5 Steps to Fiori Bootcamp for Customers
Hands-on Experience Bootcamp

Brought to you by the S/4HANA Regional Implementation Group

PUBLIC

THE BEST RUN SAP

Key Benefits from Implementing & Using SAP Fiori

SAP Fiori is how business users consume the latest SAP S/4HANA innovations, including:

- ❏ The many new processes **only available with SAP S/4HANA** (think Group Reporting, Predictive MRP, Central Procurement, Automated Sales Order Extraction, and many more)

- ❏ Intelligent technologies (think Situation Handling, Machine Learning, Robotic Process Automation)

- ❏ Mobile access to your SAP processes

- ❏ Embedded Analytics

Monetary Value

Gain productivity, data quality

Save training costs

Decrease change request, user errors

Human Value

Increase user satisfaction, customer loyalty, solution adoption

Strengthen relationship (IT and business)

5 Steps to Fiori Bootcamp for Customers

Brought to you by the S/4HANA Regional Implementation Group (RIG)

Boost your knowledge and confidence by executing a FREE guided end-to-end SAP Fiori implementation in SAP S/4HANA*

If you, as an SAP customer of an SAP S/4HANA On-Premise or Private Cloud Edition (PCE) installation, are planning to implement SAP Fiori, this is a great opportunity to *get hands-on experience* and a confident understanding of what it takes to roll-out SAP Fiori to your business users.

During this *bootcamp* you participate as a *team (with technical basis, security, ABAP development, and application expertise)* and complete all the hands-on exercises, either *in your own SAP S/4HANA sandbox system* or *in your own S/4HANA cloud appliance trial system***.

S/4HANA RIG experts explain step-by-step how to implement and troubleshoot SAP Fiori in virtual classroom sessions. They provide activity documents for each step, are available to answer questions and assist you through the entire duration of the bootcamp.

It comes **FREE** from SAP to you. Please see subsequent slides to get details on the available schedules per region.

*Enrollment for SAP S/4HANA 2021 and SAP S/4HANA 2020 customers is open

**Deploying an S/4HANA Cloud Appliance System requires you to consider hosting costs from your preferred cloud provider (AWS, GCP, Azure) for the duration of the training.

What did you like most about the SAP 5 Steps to Fiori training program?*
Survey Question

AMERICAS

EMEA

APJ

"The content of the exercises are excellent. I really appreciated the course material, a content so helpful."

"Overall, it is really a good session to get an overview of what skill is required to keep us updated on Fiori developments"

"This was a great beginning, we now know we have a lot to learn and a place to start… thank you"

"Thanks for the decks and step by step procedures which can be executed by anyone ."

"Good intro to Fiori and how to setup, maintain and monitor"

"The bootcamp was an eye opener for us to realize that FIORI is more than a new GUI for SAP"

"That is a wonderful program! it gave a good idea about the possible business use"

"It lifted our knowledge about the new features available in the embedded launchpad."

"This bootcamp is an excellent program. It provides a good overview of cross team enablement into Fiori. The topics and exercises covered for functional were interesting and insightful."

"It's very good training curriculum that SAP had delivered, very clear step by step instruction that try to make us understand the importance of UX and function of Fiori Launchpad."

"Great to be able to get a guided hands-on approach and get our hands dirty with the FLP in CAL."

"Good program to improve knowledge on Fiori. Hoping for more such sessions"

Survey Question: How likely are you to recommend the SAP 5 Steps to Fiori training program to other customers?*
(On a scale of 1-10)

8.65

How do I register?

- Ideally, participate as a **team** covering all **required roles**

- Please align upfront internally and choose a **dedicated person** who will register once on behalf of the whole team

- Link(s) to register on the next slide(s)

System profile

Use your own Sandbox or deploy Cloud Appliance SAP S/4HANA trial system

Mandatory prerequisite for enrollment

Option 1: Use your own Sandbox System

SAP S/4HANA 2021 or SAP S/4HANA 2020 system
Embedded Fiori frontend server required!

### Option 2: Deploy your own SAP S/4HANA Trial System

SAP S/4HANA 2021 Fully Activated Appliance trial from SAP Cloud
Appliance Library https://cal.sap.com

Stand up your system in less than 2 hours!

Includes:

- Step by step activation guide
- Embedded Fiori frontend server
- Full SAP Fiori for SAP S/4HANA and SAP S/4HANA software
- Demo users, Demo guides, and Sample business data

You cover Cloud Storage & Activation Costs ($) – e.g. through your Cloud
Provider arrangements with AWS. Microsoft Azure, or Google Cloud Platform

Resources Profiles of your Team

Technical / Basis Expert

Profile: Senior technical expert with basic knowledge on operating and supporting ABAP systems

Main tasks: Configuration of front-end server, activation of SAP Fiori applications, additional SAP Fiori configurations, troubleshooting.

Hours of commitment*: ~ 15-30 hours (Presentation: 8 and Hands-On: ~ 7-22)

Application Expert

Profile: Senior application expert in finance or logistics

Main tasks: Scope business roles and apps. Explore, test, validate, extend and troubleshoot the applications activated during the program. Explore some example intelligent automation use cases in SAP Fiori apps.

