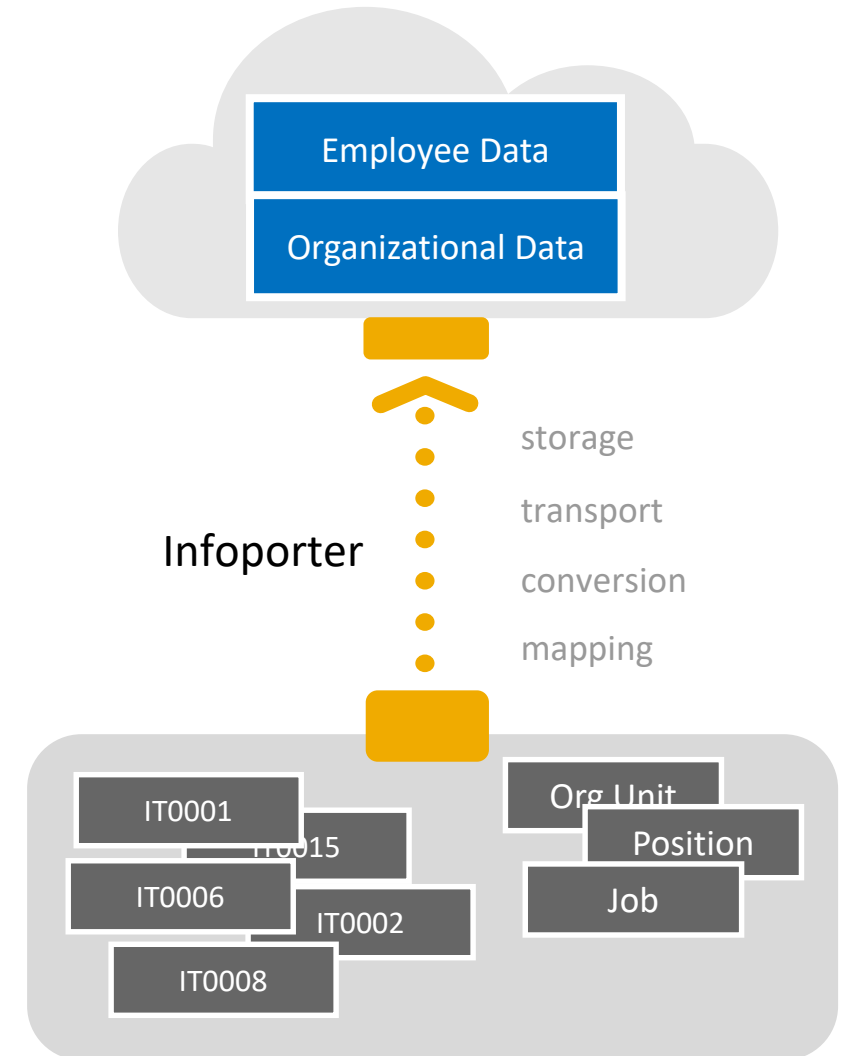

2
**Process
Integration**

3
**Monitoring
Tools**

SAP Infoporter Data Migration Tool

Why SAP is better with SAP

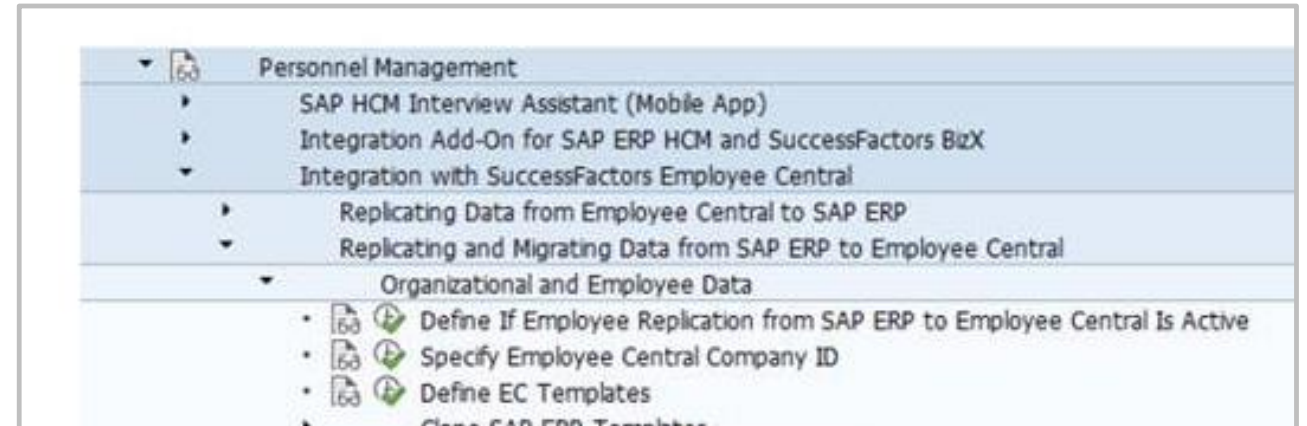

- Migration tool **developed and maintained by SAP**
- Tool designed to **migrate SAP HCM Info types** data to SuccessFactors EC. **Extensibility** features to support custom data and info types
- Supports historical **employee and organizational data** migration
- **Predefined standard mapping** content (SAP HCM to SF EC)
- Supports **Web Service-based or CSV** file-based migration

Data migration tool – SAP Infoporter

Why SAP is better with SAP

1. Install integration add-on on SAP ERP
2. Leverage data model mapping which we provide in the templates
3. Adjust to customer needs (customer specific infotype fields)
4. Export data
5. This ensures the EC data is 1:1 the data in SAP HCM

Copy / Show the predefined mapping

Change View "Primary Mapping": Overview

23	vacant	Infotype Mapping	1007		STATUS		<input type="checkbox"/>	VACANCY_STATUS_WS	

Process Integration

Why SAP is better with SAP

The screenshot displays the SAP SuccessFactors Org Chart interface. The top navigation bar includes the SAP SuccessFactors logo, a home icon, and a dropdown menu for 'Org Chart'. A search bar on the right allows searching for actions or people, with a user profile for Aanya Sing (sfadmin) and a notification bell icon showing 26 alerts. The main content area shows an organizational chart with a position detail overlay