Q&A

SAP BTP Guidance Framework

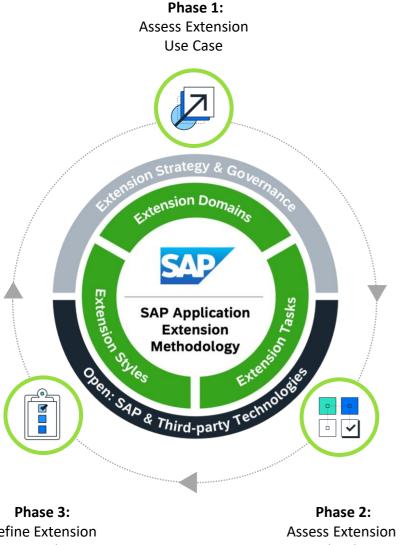

WHAT IS IT?

SAP BTP Guidance Framework is your compass for architecting, implementing, and operating enterprise-grade solutions on SAP BTP. It provides a central access point for decision guides, reference architectures, methodologies, and many best practices.

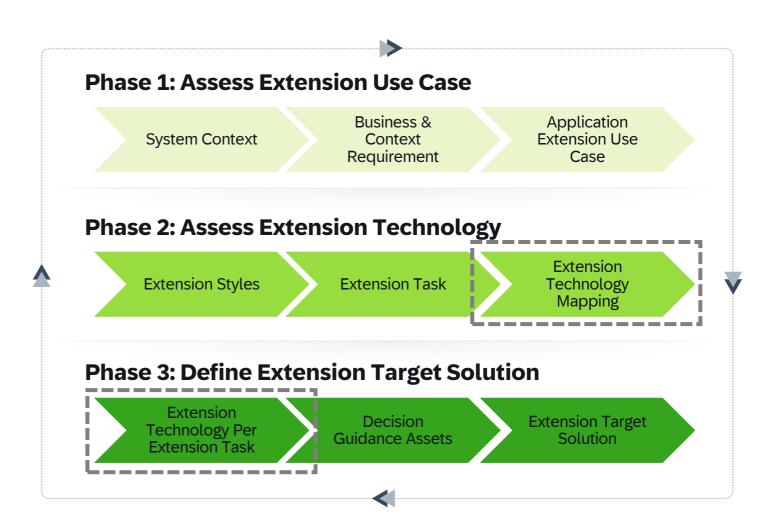

Business Technology Platform *⊘*

SAP Application Extension Methodology – Overview: Phase 1 - 3

Define Extension Target Solution

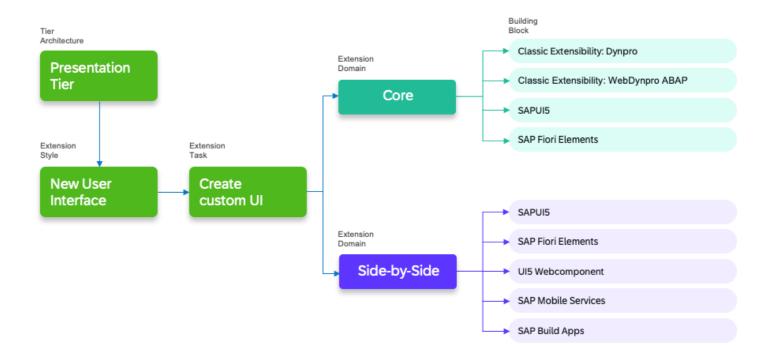

Technology

Phase 2: Step 3: Extension Technology Mapping

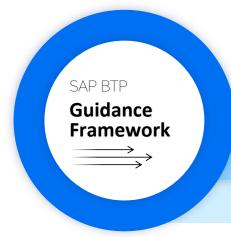

- The extension technology mapping outlines the relationship between extension task and technical extension building blocks.
- Extension tasks can be implemented by using one or more technical extension building blocks.
- A technical extension building blocks can be categorized into extension domains such as core solution extension domain and side-by-side extension domain.

Q & A

SAP LeanIX solutions modeling best practices for SAP BTP

Fact sheet types in SAP LeanIX

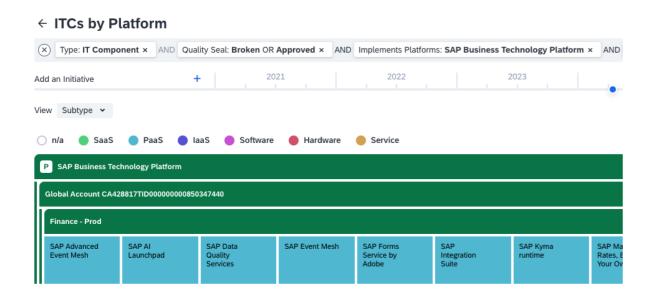

Most relevant factsheet types

- Platform = SAP BTP account structure
- IT component
 - with subtypes software as a service or platform as a service = SAP BTP services
 - with subtype infrastructure as a service = Location
- Application = Custom built applications deployed on SAP BTP (for example, SAP Fiori apps and SAP CAP based ones)
- Provider = SAP

Continue with other related fact sheet types as needed.

