

THE TOP THREE CHALLENGES FACED BY SAP HCM ON-PREMISE OR HYBRID CLIENTS

ALL CLIENTS MAKING THE SAP SUCCESSFACTORS JOURNEY FACE THE SAME CHALLENGES

“Clients are on the move. They have started, are in the midst of or have successfully completed their journey to SuccessFactors. I have had the pleasure of watching the migration and seeing the numbers grow as people commit to the new Human Experience Management evolution.

I’m always interested when SAP SuccessFactors publish their figures. Latest numbers (as of March 2021) include 4,300 SuccessFactors Employee Central customers and 680 SuccessFactors Employee Central Payroll customers.

As clients make their journey, they all seem to report the same handful of challenges, often having to do with the data migration, reconciliation of data or movement of data. I have listed the three most common challenges and more importantly how to easily solve them to ensure that your journey is successful, and to provide you with the tools necessary to continue to support it. I’ve also included feedback from our clients who have been successful.”
