

YOUR INDEPENDENT SAP COMMUNITY

Conor Riordan - Vice Chair, UKISUG

At UKISUG we champion the SAP Community

- 500 member organisations
- 150 affiliate partners
- 3,500 users
- 30 Specialist Interest Groups
- All Industry Sectors
- Over a £trillion members revenue

By opening up conversations between UKISUG members, SAP and partner organisations, we work tirelessly to ensure everything we do is driving success for you on your SAP journey.

S/4 Journey – Member Feedback

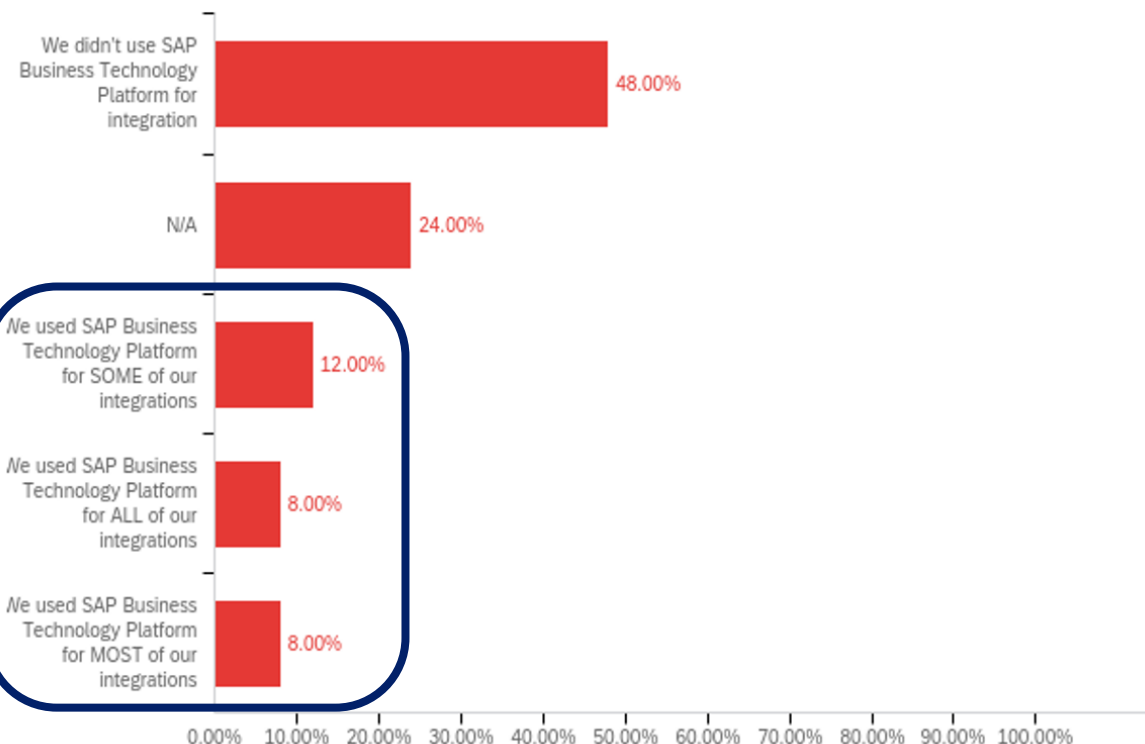

For many organisations it is a case of when rather than if they move to SAP S/4HANA.

