EU VAT Quick Fixes

SAP overview

EU VAT Quick Fixes - Overview

Business Background/Impact

The four “VAT Quick Fixes” in relation to EU cross-border trade addressed in the reform of EU VAT rules by the European Commission, which take effect from 1 January 2020. They concern the following areas:

- Call-off stock rules
- Mandatory VAT identification number to apply the zero VAT rate to intra-EU supplies
- Evidence of intra-EU supplies
- Chain transactions rules

Reference

- Council Implementing Regulation (EU) 2018/1912 of 4 December 2018 amending Implementing Regulation (EU) No 282/2011 as regards certain exemptions for intra-Community transactions
- COUNCIL DIRECTIVE (EU) 2018/1910 of 4 December 2018 amending Directive 2006/112/EC as regards the harmonisation and simplification of certain rules in the value added tax system for the taxation of trade between Member States

SAP

Solutions

- **Call-off stock rules**

[New process for intra-community call-off stocks \(a.k.a. consignment stocks\) in the EU effective as of January 1st, 2020](#)

- **Mandatory VAT identification number to apply the zero VAT rate to intra-EU supplies**

[Validation of VAT registration number of EU business partners](#)

Recommendations

- **Evidence of intra-EU supplies**

We recommend you to carefully review your current process around collecting and archiving Evidence of intra-EU supplies. SAP standard features may be considered to manage the requirement manually.

- The standard attachment feature
- The standard Proof of Delivery functionality is useful to manage status of the delivery confirmation sent by Ship to party upon the receipt of goods.

- **Chain transactions rules**

We recommend you to carefully evaluate the impact of the future rules on your intra-Community supply chains and how the VAT treatment of your supply chains can benefit from the simplified treatment.

- SAP is aware of the scenario, but today there is no dedicated standard solution available.
