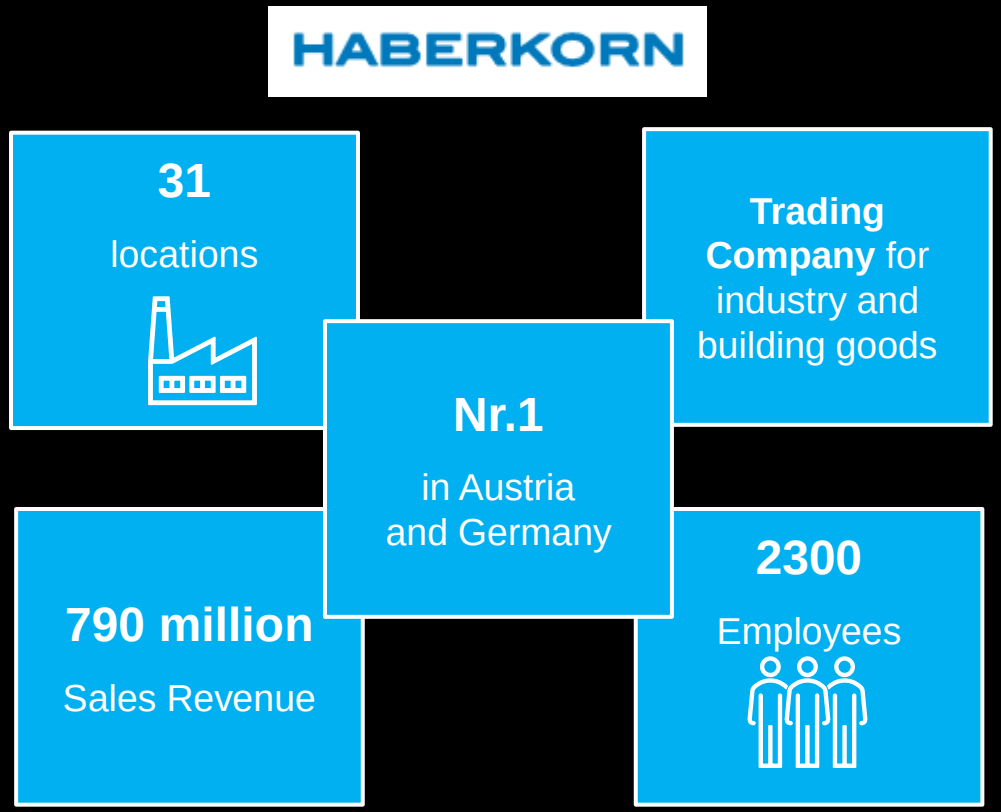
# Customer Story:
# A Template / Rollout approach

# SAP S/4 HANA Implementation @ HABERKORN Group

- S/4 HANA private cloud edition, greenfield
- project start January 2022
- 140 project members (internal / external)
- 4 different Germany located subsidiaries / **rollouts**
- scheduled project end July 2025
- finale rollout merge to an HABERKORN **template**
- HK template for upcoming rollouts



© 2023 SAP SE or an SAP affiliate company. All rights reserved. I PUBLIC

# Template / Rollout – strategy
In General

## Template

- template as baseline for solution rollouts
- separate system landscape per region (not valid at HK)
- defined scope of solution processes + documentation
- bundle of configuration (~ requirements) related to solution processes
- ownership (LOB)
- CAB (requirements approval)