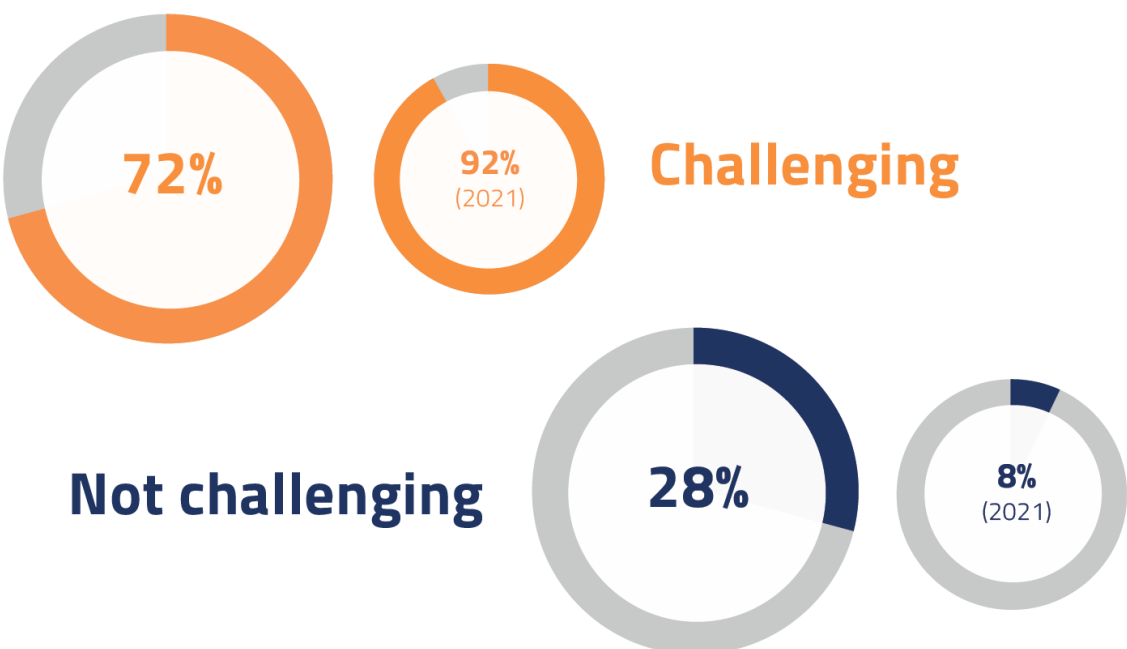

To learn more about these challenges we surveyed 114 key decision makers at SAP user organisations in Q4 2022.

Technology - Feedback

Q9b - To what extent did you use SAP Business Technology Platform to help with integration?

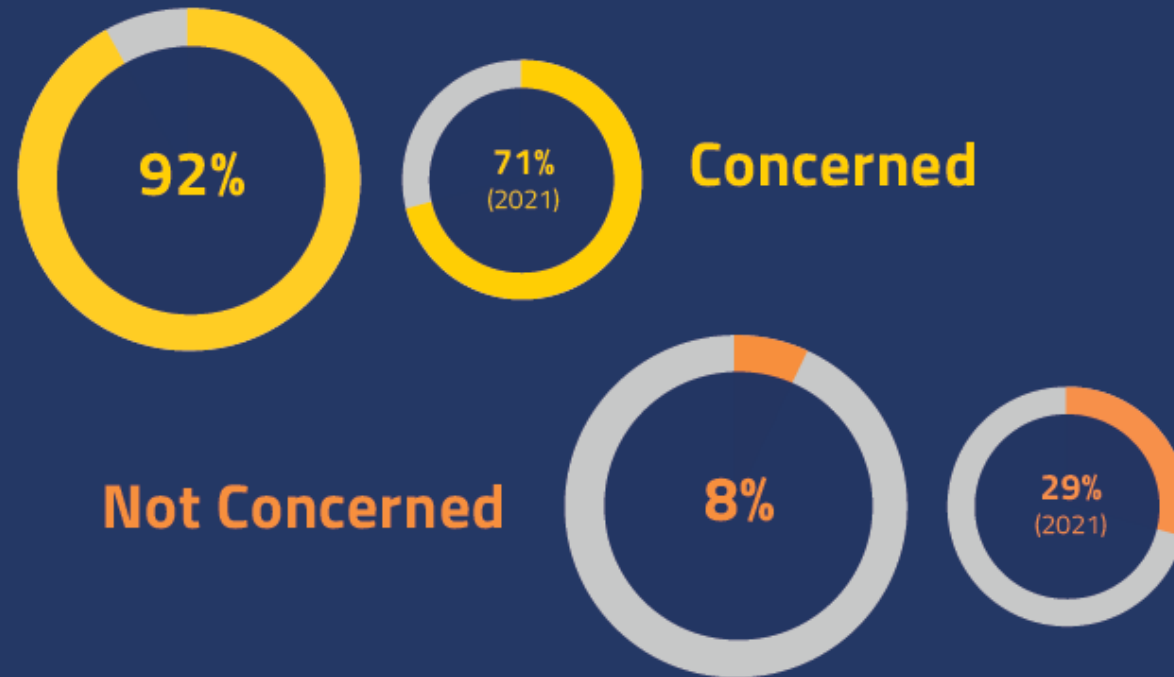

To what extent did existing customisations present a challenge when moving to SAP S/4HANA?

Change Management

To what extent are you concerned a lack of available skills will impact the speed your organisation moves to SAP S/4HANA?

Some 92% of respondents are concerned about how a lack of available skills will impact the speed they move to SAP S/4HANA, up from 71% in 2021.

Do you think SAP provides customers with enough technical training and resources to help them manage SAP S/4HANA?

Just a quarter (24%) of respondents believe SAP provides its customers with enough technical training and resources to help manage SAP S/4HANA, with 36% claiming it doesn't.

Whitepapers & Best Practice Guides

One vibrant SAP Community

The screenshot displays the UKISUG website interface. At the top, there is a navigation bar with the UKISUG logo and a search bar containing the text 'btp'. Below the navigation bar, a horizontal menu lists various content types: Events (19), Resources (13), Posts (29), Pages (0), SIGS (0), and Partners (4). The main content area features a grid of 12 event cards, each with a date, title, time, and a right arrow icon. The events are as follows:

Date	Event Title	Time	Status