for 'Production Oversight Manager (500300218)'. The overlay includes a 'Show Incumbent History' button, a list of actions (Add Lower-Level Position, Add Peer Position, Copy Position, Create SAP Fieldglass Requisition), and a 'Position Details' section with the following information:

- Position Title: Production Oversight Manager
- Department: Production US (50150011)
- Location: Seattle (0300-0006)
- Cost Center: USA Production (3000-4200)

Below the details, it states: 'Position is understaffed (0 of 1 FTE).', 'Position does not allow multiple incumbents.', and 'Position has status To Be Hired'. It also shows a start date of Jan 1, 1990 and a duration of 27 years 4 months. The bottom of the overlay has tabs for 'Position History' and 'Job Requisition Details'. The background org chart shows a hierarchy starting with 'Production Director' and branching into various roles like 'Assembly Manager', 'Program Management', 'Capacity Planning Man...', and 'Production Oversight M...'. Each role card includes a name, photo, and FTE status.

SAP SuccessFactors

SAP SuccessFactors Extensibility

Compare to custom infotypes and ABAP programming

SAP SuccessFactors **Extension Center**

- Create new extensions without the need to code
- Manage and edit objects associated with extensions

SAP **Cloud Platform**

- Extend SAP SuccessFactors functionality with new apps built by you or partners
- Apps integrate natively with SAP SuccessFactors

SAP Activate implementation approach

Traditional

“Can I take your order?”

