- ✓ Simplified access to apps and services (desktop and mobile)
- ✓ Personalized home page with relevant, role-based content

Boost productivity

- ✓ Fast access to information and efficient navigation via central, unified experience
- ✓ Proactive notifications
- ✓ Focus on important KPIs and live business data

Improve operations efficiency

- ✓ Streamline UX integration for common SAP solutions
- ✓ Out of the box integration with central services
- ✓ Seamless app integration for common UI technologies

Building Modern Web Applications with SAPUI5

SAPUI5 is an HTML5 framework for creating cross-platform, enterprise-grade applications

As the reference UI technology for the SAP Fiori user experience, SAPUI5 provides:

- A consistent SAP Fiori user experience across SAP solutions (and beyond)
- Efficient development for Web applications
- Easy integration into SAP's single point of entry
- Enterprise qualities like accessibility
- Generic adaptation capabilities that provide UI flexibility
