

## Introduction to License Utilization Information Application

Global License Audit & Compliance May, 2020

PUBLIC

#### Agenda

Why it is so difficult to be license compliant?

Scope for License Utilization Information (LUI)

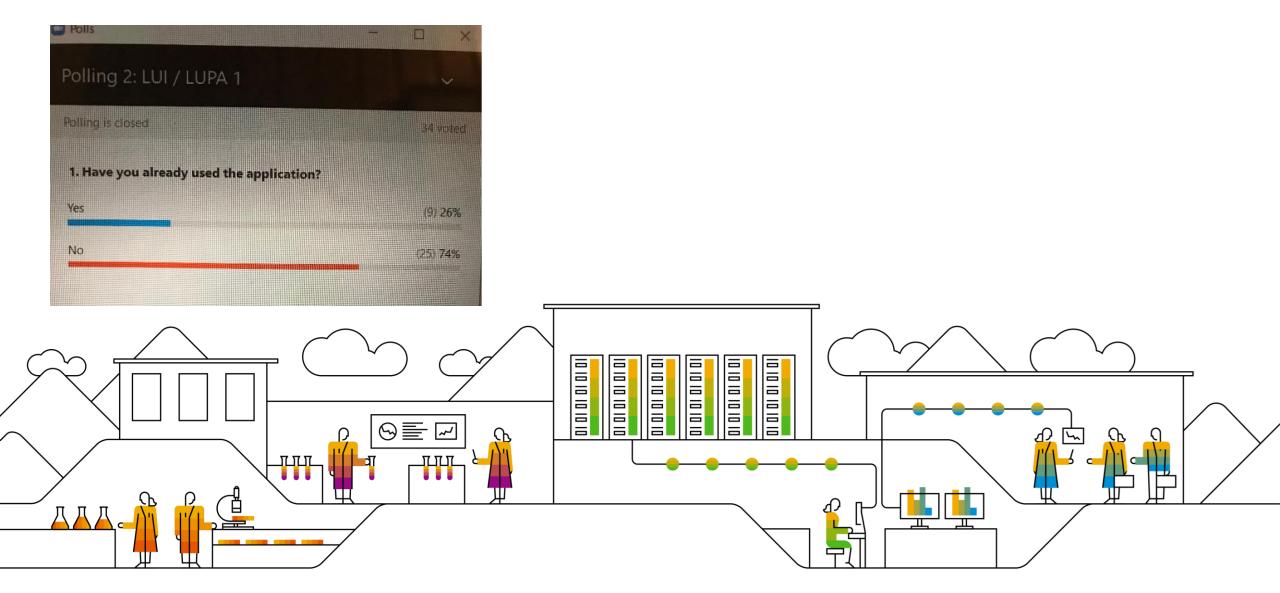

Process Overview License Utilization Information (LUI)

License Utilization Information (LUI) Components

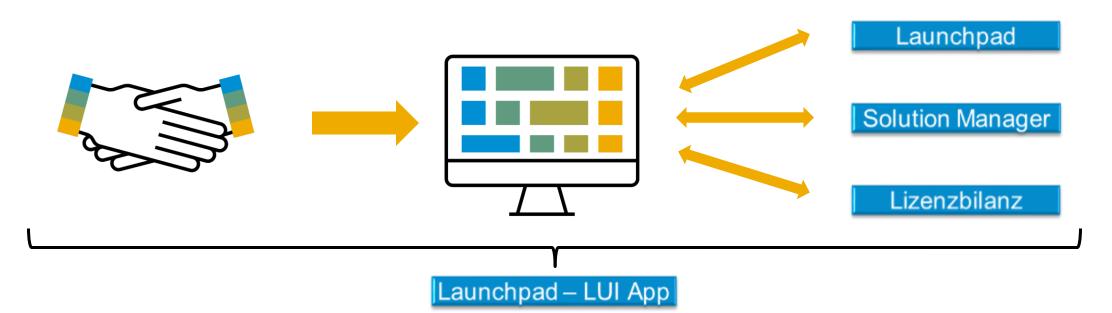

How to access License Utilization Information (LUI)?