- Consultative approach
- Blueprinting workshops
- Highly customized solution
- Development, not configuration
- Time consuming and costly

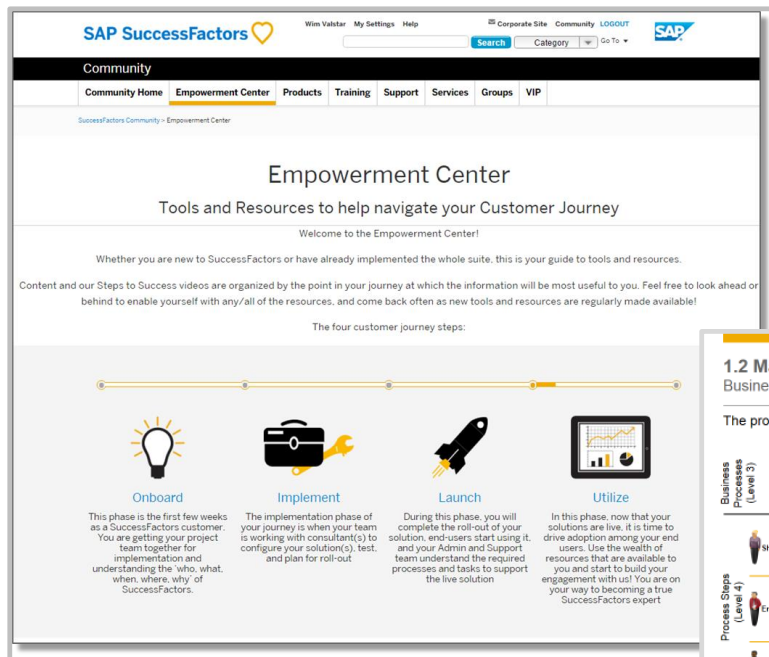

Transformative for Cloud

“Let us guide you”

- Lead with best practices
- Rapid, prescriptive, repeatable delivery steps
- Accelerated by tools, templates and predefined content
- Agile approach with 3 iterations
- Enabled for the cloud

Implementation toolkits and resources

- **Pre-delivered content**
- Configuration workbooks with best practices
- **Process Library**
- Prepackaged integrations and templates
- Training guides and job aids
- Product documentation & installation and user guides
- Project management tools
- Community of peers and resources
- Enterprise grade product features (e.g. Transport Center, Integration Center, etc)
- **HR Model Company**
- Data migration & Integration made easy by **EC Infoporter**

