SAP Task Center – **One workflow inbox** for the intelligent suite

Allows users to process approval items from multiple SAP solutions in just one click, whether on the Web or a mobile device

... across SAP solutions

SAP S/4HANA, SAP S/4HANA Cloud, private edition, SAP S/4HANA Cloud, SAP SuccessFactors solutions, SAP Fieldglass solutions, and the SAP Ariba Buying, SAP Ariba Sourcing, and SAP Build Process Automation solutions

User experience

Technical foundation

... applying consistent suite qualities

- Aligned domain models
- Consistent security and identity management
- Consistent user experience
- Coordinated lifecycle management

... based on

SAP Business Technology Platform

The integration world is hybrid

Extended integration footprint for hybrid scenarios

Suite qualities:

- Hire-to-retire scenario completely based on SAP One Domain Model, including the objects Workforce Person, Cost Center, Company Code, Bank, and Exchange Rates (SAP S/4HANA Cloud, release 2211*)
- Support of One Domain Model ID (OID) 2.0 (as of 2208 release) to manage SAP One Domain Model in hybrid landscapes

Functional integrations:

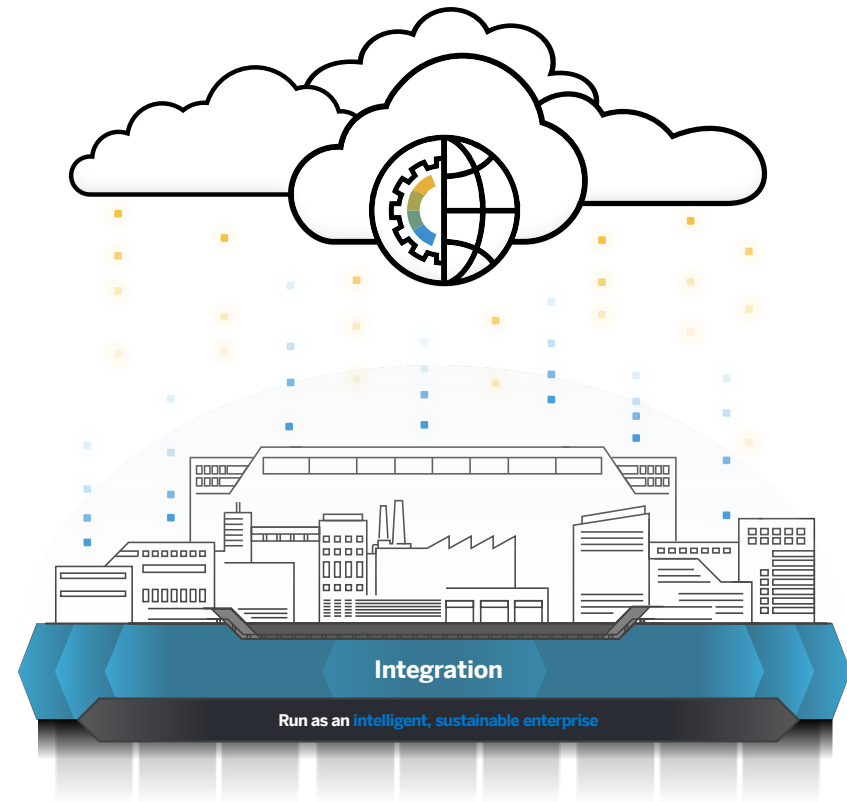

- Growing number of integration scenarios available for SAP S/4HANA (on-premise) – one of the latest examples: Lead-to-cash process: integration between the SAP CPQ and the SAP Billing and Revenue Innovation Management solutions for hybrid deployments

SAP software-to-any integration:

- Edge Integration Cell runtime deployment option (Beta) for SAP Integration Suite for optimal support of hybrid integration scenarios*
- SAP Master Data Integration service adapter for Cloud Integration capability with SAP Integration Suite

* Current state of planning at the time of the session recording
