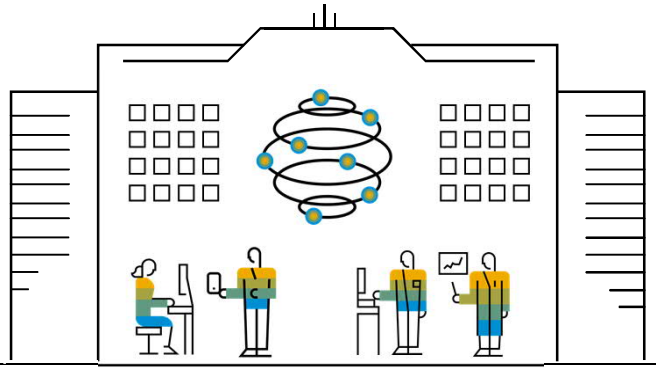
SAP S/4HANA Movement Program

Your Vision-to-Value Journey

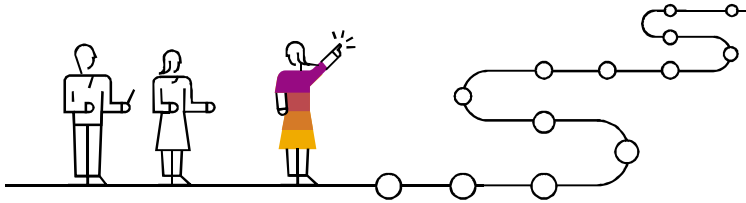
Intelligent Enterprise



S/4HANA MOVEMENT Program

answers customers most essential questions:

- What are the benefits to “MOVE” now?
- How does SAP S/4HANA address my business and IT requirements?
- How does SAP optimize my Total Cost of Implementation (TCI) / Total Cost of Ownership (TCO)?
- Is there sufficient capacity on the market to manage all aspects of the transformation?



Key program activities are linked to the questions above:

Continue to enhance the attractiveness of the SAP S/4HANA product	Optimize tools for the entire customer journey	Optimize and scale customer engagement frameworks	Engage and educate the ecosystem

Training and enablement for project teams, admins, key- and end-users drive transformation success

Build

When **Implementation teams** are well trained

Organizations can reduce **deployment time** 10%, On average, almost a month

Run

When **Administrators** are well trained

Organizations initiate **fewer support calls** and fewer critical tickets

SAP Ariba	20% reduction
SuccessFactors	62% reduction
SAP S/4HANA	20% reduction

Value Realization

When **End users** are well trained

Organizations show improvements in **solution specific value drivers or KPIs**

SAP Ariba	58%
SuccessFactors	51%
SAP S/4HANA	51%

3x

Transformation success is more than three times likelier when organizations have invested the right amount in digital talent.[2]

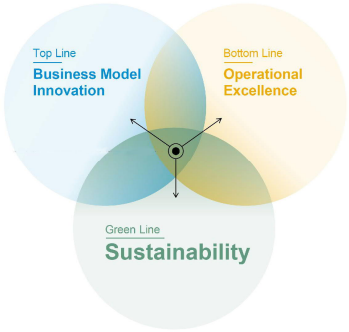
People make digital transformation a success

Digital skill development is a key success factor for driving a company's transformation towards the intelligent enterprise.

Opportunities with the Intelligent Enterprise



- Technology is the driver of innovation in the digital economy
- The intelligent enterprise offers plenty of opportunity to impact
  - top line (business model innovation)
  - bottom line (operational excellence)
  - and green line (sustainability)

Business and IT need digital skills to capitalize on the opportunities

- Future success largely depends on digital skills to explore these opportunities.
- Business and IT need the right skills to recognize the potential, define a digital vision for their companies, work out execution plans for how to get there and capitalize on that potential.
- With the knowledge to identify digital opportunities and with an upskilled workforce to implement the strategies, businesses will be able to create and execute effective digital strategies.

SAP Blended Learning Academy

The SAP Blended Learning Academy is a guided modular training program that combines virtual instructor led live classroom learning units with self-study learning via the SAP Learning Hub as well as access to the training systems and ends in the SAP consultant certification.