How the SAP Model Company for HR gets you where you want to go

Process-based Solutions

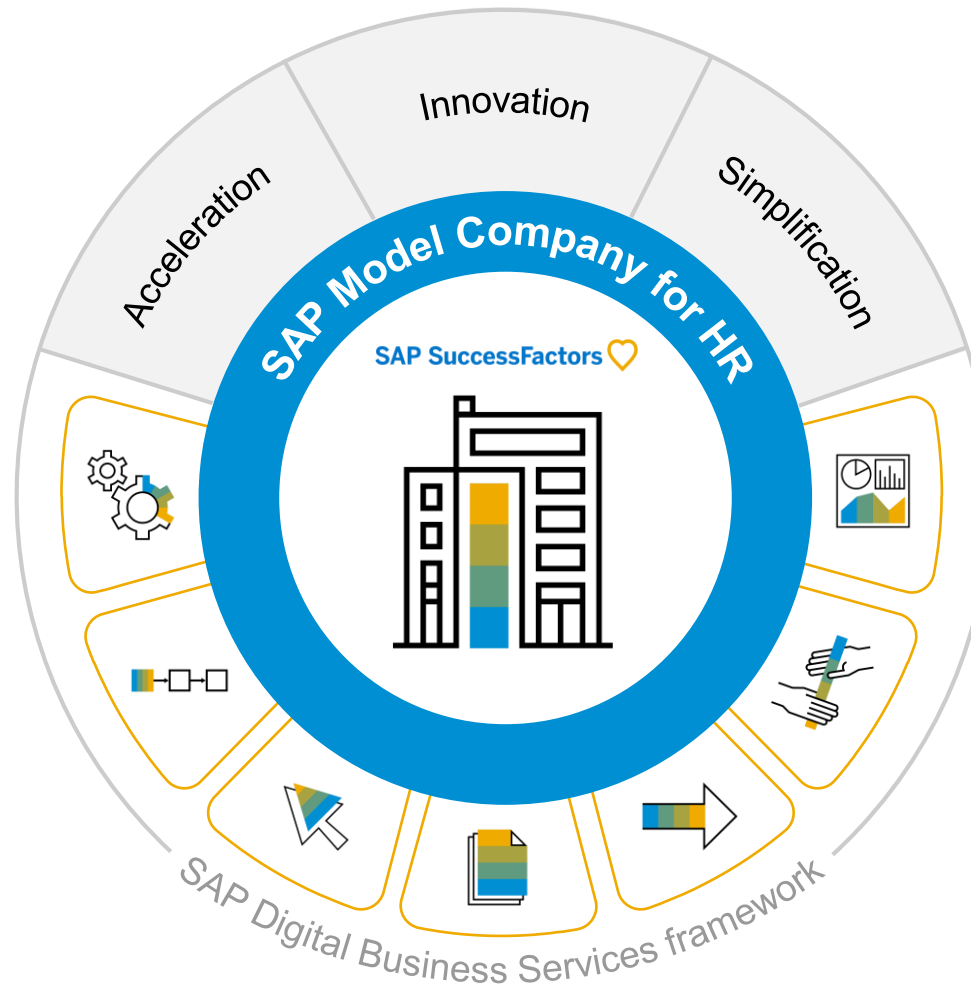

We have developed process-based solutions that span across the entire HR calendar. We walk you through real-life working processes so you understand what you get with the SAP Model Company for HR.

Leading Practices

SAP has taken its 40 years of experience working with thousands of customers to create leading practices that you can leverage in your organization, which enables you to accelerate your transformation and immediately deliver impact.

Localization

Local legal and regulatory requirements are covered in Employee Central and Recruiting Management so you don't have to worry about lack of compliance.

Sample Data

We provide sample data so you can see a working solution and not look at documents and spreadsheets only.

Smart Delivery

To improve efficiency, we are onsite for guiding key activities; to reduce cost, we can work remotely using our nearshore teams.

Accelerators

We provide HR process maps, templates, and tools to accelerate implementation.

Component Approach

Fit-to-Standard, Add-ons, and individual enhancements can be implemented, as required.

Our Customers tell us that successfully migrating to and adopting SuccessFactors must focus on some key topics

Provide accurate and timely information so business leaders can make strategic decisions

Drive measurable change, reporting on impact, not just activity

Deliver a modern user experience, and be handheld device friendly, for maximum adoption

Reduce HR cost per employee

Decrease transactional HR – enable automation to allow for focus on strategic work

Simplify processes to improve handling of business complexity

Help with Data Migration, Integration, Change Management and Cloud Adoption

So, that has been the Basis for the SAP Migration approach in Upgrade2Success SAP SuccessFactors

SAP provides the lowest risk option of **MIGRATING** within SAP and/or **EXPANDING** current SuccessFactors investment

Reduced Risk

- **Migration** versus Rip and Replace
- **Better adoption** as we show what On Premise becomes in SuccessFactors
- **Keep existing downstream integrations** vs. rebuilding
- **Organizational Change Management** guidance

Reduced Time

- **Data Migration with SAP Infoporter:**
 - Migrates standard and custom Infotypes
 - Replicates data back to on premise SAP Payroll
- **SAP HR Model Company** leading practice configuration, templates, and accelerators for fast time to value
- **SAP Integration and Data Migration** Factories

