Our Integration Success

Eneco made its a cloud-first strategy a reality to help customers make the switch to **clean, smart, and sustainably generated energy.**

Eneco worked with SAP partner Proxcellence to design its cloud platform approach and implement **SAP® Cloud Platform Integration Suite, gaining:**

- Optimal implementation of design-to-operate process by leveraging the cloud integration capabilities of SAP Cloud Platform Integration Suite
- Flexibility to integrate between all SAP and third-party systems, thanks to the cloud integration capabilities offered by SAP Cloud Platform Integration Suite
- Simpler IT that helps drive innovation
- No costs for hardware installation, thanks to a minimal up-front investment
- Standard integration content with automated release-update cycles
- Automatic monthly upgrades to the cloud infrastructure, eliminating the need to invest in technical monitoring and upgrades
- An opportunity to look at SAP Integration Solution Advisory Methodology, with plans to follow the methodology for integration governance in the future

“Thanks to SAP Cloud Platform Integration Suite, we were able to cut down our IT spend for integration middleware to between 50% and 60% of our annual total cost of ownership. At the same time, the **ease of use and flexibility of the solution helped us go live in a matter of weeks.**”

Marco Verhoef, Integration Consultant, IT Asset Management, Eneco Holding N.V.

De app 'Dat ben ik' van Alzheimer Nederland helpt je om het gesprek aan te gaan met mensen met dementie. Weet je even niet waar je het over moet hebben? Met de app heb je altijd een gespreksonderwerp bij de hand die positieve herinneringen oproept. Voor mensen met dementie is het lastiger om een gesprek te starten. Daarnaast weten sommige mensen niet goed waarover ze kunnen praten als ze iemand met dementie bezoeken. Daarom maakten we [meer](#)