Key Components

- Defined start and end date: 3-5 months duration, depending on the Learning Journey
- Instructor-led **kick-off event** (SAP Live Class)
- Self-Study phase including
  - Engaging eLearning and multi-media formats in **SAP Learning Hub**
  - Hands-on Practice with **SAP Live Access**
  - **SAP Learning Room** with instructor-led guidance and social exchange during the complete learning process
- Scheduled, halfway **SAP Live Class session** for review and Q&A
- Instructor-led **wrap up event** for final review and certification preparation (SAP Live Class)
- **Certification** (SAP Global Certification)

Example

SAP S/4HANA Academy
Financial Accounting (FI)/Management Accounting (CO)/Manufacturing (PP), Procurement (MM)/Sales (SD)

SAP S/4HANA Integration
Integrated Business Processes in SAP S/4HANA

SAP S/4HANA Conversion
Finance (FI/CO)/Manufacturing (PP), Procurement (MM)/Sales (SD)

SAP Global Certification

Innovative, trusted and globally recognized certification for professional SAP expertise

Interactive, user-friendly **learning and certification exams via SAP Learning Hub**.

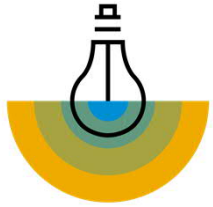
150+ certifications by area of focus and skill level to gain specialized skills and expertise.

Anytime, anywhere access to certification training and exams

- **Online:** Remotely proctored and can be taken at home on the computer
- **On-site:** Taken in person by booking at a SAP Training Center* near you.

Globally recognized certification with standardized criterion for major SAP roles and responsibilities..

Digital badges to verify certification status and skills, and make learning achievements visible.



Stay current content and assessments for new SAP releases to keep skills up-to-date.

* Onsite exams are also available online, SAP selects the onsite exam location

Wrap-up and call to action

People make transformation to SAP S/4HANA a success

Training and enablement for project teams, admins, key- and end-users drive a successful transformation to SAP S/4HANA .

Enablement Planning & Execution

- Assess a company's enablement capability, define its enablement strategy and analyze learning needs for all roles.
- SAP project teams, admins and users need to be enabled along the customer innovation lifecycle for SAP S/4HANA.

Continuous SAP S/4HANA enablement for all roles

- SAP Professionals are learning prior, during and after project delivery.
- Drive user adoption and performance by enabling users in the flow of work with Web Assistant and create customer specific in-app help and learning.

Learning is a decisive factor for sustainable success

Digital skill development is a key success factor for driving a company's transformation towards the intelligent enterprise with SAP S/4HANA.

New Launchpad Layout: Spaces and Pages
Pages can be used to display the apps instead of the classic home page. For the cloud customer administrator there is a new WYSIWG editor to easily create launchpad pages or edit predefined pages. Spaces and pages should enhance the flexibility to tailor the launchpad layout according to customer and user needs.
SAP delivers launchpad spaces and pages templates for many business role templates. We are introducing this concept and are delivering space and page templates for many roles with this version. The templates can be used to get acquainted with the concept and to roll-out spaces and pages to the end user. Personalization options for users are supported as already known from the home page with minor changes and restrictions. Administrators can enable users to switch between the home page and the spaces and pages layout.
The spaces mode currently does not support all features you are used to from the home page. The following restrictions apply:
Displaying links instead of tiles and converting tiles to links is not supported.
The following restrictions apply to the personalization of pages:
So far we had locked groups that could not be changed by the user. The pages do not support locked sections.
Tile information, e.g. tile names, cannot be changed.
Custom tile actions cannot be added.
The dialog to select a group for an app is not available.
The bookmarking feature was changed. There may be issues with customer-designed apps that do not use the standard API for the bookmark function. ensure that your own apps work, test the bookmark feature (if available). Get back to SAP if you encounter any problems.

All Roles
Accelerated Customer Returns
Complete the end-to-end returns and refunding process, with automated creation of all follow-up documents.
Accelerated Third Party Returns
Materials are shipped to the customer via third-party delivery. The customer returns these materials directly to the supplier.
Accounting and Financial Close
Complete the end-to-end returns and refunding process, with automated creation of all follow-up documents.
Accounting and Financial Close - Group Ledger IFRS
Complete required period-end closing steps.
Accounts Payable
Manage your open payable invoices that are automatically created from purchasing processes.
Accounts Receivable
Manage your open receivables invoices that are created automatically from sales processes.
Advanced Available-to-Promise Processing
Use Advanced Available-to-Promise (aATP) for individual material-plant combinations and for sales orders created in the Sell from Stock scenario.
Advanced Cash Operations
Checking and tracking bank and cash positions.
Advanced Credit Management
Manage and calculate credit limits for customers automatically based on formulas.
Advanced Financial Closing
Advanced Financial Closing supports the planning, automating, processing, monitoring, and analysis of tasks in financial close for the entities of the customer group.
Advanced Resource Management - Project-Based Serv…
Monitor and analyze resource utilization and the staffing of resource requests.
Asset Accounting
Manage and document fixed asset transactions in detail.
Asset Accounting- Parallel Ledger
Asset accounting is a subsidiary ledger of the general ledger and is used to manage, document and update fixed asset transactions in detail.
Asset Under Construction
Acquire assets for constructed assets and monitor them until the construction is finished.
Asset Under Construction - Group Ledger IFRS
Learn about Assets under Construction (AuC). Assign actual postings to the AuC and transfer the completed asset to the final fixed asset.
Automated Invoice Settlement
Create settlement documents at regular intervals.
Automated Purchase to Pay with SAP Ariba Commerce…
Automate purchase order to invoice processing with your suppliers on Ariba Network.
Bank Integration with File Interface
Download payment files for outgoing payments, which have been generated by SAP S/4HANA. Upload the files for payment processing.
Bank Integration with SAP Multi-Bank Connectivity
Connect to your banks to send payment instructions, receive status notifications, and receive bank statements.
Basic Available-to-Promise Processing
Schedule and monitor a backorder processing (BOP) run.
Basic Bank Account Management
Manage bank account master data with basic cash management and direct revision activate.