Hours of commitment*: ~ 15-30 hours (Presentation: 8 and Hands-on: ~ 7-22)

ABAP Developer

Profile: Experienced in ABAP development + interested in learning SAP Fiori development

Main tasks: Set up you SAP Fiori development environment, adapt/extend SAP Fiori, build your own custom apps for SAP Fiori.

Hours of commitment*: ~ 15-30 hours (Presentation: 8 and Hands-on: ~ 7-22)

### Security Authorizations Expert

Profile: Senior security/authorizations consultant with basic knowledge of SAP authorizations

Main tasks: Creation of custom roles, adjust launchpad content and layout for SAP Fiori, understanding SAP Fiori content exposure options and authorization assignment.

Hours of commitment*: ~ 15-30 hours (Presentation: 8 and Hands-On: ~ 7-22)

Team Lead

**Main tasks:** Follow-up and coordinate team activities, main contact with SAP RIG team

Hours of commitment: 10 hours

Estimated, real effort depends on your teams skills, availability and priorities

Step by step approach:

Roll-out sessions + Hands-on Experience

STEP 1 Roll-out session	STEP 2 Roll-out session	STEP 3 Roll-out session		STEP 4 Roll-out session	STEP 5 Roll-out session
Apply required notes Apply Development transport Activation of Enterprise Search and Embedded Analytics	Activation and configuration of SAP Fiori Launchpad Activation and configuration of SAP Fiori applications	Setup Launchpad features Setup Situation Handling Performance tracing and optimization		Patching SAP Fiori (SAPUI5) versions Using Extensibility tools	SAP Fiori Monitoring
Scoping business roles Working with the SAP Fiori apps library	Running Fiori App Recommendations Tool	Exploring SAP Fiori Apps Personalizing SAP Fiori apps	SAP Fiori Troubleshooting	Using Extensibility tools	Exploring Intelligent Automation use cases
Preparing SCP trial account / Deploying SAP Cloud Connector Setting up SAP Business Application Studio	Install ADT in Eclipse ADT Development Basics	SAP Theme Designer Classic UI integration		Develop an SAP Fiori app with ABAP Programming Model for Fiori Using Extensibility tools	Develop an SAP Fiori app with ABAP RESTful Programming Model
Understanding Business Roles Finding Authorization information for Business Roles	Exploring Business roles Understanding authorizations in the SAP Fiori Launchpad	Using the Launchpad content manager Authorizations in CDS Views		Using the Launchpad app manager	Using Spaces and Pages (Optional) Using Groups

Sample Timeline – 3 week training

Three week training

Roll-out session (1 hour)

	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
CW01	STEP 1		STEP 2		

+16 hours to complete work package

	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
CW02	STEP 3		STEP 4		

	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
CW03	STEP 5		Closing / Feedback (30 minutes)		

	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
CW04		Restricted Support*			

During the Restricted Support week the RIG team will continue to provide assistance with exercises and questions with limited availability

Timeline EMEA01 February / March 2022

Three week training

At the beginning of each Work Package there is a general session of 1.5 hours scheduled at 09:00 CET, after each general session – the teams have at least 16 hours to complete the Work Package and all the exercises. There is also an introduction session scheduled on Monday February 21st 2022

	28/02	01/03	02/03	03/03	04/03
CW09	STEP 1		STEP 2		

	07/03	08/03	09/03	10/03	11/03
CW10	STEP 3		STEP 4		

	14/03	15/03	16/03	17/03	18/03
CW11			STEP 5		Closing / Feedback (30 minutes)

During the Restricted Support week CW11 the RIG team will continue to provide assistance with exercises and questions with limited availability

Transform your team!

As an outcome of this training you:

- Identify **critical project activities** and landscape requirements to adopt SAP Fiori for SAP S/4HANA.

- **Gain the knowledge to leverage real business innovations** through the formula:

  Good User Experience = Good User Adoption = Real Business Benefits

- **Grow your people into your UX Team** (cross-functional + technical)

- Consider who will be your **UX Architect** and **identify further enablement needs**

Disclaimer & Important Information

This bootcamp will cover:

- Each customer to implement a single SAP Fiori instance in SAP S/4HANA

- Hands-on experience in the technical and functional activities for doing an SAP Fiori system implementation

- Installation and configuration of embedded SAP Fiori

- Overview of the extensibility options in SAP Fiori

Out of Scope:

- Integration to SAP or third-party systems

- Configuration of new functionality

Frequently Asked Questions

- **Can we also use our development system for this bootcamp?**

- **Why would we use a CAL system?**

- **How much does it cost using a CAL system?**

- **What if we cannot join the general sessions due to conflicting meetings or urgent work?**

- **What S/4HANA release should my system be on?**

- **How long does it take to complete the exercises?**

- **Can we have one person executing different roles?**

- **Do we really have to install the SAP Cloud Connector?**

- **Do we need someone with Networking experience joining the bootcamp?**

- **How can we test the connectivity?**