Modeling SAP BTP

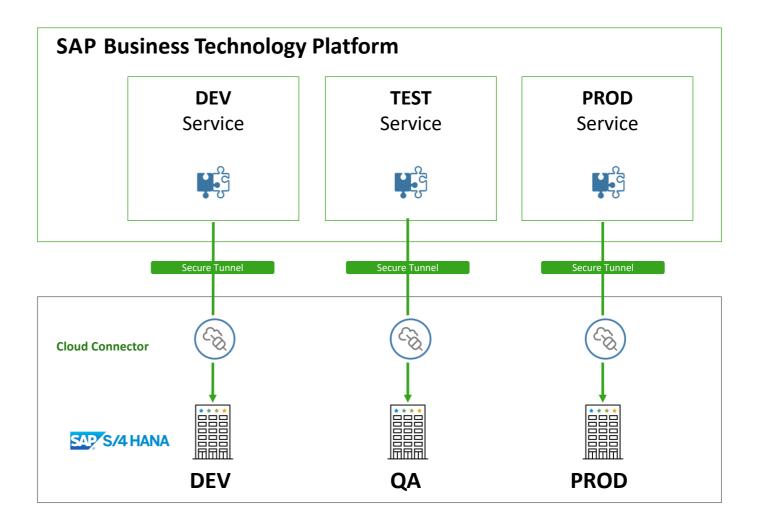

SAP LeanIX modeling best practices for SAP BTP

- Modeling SAP BTP account, sub-account structures and services
- Building up SAP BTP as strategic platform
- Planning of services introduction through initiatives and transformations

Best Practice: Extending SAP S/4HANA (Cloud or On-Premise)

- Mimic leading system landscape of staging
- If leading system e.g. SAP S/4HANA has 3-tier such as DEV, QA and PROD then use corresponding setup of subaccounts / spaces

SAP LeanIX radar report for adoption of SAP BTP

- Assesses services on SAP BTP based on the needs of your organization
- Provides insights into your organization's technology standards for SAP BTP usage
- Supports an agile development practice
- Documents a custom-defined radar report

Q & A

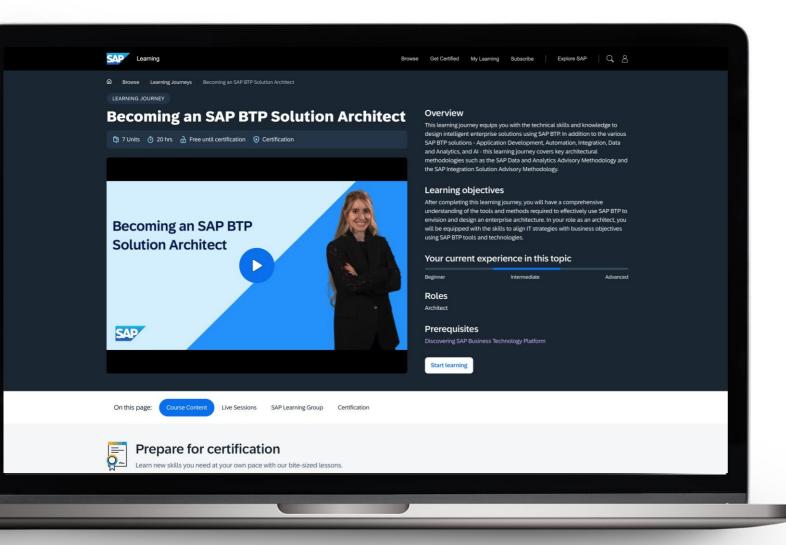

The SAP BTP Guidance Framework – Episode 1: Paving the way for architects to shine with SAP BTP

- Opportunity to modernize technology landscapes with the help of SAP BTP and SAP LeanIX:
 - SAP LeanIX serves as the central repository for your business applications with all the relevant context.
 - SAP BTP Guidance Framework provides a central access point for designing enterprise-grade solutions on SAP BTP.
- Use both together to plan, govern, and track the modernization of your technology landscape according to best practices from SAP.