Q&A

Q: Do we get only the Digital Badge like for OpenSAP or do we also get the original certificate in PDF/paper form?

A: The SAP Global Certification digital badge you get when passing a certification exam is the original certificate. You can download the Digital Badges also as PDF certificate via the "print" functionality in Acclaim but we recommend to share the digital badge URL to allow real time verification.

Q: Do the existing SAP Partners get any discounts for their consultants when they book certification subscriptions?

A: Partner companies can buy the SAP Learning Hub Solution Edition that includes certification subscription for 2 certification attempts and assign this to their consultants. In case Partner Companies want to buy the Certification subscription package with 6 attempts for their consultants, they should watch out for campaign offerings that SAP run from time to time that might also include certification attempts.

Q: Six attempt means - consultants can try to get certified in six different learning journey OR six attempts restricted only to one learning journey?

A: Six attempts means that you buy a subscription for 6 tries not matter which certification exam you want to take. You can try one exam 3 times using 3 attempts. In case you pass all exams with the first try you can do 6 different certifications with the 6 attempts no matter to which Learning journey the certifications belong to.

Q: It seems there are several "Associate" only levels but do not offer a "Professional" certification level for common topics like ACTIVATE. But how can I book a professional level/learning on SAP Learning Hub and do the certification for the professional level?

A: Yes the "Professional" level is only offered in solutions that have a high demand to show this second level also to their customers. For common topics like Activate we do not offer such a Professional level because these certifications were often shown in the consultants curriculum in addition to the solution or product they have specialized in. If there is no "Professional" Level shown in the Learning Journey it is not existing and cannot be booked.

Q: I hope my point is not too specific, it is about content delivery in a Learning Hub course. THE Core course for SAP Activate in the Learning Hub is ACT100. Unfortunately, it is rather a fragment. WHO can be asked to take a look and to put some effort into this specific course?

A: The ACT100 course had a full update last year 2019 and the new version has been available since January 2020. Changes to the course we did in full alignment with SAP Activate's Chief Product Owner and customer feedback. Please have also a look into this blog that our portfolio manager posted in SAP Community last week, which stresses the significance of that update

Q&A

Q: there is a dedicated partnership with some universities and students in those universities benefit from free SAP Certifications. However, there are some students in other universities who are keen on taking up SAP Certifications. Will there be free access for such students?

A: Thank you for your interest in SAP certifications for students! Indeed, for a period of three months (ending soon!), there is a free offering for students from SAP University Alliances member universities to get access to learning material, live system access to practice and finally one free attempt for a certification: https://training.sap.com/content/student-learning-offering If your university is not yet an SAP University Alliances member, the university can contact us via uasupport.germany@sap.com to receive membership information. Once the free access period is closed, the student certifications continue to be available for the student price of 125€ plus tax, varies per region: https://training.sap.com/course/cers01-sap-certification-in-the-cloud-for-students-1-attempt-certification-online-010-de-de/ Please check also our OpenSAP courses.

Q: Can we get all the required certification material on learning hub? if yes, how can we find it and download? s well?

A: Yes, all the required certification material you can find in the SAP Learning Hub. You can check for each certification what is required and which courses you need to study. You can also choose the academy classes (also visible in the Learning journey as I presented), because this material is focused on the certification topics.

Q: Are there free-of-charge learnings for system administrators?

A: Yes, we offer several topics in openSAP, but for sure it depends on what you looking for.