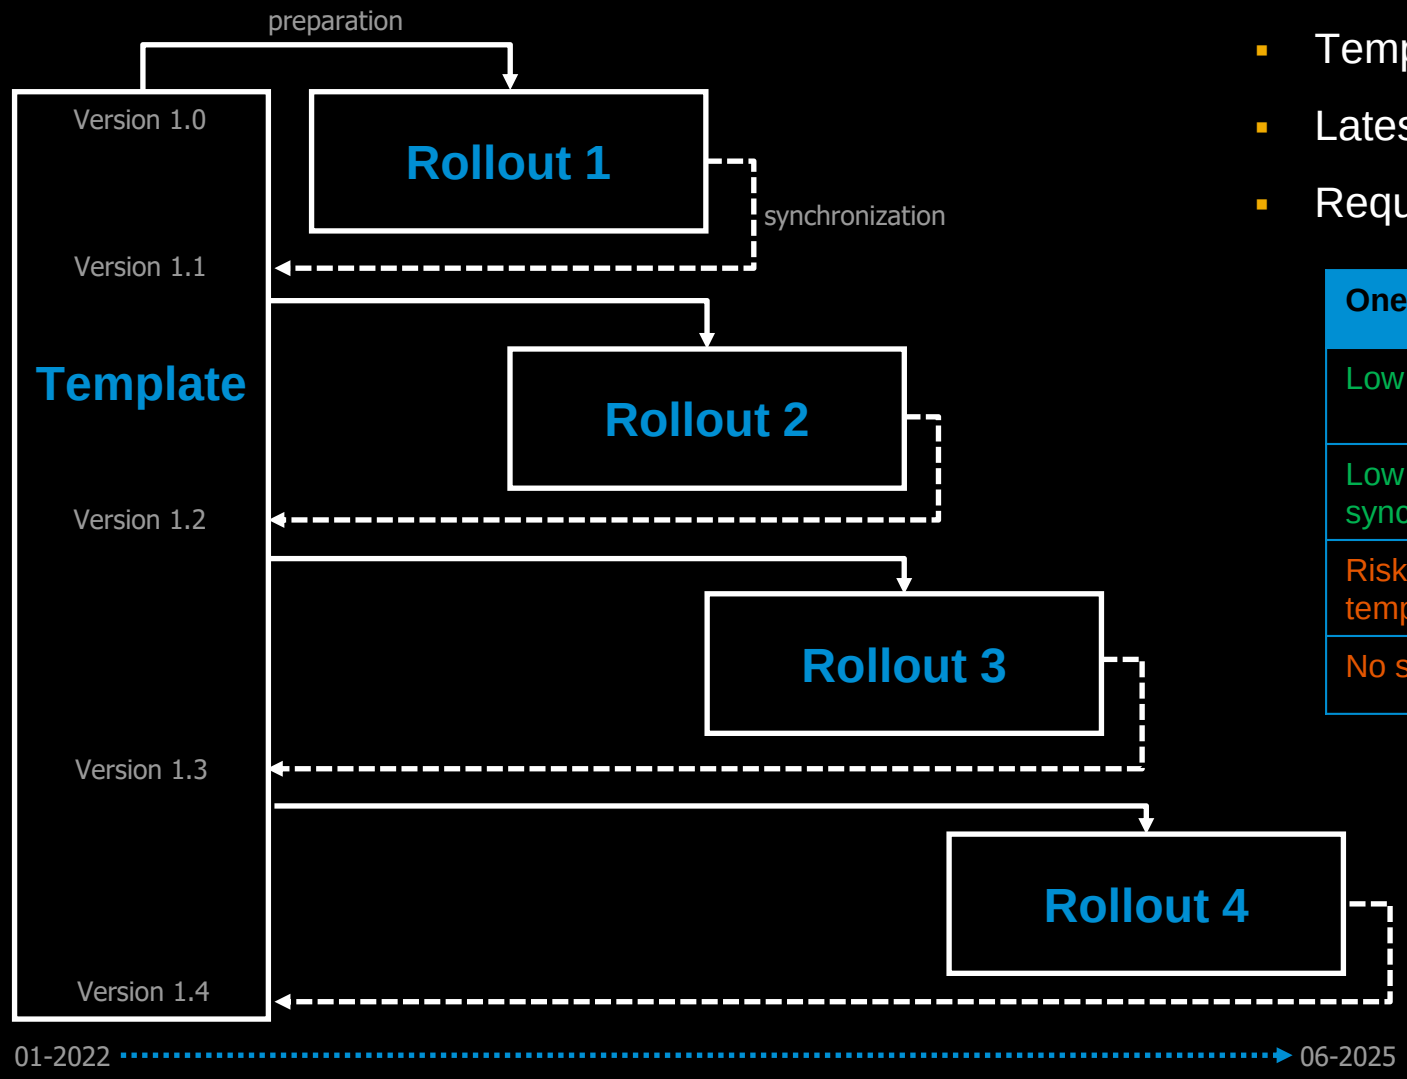
## Rollout

- consumer of template
- localization
- template solution process and requirements not changeable
- initial shipment one-time

© 2023 SAP SE or an SAP affiliate company. All rights reserved. I PUBLIC

# Template / Rollout – concept

## Customer needs



- Template processes / configuration valid for all rollouts
- Template adjustments during rollout (CAB approval)
- Latest template version for next rollout preparation
- Requirement defines configuration (no user story)

| One Project | Multiple Projects |
|---|---|
| Low effort to manage content | High effort to manage content |
| Low effort template synchronization | High effort template synchronization |
| Risk of unauthorized template changes | Authorized template changes only |
| No separate versioning | Versioning by project |

# Template / Rollout – Rollout preparation
HABERKORN

SAP Cloud ALM

## Prepare and Build Rollout v1.1

(7) Filter all Template Processes by Realization (later include Production and Maintenance)

A. No localization required
   - Document as “Not Planned”

B. In case of required localization without process adjustment
   - Create Requirement by certain name extension
   - Example: ***SAL-REQ*** *Customer Returns with Direct Shipment from Customer to Supplier (1Z3)*

C. In case of required localization with process adjustment
   - Create Requirement by certain name extension (priority and status In Approval)
   - Example: ***SAL-REQ*** *Customer Returns with Direct Shipment from Customer to Supplier (1Z3)*
   - Create copy of Process by certain name extension and assign in template process**.**
   - Example: ***SAL*** *Customer Returns with Direct Shipment from Customer to Supplier (1Z3)*