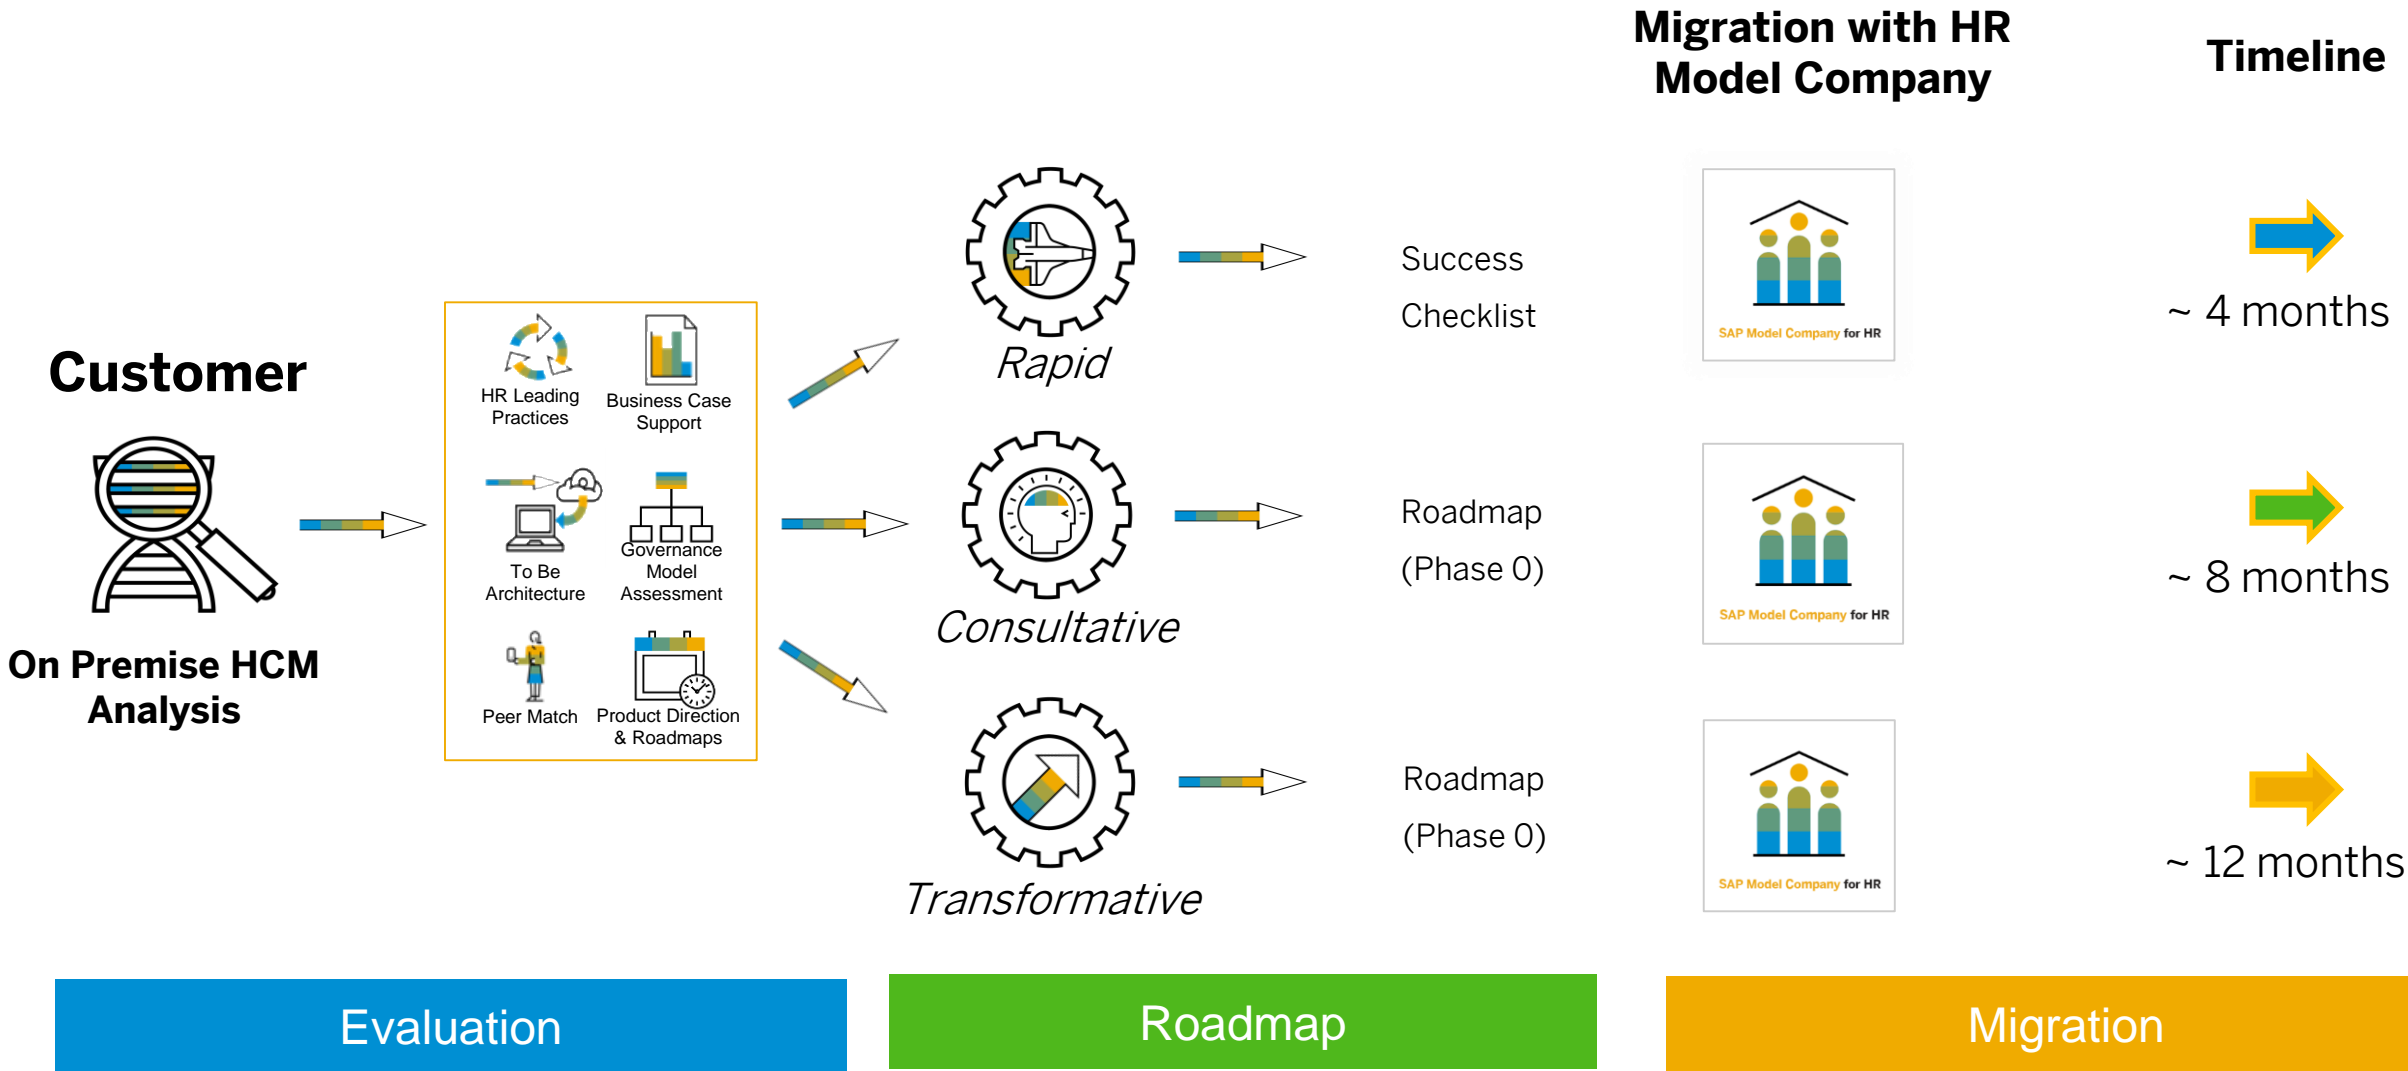

Reduced Cost

- Leverage **current skilled resources** on SAP vs. train new
- Included **SAP Integration Factory, Data Migration factory** and **HR Model Company** reduce time required to migrate
- **Lower integration cost and maintenance** based on productized SAP Integrations and tools

What is included in an Upgrade2Success Implementation?
