Integration Suite
Latest migration assessment features

- New rules added
- Improved system settings
Latest migration tool features

Migration Tool
- Summary page
- Further adapters supported: XI, JDBC, RFC
- Externalized parameters supported
- New and improved migration templates

Channel Mappings
The table below depicts the equivalent sender and receiver adapters created in the integration flow.

<table>
<thead>
<tr>
<th>Direction</th>
<th>Component</th>
<th>Source Adapter Type</th>
<th>Target Adapter Type</th>
<th>Channel Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sender</td>
<td>BC_PIMAS_Sender</td>
<td>SOAP</td>
<td>SOAP</td>
<td>CC_SOAP_BE_Sender</td>
</tr>
<tr>
<td>Receiver</td>
<td>BC_PIMAS_Receiver</td>
<td>REST</td>
<td>HTTP</td>
<td>CC_REST_BE_Employee_Rceiver</td>
</tr>
</tbody>
</table>

Next Steps
Check the newly created integration flow for any missing steps and configurations before deployment. For example,
- Unsupported adapters and flow steps are not migrated and you must manually pick the right adapter. See: Supported Components and Known Limitations.
- In case of connections to an on-premise system, make sure that proxy type and location ID are correctly configured.
- Check the configured security artifacts like credential name and key alias. Deploy the required security artifacts.
- Test the connectivity to your receiver system using the Test Connectivity file in the Monitor tab.
- For RFC receiver adapters, make sure that you have configured the RFC destination in your SAP BTP cockpit. See: Creating an RFC Destination.
- For JDBC receiver adapters, make sure that you have added the JDBC data source. See: Managing JDBC Data Sources.

After checking the above mentioned steps, you can now proceed and deploy the migrated integration flow.
Cloud Integration
Action required: Move from third party adapters to new adapter versions

As per SAP note 3001980 the following adapters are deprecated since December 31st, 2020:
▪ Salesforce, Amazon Web Services, Microsoft Dynamics, SugarCRM

There haven't been any new features or enhancements for these adapters.

As of January 1st, 2024, adapters will no longer run.

Action required
▪ Option 1: Migrate to updated new adapter versions and benefit from multiple new features
  – Migration support documented in SAP Work Zone, e. g. Salesforce adapter, Amazon Web Services adapter
  – Request access to SAP Work Zone at Annemarie Kiefer (annemarie.kiefer@sap.com)
  – SAP offers tips and tricks for migration
  – Rojo Consultancy as the adapter expert offers consultancy services. Fees apply.
  – For further question and support, open a ticket on the “LOD-HCI-PI-CON-TPRO” component, subject: “Help with upgrading to the OEM adapters”
▪ Option 2: Purchase new adapter versions from Advantco LLC with support from Advantco only
▪ For both options: Delete integration flows using the adapters that are no longer in use and undeploy adapters
Business Accelerator Hub
SAP API Business Hub is now **SAP Business Accelerator Hub**

Marketplace to accelerate the customer’s journey to value

- Enable persona-focused landing pages and simplify the discovery
- Accelerate customer’s journey to value with prebuilt content
- APIs continue to be supported, [https://api.sap.com](https://api.sap.com) remains

Business accelerator for discovering APIs, events, and integrations but also business processes, CDS views, and SAP Build content.
Invitation: “Integration Black Belts”

“Interact with Integration Blackbelts”

• Speakers from customers / partners / stakeholders / consultants to share their innovations, solution architecture, best practices and integration patterns
• 20 mins slot
• Interested to present? Reach out to gautham.krishna@sap.com
What is #AskAnythingIntegration?

Provides a platform for customers, partners, consultants, and participants to ask their most important and top priority questions and get them answered by the panel of experts.
- Questions can be sent upfront or posted directly in the call
- Questions and answers will then be published as a public FAQ document with regular updates and additions

Panel of Experts: Speakers of the monthly webinar + product Management team
Schedule: Runs every alternate month
Duration: 20 mins
Moderator: Gautham (gautham.krishna@sap.com)

Note: “Interact with #IntegrationBlackBelt” section will transition to alternate months.
Q & A
Thank you.
