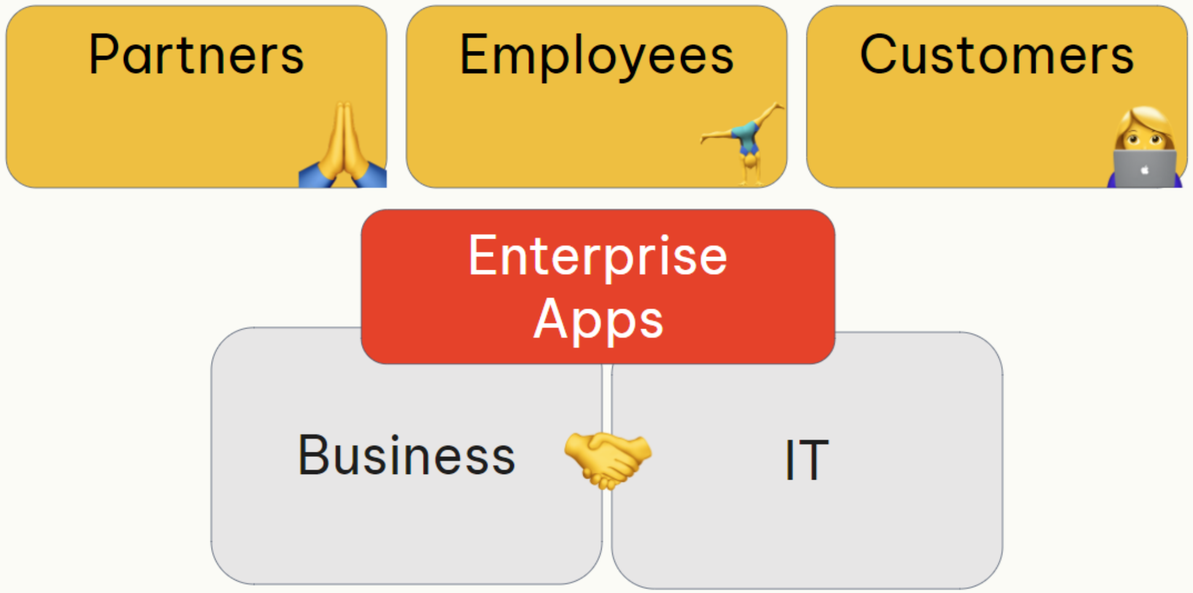
(SAP, AZURE)

BUSINESS ARCHITECTURE

Business and IT are organised for providing products and services for Enterprise customers.