Miscellaneous

## **Poll results 1**

### License Utilization Information Applikation (LUI)

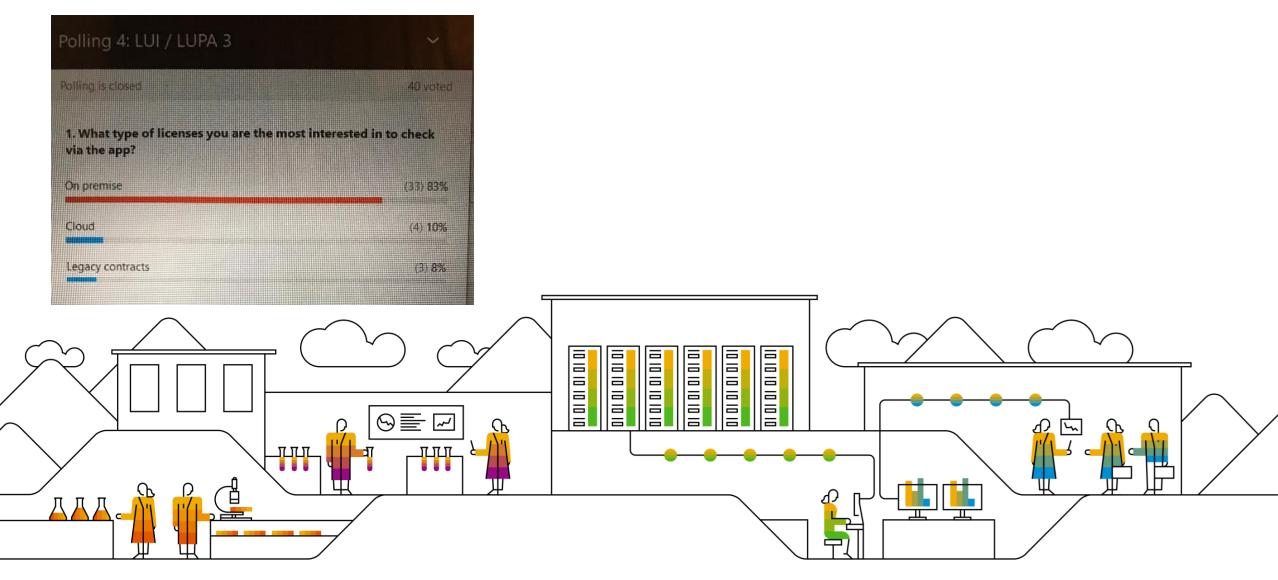

The *License Utilization Information (LUI)* application provides a comprehensive overview of SAP license entitlement and SAP software usage.

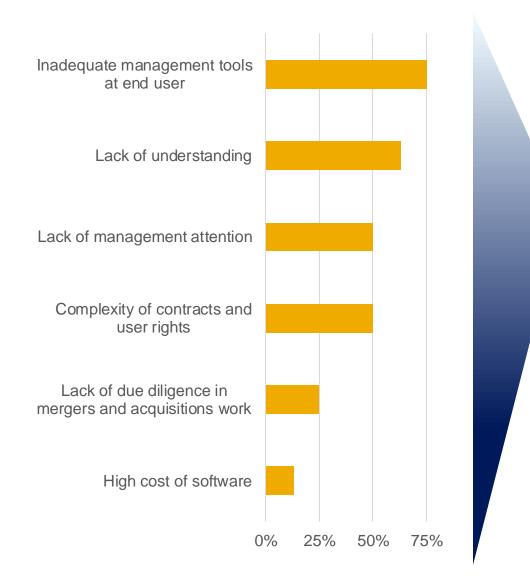

- On Premise: To receive the software usage results a system measurement has to be performed on each and every measurement relevant system.
- Public Cloud: no additional measurements required

## **Poll results 2**

### Why it is so difficult to be license compliant?

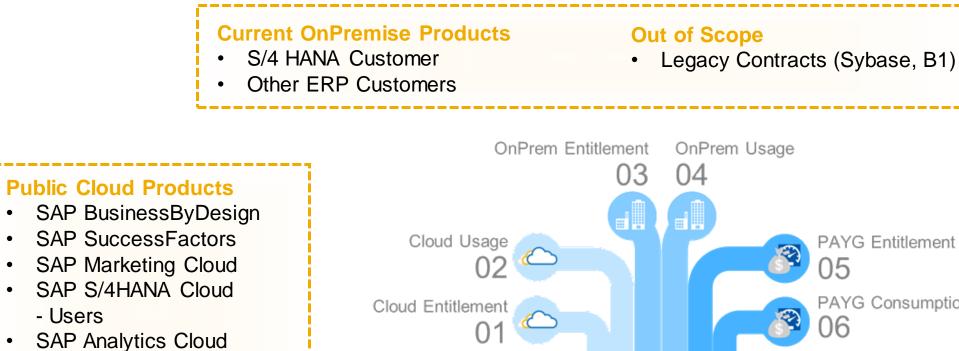

What our Customer need:

Easy License Monitoring (Fully) Automated Metering Measurable Pricing

### Scope for License Utilization Information (LUI)

- Education
- And more ٠

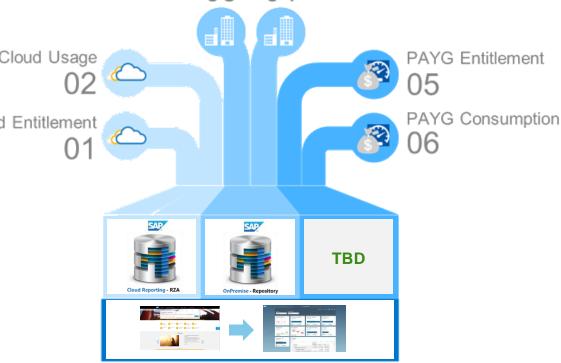

- Users

### How to access LUI?

Currently, only Super Admins have access to the LUI application.

In order to be able to access the LUI application the following profiles must be assigned by the company Super Amdin in the SAP One Support Launchpad to each S User:

- Access License Utilization for Cloud
- Access License Utilization for onPrem

#### **Miscellaneous**

Additional Information about LUI can be found under: <u>https://support.sap.com/en/my-</u> <u>support/systems-installations/license-</u> <u>utilization-information.html</u>

LUI can be

SAP Support Portal Home / My Support / Systems & Installations

License Utilization Information

Overview Requirements Video Availability Preparations Roadmap Help

License Utilization Information Application (LUI)
The License Utilization Information Application for SAP Software usage for SAP Public Cloud and SAP S/4HANA On-Premise customers.

#### Requirements to access the LUI Application

Currently, only Super Admins have access to the LUI application. In order to be able to access the LUI application the following profiles must be assigned to each S User:

- Access License Utilization for Cloud
- Access License Utilization for onPrem (please check the road map for more details for OnPrem contracts and when they will become live in LUI).

Please reach out to the Super Admin user to assign the profiles accordingly.

Please note: Microsoft Internet Explorer 11 (IE11) Enterprise Mode is not supported and there might be limitations to the application. It is recommended to use another browser (e.g. Google Chrome, Mozilla Firefox). Enter the License Utilization Information Application (LUI) to get an overview of your company's current license usage and license entitlement, either through SAP ONE Support Launchpad or directly through the Application.

#### Enter SAP ONE Support Launchpad

#### Enter License Utilization Information Application

# Thank you.
