cherrywork® - Digital Applications and Extensions Suite on SAP BTP

20%
Hyper-automation of edge processes and last mile automation with digital applications suite

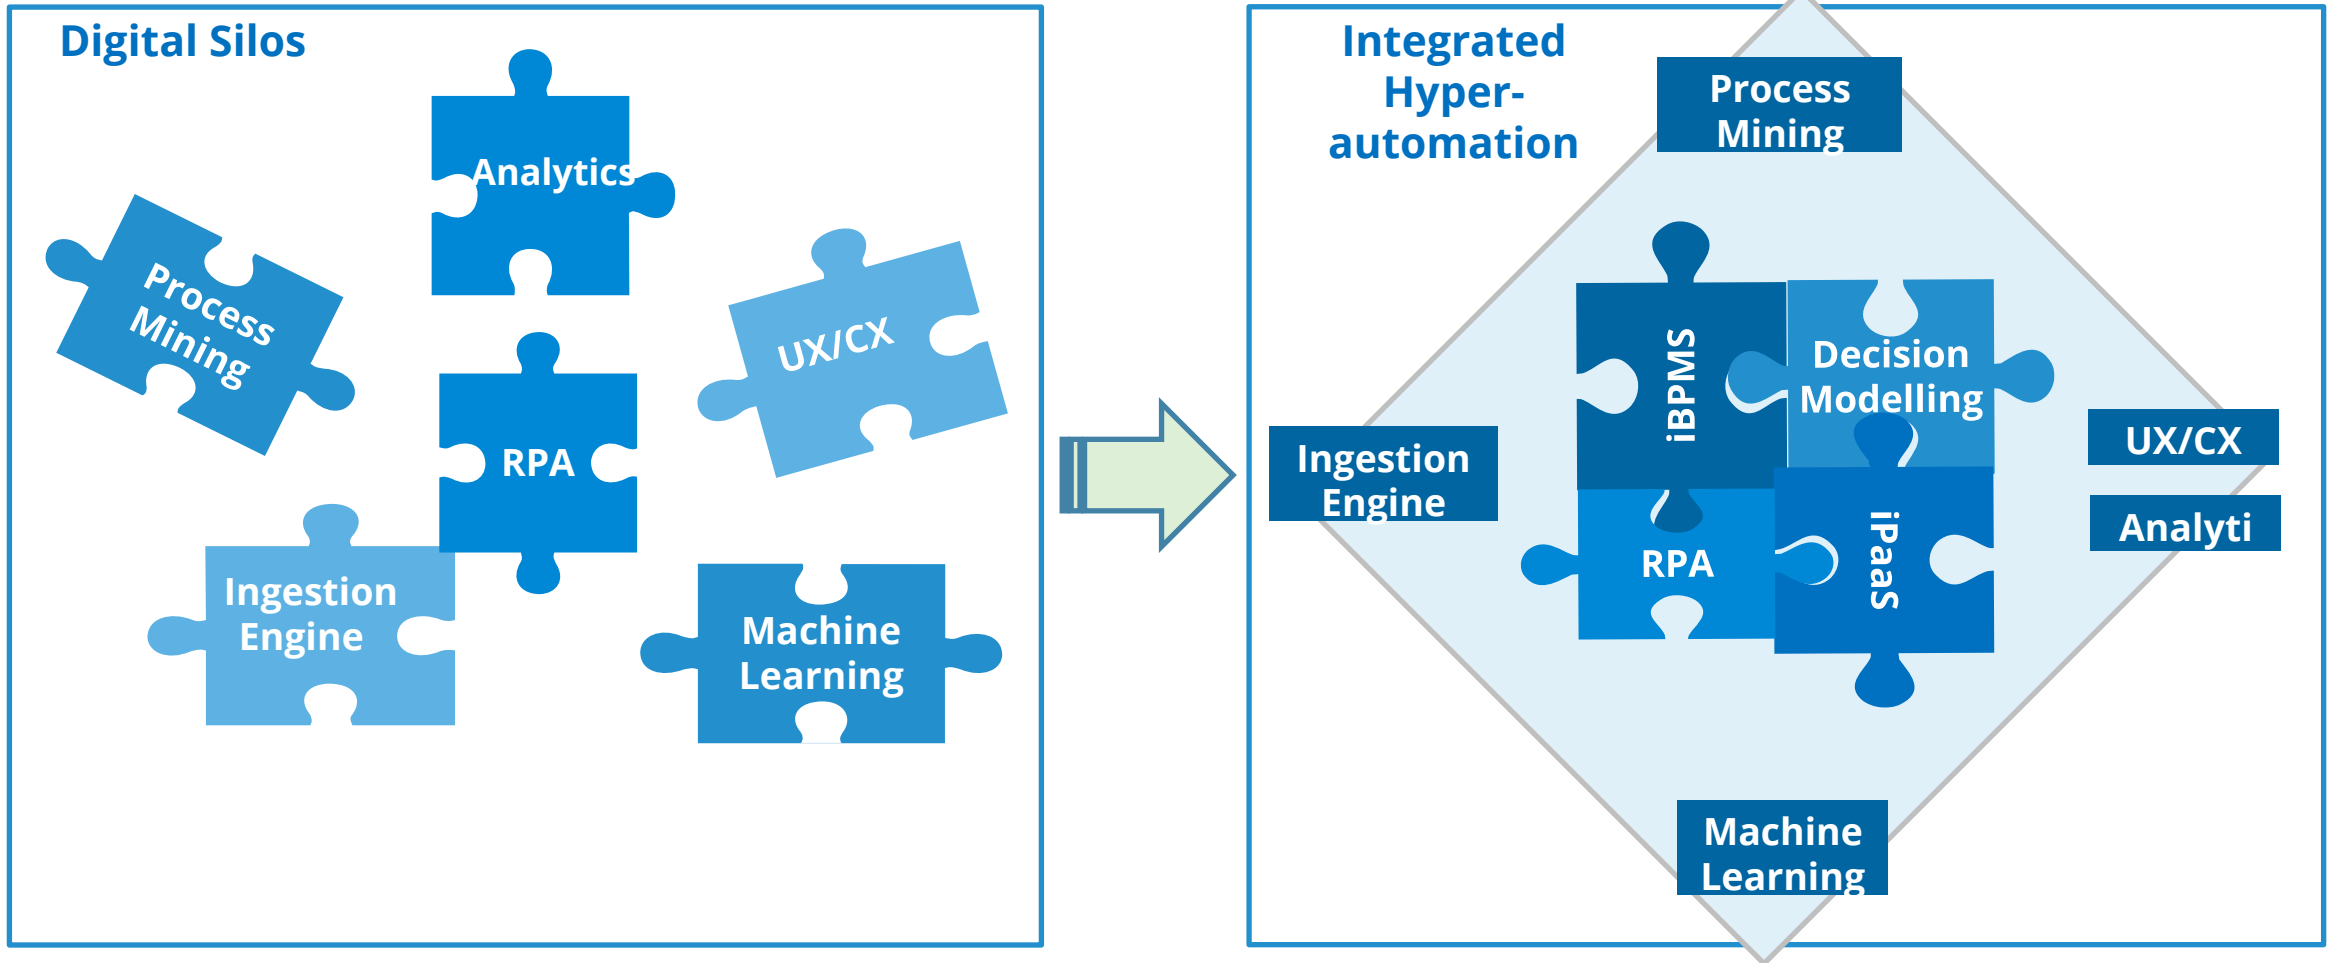

80%
Enterprise Core Processes
SAP ECC | S4 | SAP Cloud

Value Proposition

- Packaged Apps & Process Templates
- Rapid Time to Value
- Built for Change Model driven agility
- Built-in SAP Integration
- Ux and Mobility Built for Purpose
- Insights and Intelligence
- Flexible Pricing & Deployment Options
- Standard Platform Keep SAP Clean
- Lower TCO with "Apps as a Service"

Integrated Hyper-automation

Forrester refers to it as “**Digital Process Automation (DPA)**” while IDC and others use “**Intelligent Process Automation (IPA)**”

Hyper-automation is an unavoidable market state

- By 2022, **65%** of organizations that deployed Robotic Process Automation (RPA) **will introduce** artificial intelligence (AI), including machine learning (ML) and natural language processing (NLP) algorithms*
- By 2024, organizations will **lower operational costs** by **30%** by combining **hyper-automation technologies** with redesigned operational processes*
- By 2024, more than **70%** of the large global enterprises will have **over 70** concurrent **hyper-automation initiatives** mandating governance or facing significant instability*
