Big picture in the SAP landscape: SAP Workflow Management

Do more with less

Empower employees through process automation, freeing up their time to do more meaningful work

Ensure compliance

Comply with policies and regulations via clear responsibilities and audit trails

Flexibly adapt to new requirements

Tailor business processes to business needs, support new business model innovations, and fix broken processes for business resilience

Mission – Modelling a Capital Expense Approval Workflow

SAP Workflow Management

Demo : Capital Expenditure Approval Process

- Capital investments are part of every enterprise as part of their business strategy. Capital investments could be acquisitions, purchase of new assets including software and services.
- *Capital Expenditures (CAPEX)* involve reviews and decisions across different levels of an organization depending on the type and nature of the investment. Companies are looking for managing investment decisions in a transparent way by automating all the steps of this process.

Live Process Content Packages

Accelerate the business transformation of your enterprise

Live process content packages are part of SAP Workflow Management

- Live Process Content packages
- enable real-time change management
- include workflow, business rules, process visibility templates and content packages
 - intelligent approvals, processes & procedures
 - pre-defined business rules and policies
 - business scenario descriptions and visibility content
- are enriched with operational configurations for process variants, responsibilities, simulations and extensions

[Available on SAP API Business Hub](#)

Blog: [Live Process Content Packages – your accelerators for Digital Process Automation](#)

The image displays two screenshots from the SAP API Business Hub. The top screenshot shows the 'Workflow Management' section, which lists various process content packages such as 'Manage Invoices without Purchase Order', 'SAP S/4HANA and SAP S/4HANA Cloud Event Consumption in SAP Process Visibility service', 'Visibility on Accounts Receivable', 'Maintain Purchase Info Record', 'Purchase Requisition Header Approval and Release', 'Visibility on Procure to Pay', 'Purchase Requisition Approval and Release', 'Visibility on Accounts Payable', 'Product Change Management', and 'Sample Capital Expenditure Approval Process'. The bottom screenshot provides a detailed view of the 'Sustainable Investment Approval for High Value Investment' process variant. It features a flowchart with steps: 'Prepare Approval Steps', 'Approval from Local Manager', 'Approval from Sustainability Director', 'Approval from Vice President', 'Approval from CFO', and 'Complete CapEx Process in SAP'. The interface also includes a list of 'Available Steps' on the left and 'Process Variant Properties' on the right, such as Name, Process, and Description.

Some selected use cases

Available as live process content packages on SAP API Business Hub

[Manage Sales Orders](#)

Automate and manage the approvals of sales orders in SAP S/4HANA with validations and approvals

[Manage Credit Block on Sales Order](#)

Review the sales orders which are credit blocked and decide about release or reject
