New Cloud Innovations Tour

Join us for this scheduled show floor tour to learn about the latest technologies and innovations for cloud customers.

When: Tuesday, May 7 at 2:30pm
**Host:** Dan Lahl - Vice President, SAP Product Marketing

Tour Stops

Starts in Platform & Technology Pavilion and ends in Customer Experience neighborhood

1

Applications for Digital Businesses
Session ID: PL839

Face the digital economy by building new applications quickly to meet the needs of your business. Prototype, test, create, and run innovative cloud applications to react quickly to market conditions and capture emerging opportunities, using SAP Cloud Platform.

2

SAP Leonardo IoT
Session ID: PL823

Prepare your business for the future with industrial Internet of Things (IoT) and Industry 4.0 methodologies. Embed IoT data into line-of-business solutions, enhance business applications, and develop high-value business models with the SAP Leonardo IoT portfolio.

3

SAP Data Warehouse Cloud
Session ID: PL836

Experience increased business agility by bringing together all data types, helping to ensure governance, and empowering users with prebuilt industry and line-of-business templates. Get your organization up and running quickly and accelerate time to value with the SAP Data Warehouse Cloud solution.

4

Innovation in Action with SAP App Center
Session ID: CU209

Discover, try, and buy innovative software through an online platform. Visit SAP App Center for easy access to applications that are built on or that extend SAP solutions across multiple lines of business. Explore game-changing software developed by SAP's ecosystem of partners to help customers transform and grow their business.

5

Digital Platform in the Cloud
Session ID: PL814

At this stop, attendees will learn how SAP's partner ecosystem and particularly that of our hyperscalers, play a valuable role in supporting our customers journey to the cloud.

Additional Stops

SAP Digital Boardroom
Session ID: PL817

Break New Ground and Win in the Experience Economy
Session ID: DI300