Becoming an SAP BTP Solution Architect

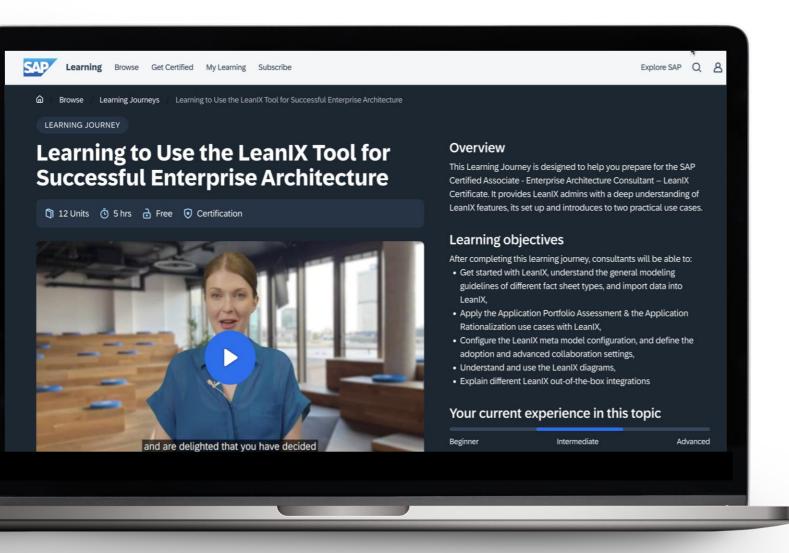

SAP BTP Solution Architect Learning Journey

- Equips you with the technical skills and knowledge to design enterprise-grade solutions using SAP BTP
- Covers key architectural methodologies of the SAP BTP Guidance Framework
- Certification <u>SAP Certified Professional</u> -<u>Solution Architect - SAP BTP</u>

Learning to use the LeanIX tool for successful Enterprise Architecture

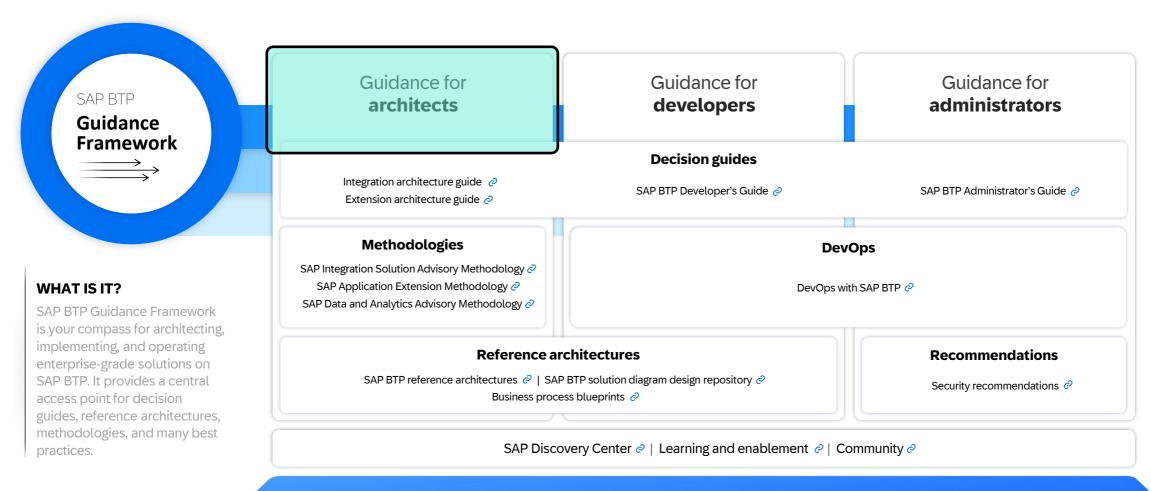

<u>Learning to use the LeanIX Tool for successful</u> <u>Enterprise Architecture Learning Journey</u>

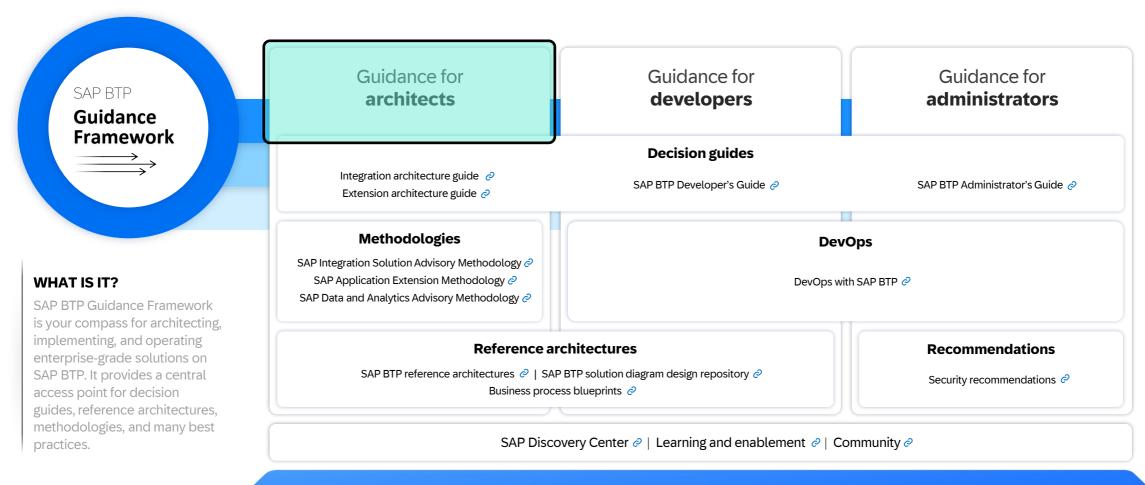

- Equips you with the modelling skills and knowledge to define reports, diagrams and common use cases within LeanIX
- Covers key features of LeanIX for Enterprise Architecture modelling
- Certification <u>SAP Certified Associate-</u> <u>Enterprise Architecture Consultant - SAP LeanIX</u>