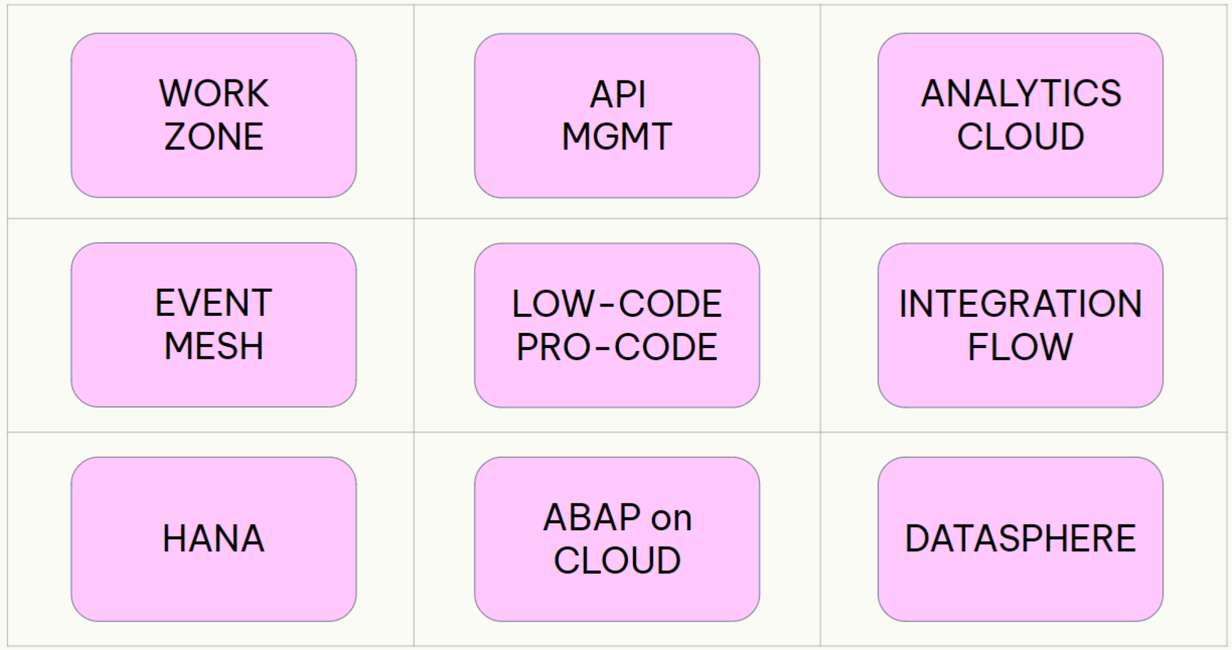
Product Owners are in **key role**

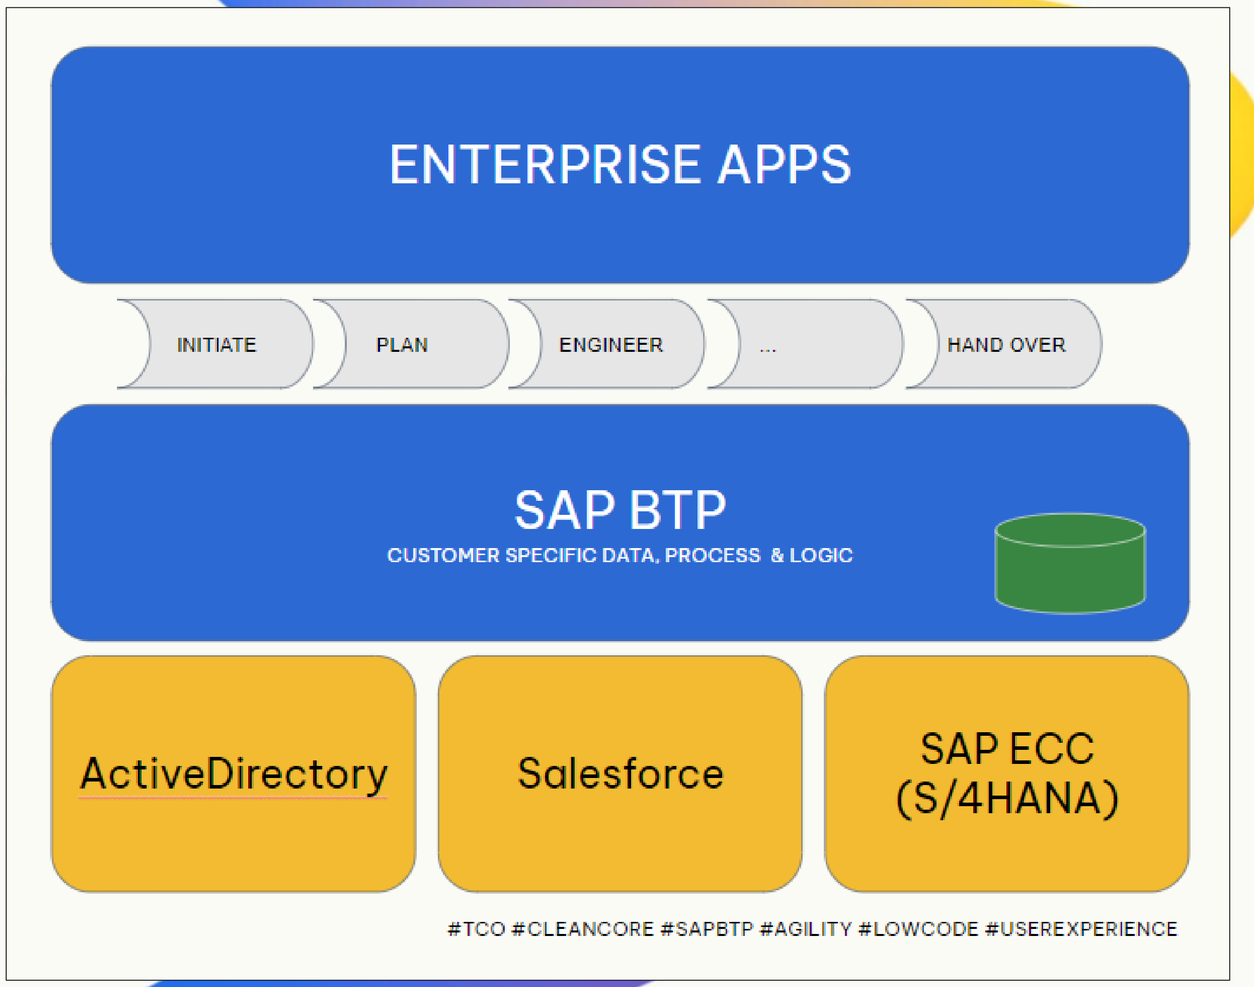


TECHNOLOGY PLATFORM

SAP BTP builds, runs and integrates apps connecting various enterprise business systems.

In addition to modern development capabilities BTP provides you with the relevant business content.





GLOBAL PROJECT GOVERNANCE WITH THE HELP OF SAP BTP

- **BTP based solutions help Kone to keep a clean core in the upcoming SAP S/4 HANA environment**
- **Integrations to SAP and SalesForce allows users to log in from their preferred system, using preferred devices**
- **Project reviews database enables business indicators for reporting**
- **Project reviews can be executed on timely manner in a systematic way with an user friendly Fiori user interface**
