 - Service recording

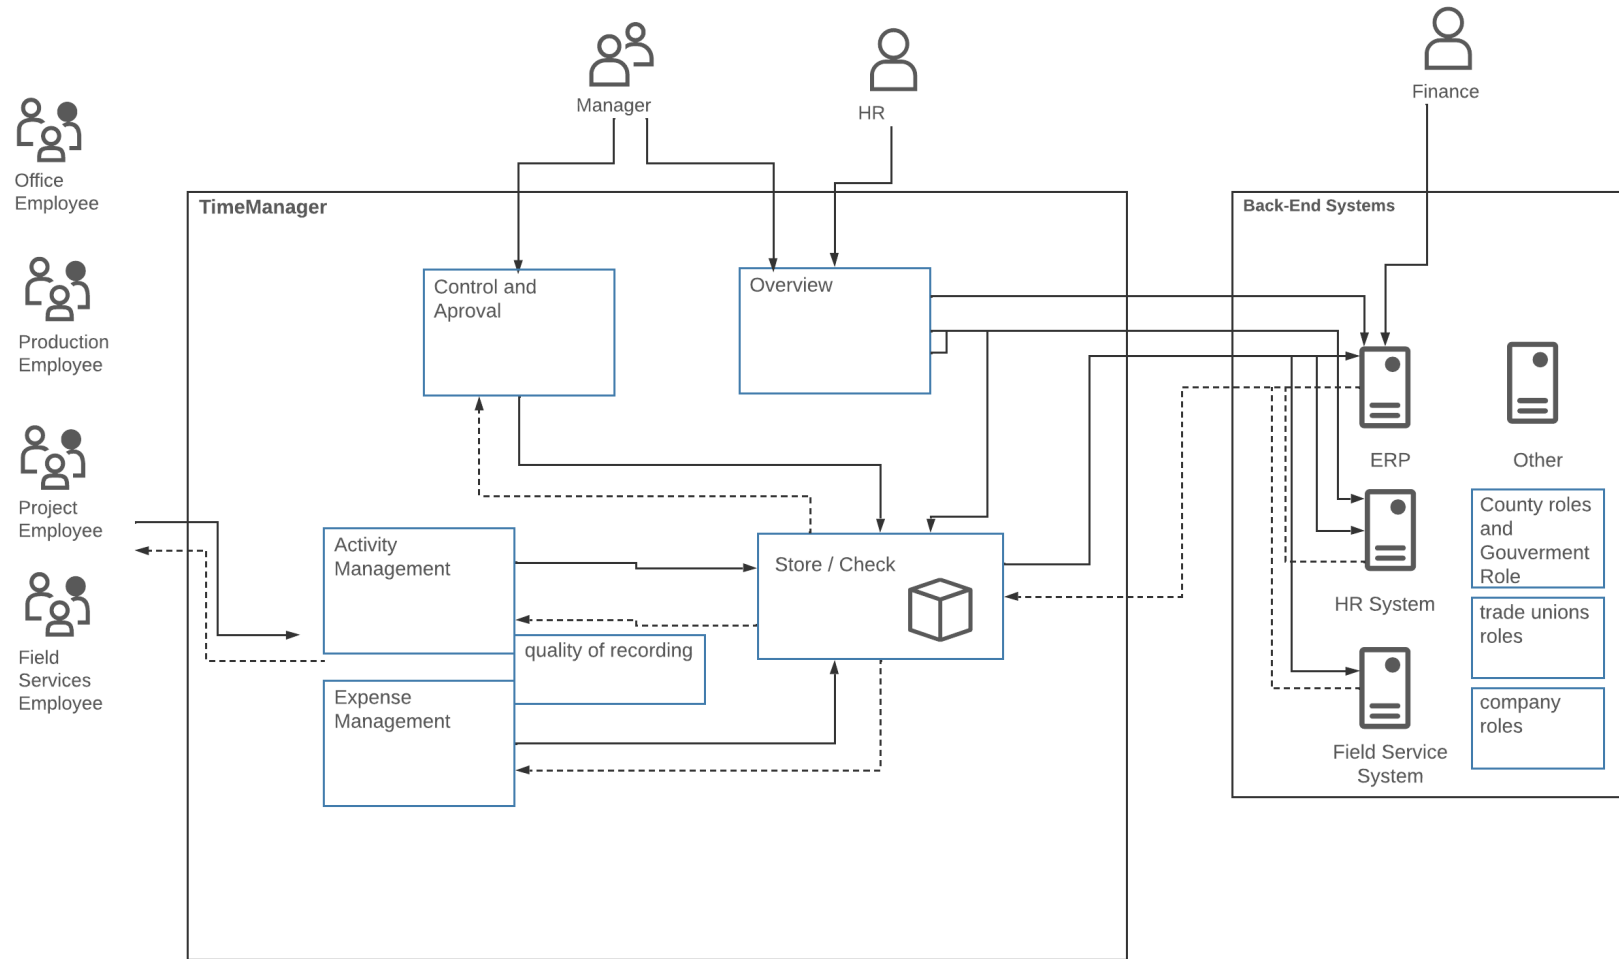

The Challenge – Activity and Expense recording

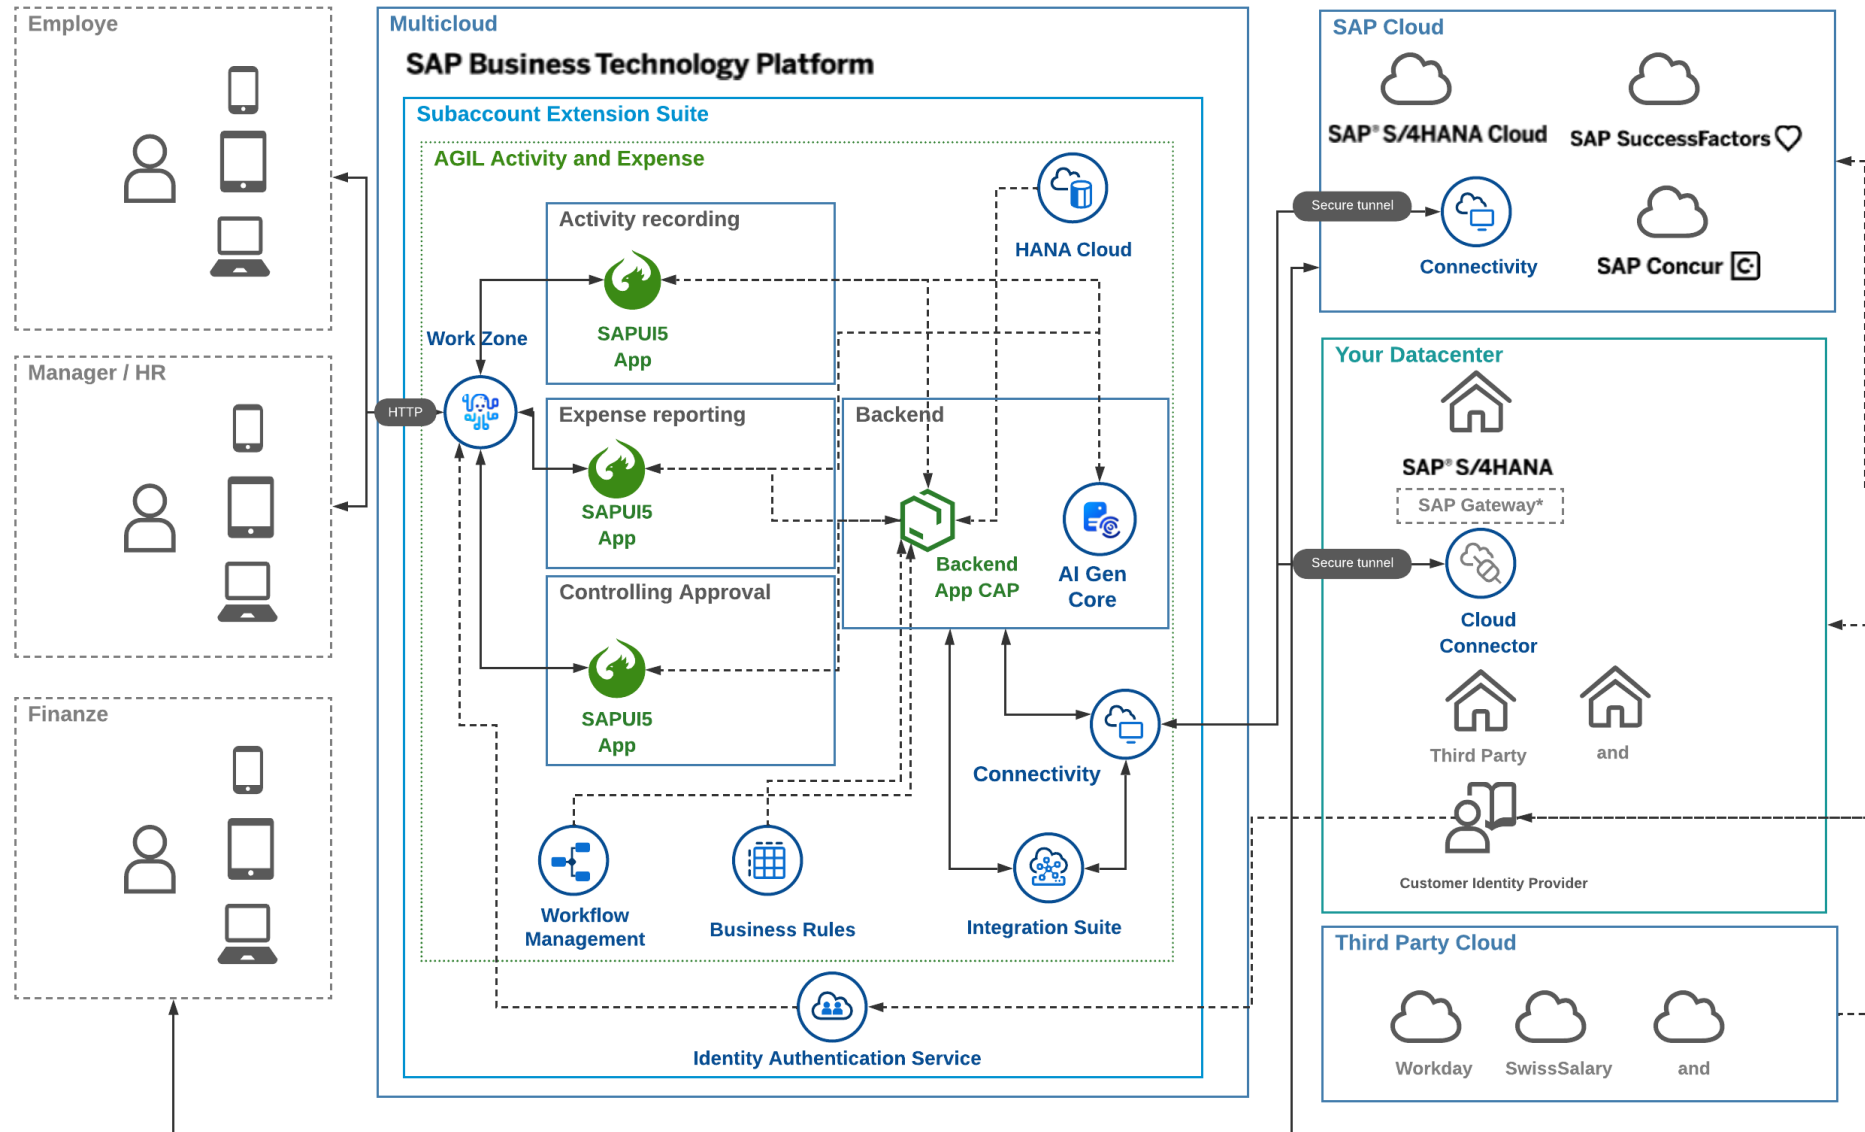

Ideas and must haves

- One Interface / one Entry Point
- Simple User Interface
- Possible time recording or stamp time recording (clock-in)
- Management approval with role check
- Support description text, notes
- Support Expense Text and Expense Role
- Mobile Native and Hybrid
- Hybrid InApp for existing Solution
- Roles stay in the Backend System
- Different Backend Systems and HR Systems possible

Solution SAP BTP

Solution SAP BTP – Work Zone

Embedded Tiles in different area

The screenshot displays the SAP BTP Work Zone interface. At the top, there is a navigation bar with a 'What's up' dropdown, a search bar, and user profile icons. Below this is a secondary navigation bar with links for Home, Kunde (selected), Sales Team, Applications, My Workspace, Workspaces, and Tools. The main content area features a large header image with a chalkboard background containing business-related sketches like 'concept', 'success', 'PLAN', and '60%'. A 'Projekt' tile is overlaid on this header, showing 'EKT PRO', 'Projekt', 'Public', and '1 Member'. Below the header, there are three tabs: 'What's up' (selected), 'Meetings & Decisions', and 'Risks & Issues'. The main workspace contains several embedded tiles: 'Team Milestones & Events' with a calendar icon and 'No active events' message; 'Current Tasks' with a list of tasks including 'Complete time recordings by end of month', 'Submit travel requests', and 'Provide status of work items'; 'Latest News' with a video player showing 'Video unavailable'; 'Time recording' with a clock icon; 'Manage My Timesheet'; and 'Concur Travel Expense' with an airplane icon.

Expense recording
