Filter and select systems to display SAP Notes

The screenshot illustrates the process of filtering and selecting systems in SAP S/4HANA to display SAP Notes. It is divided into two main sections: a filter selection dialog and a system list view.

Filter Selection Dialog: A modal window titled "Product Version" is open, showing a search bar with "s/4hana" and a list of product versions. The "SAP S/4HANA 2020" option is selected with a checkmark.

System List View: The main interface shows a table of systems. A callout box points to the filter icon in the top right corner of the table, with the text: "Filter Systems e.g. by Product Version SAP S/4HANA 2020".

System	Type	System Number	Customer Number	Data Source	Leading Product	Leading Product Version	System Role	Transport Domain	Last Changed On
